I GIVE THEE LOVE.

BY HELEN M. WELTON.

I give thee love, without regret,
Of my heart's-pulses born,
And wrap me in its treasured fold,
Regardless of thy scorn.

I give thee thoughts, more tender far
Than angel hand or tread,
That o'er the couch of dying love
Its pitying mantle spread.

I give thee prayer with voiceless breath,
When at the twilight gray,
Comes the winged messenger of God
And bears the thought away.

I give thee tears without control,
For sorrow's pleading eye,
Where hidden by those troubled depths,
Are fountains never dry.

I give thee blessings constantly,
As God gives sun and rain,
Yet would not give a single word
To have them back again.

COURTING IN IOWA.

The following circumstances happened in Cedar county, Iowa:

A certain young man being out on a courting expedition came late on Sunday evening, and in order to keep his secret from his young acquaintances, determined to be at home bright and early on Monday morning. Mounted on his horse dressed in his fine white summer pants, and other fixins in proportion, he arrives at the residence of his inamorata, where he was kindly received and his horse properly taken care of, being turned into the pasture for the night. The night having passed away, and three o'clock in the morning arrived. Three o'clock was the time for him to depart, so that he might arrive at home before his comrades were stirring. He sallied forth to the pasture to catch his horse; but here was a difficulty—the grass high and loaded with dew. To venture in with white pants on, would rather take the starch out of them and lead to his detection. It would not do to go in with his white unmentionables, so he quickly made his resolve. He carefully disrobed himself of his valuable "whites" and placed them in safety on the fence while he gave chase with his unscreened pedals through the wet grass after the horse.

Returning to the fence where he had safely suspended his lilly white unmentionables—*O, Horrible Day!* what a sight met his eyes! The field into which his horse had been turned was not only a "horse pasture," but a calf pasture," too, and the naughty calves attracted by the white flag on the fence, had betaken themselves to it, and, calf-like, had eaten them up! only a few well chewed fragments of this once valuable article of the wardrobe now remained—only a few shreds—just sufficient to indicate what they once had been! What a pickle this was for a nice young man to be in?

It was now near daylight and the farmers were up and about, and our hero far from home, with no covering for his drawers to the house of his lady-love, neither could he go to town in that plight. There was only one resource left him, and that was to secrete himself in the bushes until the next night and then get under cover of the darkness.

Safely hid, he remained under the protection of the bushes for some time, and it may be imagined that his feelings toward the calf kind were not of the most friendly character; but ere long, his seclusion was destined to be intruded upon. By and by, the boys, who had been out to feed the calves, returned with the remnants of the identical white garment which adorned the lower limbs of their late visitor. They were mangled and torn into shreds! An inquest was immediately held over them.—Some awful fate had befallen the young man. The neighbors were summoned to search for the mangled corpse, and the posse with all speed set out with dogs and arms. The pasture was thoroughly scoured, and they the adjacent thickets, when lo! our hero was driven out from his lair by the keen scent of the dogs all safe, alive and well, minus the *linen*.

An explanation then ensued at the expense of our hero, but he was successful in the end, and married the lady, and is now living comfortably in one of the flourishing little towns of Iowa.

"SAID THE SPIDER TO THE FLY"—The London Times affectionately urges the people of the United States to adopt entire free trade as the best remedy for their present financial difficulties. If we will buy all our manufactures of England, instead of so great a share of them, the Times thinks we shall soon be out of our difficulties.

Untrue Proverb.—The proverb "lightly come, lightly go," does not apply to the gout, nor to the rheumatism, nor to freckles, nor to a light sovereign; for all these plagues come lightly enough, and yet there is the greatest difficulty in getting them to go.

The Honest Crow.—One of the boys tells us of a scarecrow made by Uncle Ben. It not only scared off every crow that saw it, but one crow was so frightened that he brought back the corn he had stolen three days before!

Dr. Johnson, in the fullness of his sonic smoking wisdom, was heard to say, "I never take up a newspaper without finding something I would have deemed it a loss not to have seen; never without deriving from it instruction and amusement."

The Language of flowers is Lever so sweet as nothing before a storm.—Beautiful when the storm draws nigh they lose their power.

A sky without children would be like old earth without flowers, the sky without stars, heaven without angels.

The number of Odd Fellows in good standing, in Illinois, is over 11,000, with 300 lodges. The relief afforded last year was $12,000.

The remembrances of past happiness is sweet when clothed in the *linen*.

BEAVER MACHINE WORK.

Childs, M'Connell and Darraghs,

FOUNDERS

AND

STEAM ENGINE BUILDERS

Fallston, Beaver County, Pa.

WE respectfully call attention to the inducement offered for purchasing Engines and Machinery mentioned below. We have purchased the right to make and sell the

PATENT OSCILLATING ENGINE

of Messrs. Cridge & Wadsworth, and are now engaged in the manufacture of them at the lowest possible rates, which is about twenty-five per cent lower than the Slide Valve Engine—Their simplicity and durability, combined with their cheapness, and almost utter impossibility to get out of order, renders them the most desirable Engine to have.

The following is a list of the different kinds of Machinery which we have made. Persons wishing to procure anything of the kind, will do well to give us a call before purchasing elsewhere.

Double Slide Valve reciprocating Engines, the same as manufactured at Salem, Ohio; Oscillating Engines; Cridge & Wadsworth's Patent; Tub and Bucket Machinery; Flour Barrel and Keg Machinery; Planing Machinery; Cylinder or Barrel Saws; Fire Brick and Clay Rollers; Starch Rollers; Pipes and Castings for extracting Oil from Canned Coal; Flouring Mill Gearing; Pullies and Shafting; Mulay, Sash, and Circular Saw Mills; Lath Machinery, &c., besides numerous other Machines which it is not necessary to enumerate.

We might add a long list of certificates, but deem any but the following unnecessary.

ECONOMY, December 24th, 1856.

MESSRS. CRIDGE, WADSWORTH & Co. Gentlemen:—We hereby certify that we have had one of your Oscillating Engines in use for nearly four months, and that it gives satisfaction in every respect. Its principal advantages over the common Engine are—

1st. Its simplicity, and the consequent facility to keep it in good order.

2d. It takes up much less room.

3d. It requires less pressure or steam to do the same amount of work; and is, therefore, worked with less danger and less fuel.

Respectfully yours,

R. L. BAKER
JACOB HENRICI,
Trustees

Our facilities for shipping to any point whatever, by Rail Road, Canal, or on the Ohio River, is as good as at any other point. Our works are situated in Fallston, Pa. on the west Bank of the Beaver River, opposite N. Brighton, and only one hour's ride by rail from Pittsburgh. July 1, 1857.

AYER'S PILLS,

A new and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the churchyards all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing before known of any medicine. Cases have been cured beyond belief, where they not only vanished the forms of suffering, but restored the patient to perfect health and character and forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention

DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high profession of character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S.

HON. ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England

JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. WILLIAM L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce more efficient remedies than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities to the exclusion of individual virtue, the only that is desired for the curative effect is present. All the inert and useless properties of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved, more purely medical, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing the composition, I would say, Ayer's Cherry Pectoral and Pills is made by the whole body of Practicing Physicians in the United States and British American Provinces. However, I do not say that they will cure all that derived them, they will relieve all that can be relieved by any medicine, and cure many dangerous and distressing complaints.

The Greatest Medical Discovery OF THE AGE.

DR. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures every kind of humor, from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases. (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of Pimples on the face.

Two or three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers,

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure he most desperate use of rheumatism.

Two or three bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benifit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—In April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it, that I never suspected.

Several cases of epileptic fits—a desease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.

DIRECTIONS—Adults one table spoonful per day—Children over ten years dessert spoonfull. Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by

FULL OF HOPE TO THE AFFLICTED AND SUFFERING!

Many of the thousand portals of Death may be closed, and life made happier, and more comfortable to thousands who are now in danger. Doubtless this world contains many a balm to soothe its physical woes and cure its diseases. Among those in prominent rank, stands

BOWMAN'S VEGETABLE COMPOUND,

A SAFE and speedy cure for Consumption, not only in those milder forms of Throat and Lung Diseases, such as colds, coughs, quinsey, difficulty of breathing, bronchitis, Ministers' sore throat, weakness of the chest, asthma, inward ulcer, spitting of blood, influenza, croup, whooping-cough, pain in the breast and side, hoarseness, catarrh and catarrhal affections, inflammation of the lungs, bleeding of the lungs, and such like. But its superior excellence is seen and tested in the more advanced affections of the lungs. For the truth of the above statement and the efficiency of the preparations as an antidote, we refer the public to the following testimonials:

WONDERFUL DISCOVERY!

The doubting may try and be convinced.

The Proprietors point to the following bona fide certificates with confidence on the community; they are but samples of the many hundreds of testimonials in our possession.

Philadelphia, Aug. 15, 1856.—Last spring, while in Pittsburgh, I had a bad cold and cough, which troubled me much, and a friend of mine gave me a bottle of Bowman's Vegetable Compound for diseases of the throat and lungs, which I commenced taking, and found relief almost immediately. I had taken many things for cough and hoarseness, but never got anything to help me as it has done. I believe it to be the best antidote for coughs and hoarseness that is out, and cheerfully recommend it to the public. THOS. H. STOCKTON.

Pastor 1st Prot. Meth. Church.

From Judge Vanhorn, of the District Court at Cincinnatia.

Cincinnati, May 4, 1856.—I have used Bowman's Vegetable Compound for bronchitis and cough, and believe it to be the best medicine but for those diseases, and the only one I ever got to give me any permanent relief. It will cure. I recommend it to the public as an honest and efficient medicine, and will perform what it is published to do W. VANHORN.

TO THE PUBLIC.

I have used Bowman's Vegetable Compound in my family, for coughs, colds and Ministers' sore throat and believe it to be the best thing that I ever got for those complaints, and cheerfully recommend it to the public.

REV. L. GASTON,

Pastor of the Clinton st. M. E. Church, Cincinnatia.

June 20, 1855.

Here is one from the old pioneer Methodist preacher of Ohio—Rev. J. B. Finley.

I believe Bowman's Vegetable Compound to be the best remedy for Diseases of Throat and Lungs, of the day. I have tested it, and found it to be the best of all the popular remedies I ever tried, and I have tried very many. I recommend it to the public. Try it and you will be convinced of its superiority.

Cincinnati July 1854. Rev. J. B. FINLEY.

Hear what the celebrated Dr. Peck says:

New York, May 12, 1856.—I have used Bowman's Vegetable Compound for coughs and hoarseness in speaking; and believe it to be the best preparation for Throat and Lung complaints I ever got; and I recommend it to the public speaker and singer, as well as those afflicted with Lung diseases. J. T. PECK.

Hear what Dr. Elston, of Cincinnati, says. [Extract from a letter.]

"Bowman's Vegetable Compound contains a virtue which is not possessed by any other popular medicine in our knowledge. It does not only smoothe the disease over, giving it only temporary relief (like most patent medicines,) but it commences at the root of the disease, and performs a perfect cure.
