CAPTURE OF GEN. WALKER.

WASHINGTON CITY, Dec. 29.—The instructions to Com. Paulding were necessarily general in their nature, it being impossible for the government to anticipate every state of circumstances, and not until his official despatches shall have been considered, will it be determined whether or not he was justified in General Walker's arrest.

The Herald's Washington correspondent says that it is stated that Com. Paulding acted without instructions in his demonstration against the filibusters, the only orders issued being simply those promulgated some time since to all the officers of the Federal Government to prevent infractions of the neutrality laws. It is furthermore stated that the administration disclaims and disapproves of the conduct of the Commodore, and that he will be held to a strict accountability. It was not anticipated that any attempt would be made to arrest Walker on land, the act being a violation of the international law, but as the administration is without any information upon the subject nothing can be known as to their views until they receive official despatches, which will reach here to-morrow, Tuesday.

The Times' correspondent says that Secretary Cass denounced the arrest of Walker and his men by Commodore Paulding as illegal, incensurable and unauthorized. Commodore Paulding will doubtless be Court-martialed immediately. Walker's friends express the conviction that Commodore Paulding acted under secret instructions.—In proof of this they cite the fact that it has been repeatedly predicted that England and the United States would pursue him upon Nicaraguan soil. Nevertheless, the administration positively denounces Paulding's course, denying that it was even anticipated. The Administration is very emphatic in repudiating the action of Commodore Paulding, and denouncing it as a violation of the sovereignty of Nicaragua and of the American constitution. Our power over the filibusters, it is held, ceased the moment they had entered upon the jurisdiction of a foreign power.

There is no doubt that Commodore Paulding will be at once ordered home for trial. The Southern men are very violent in their denunciation of Paulding, denying his right to decide that Walker is a citizen of the United States, and claiming it to be the duty of the Government to send him and his men back in a national vessel.

THE PLUNDER IN DELHI.—A soldier of the Sixth Carbineers says:

"For a description of the riches of Delhi my pen is inadequate. Cashmere shawls inlaid with gold, bodies covered with gold, bars of gold, beds of silk and down, such as no nobleman's house in England could produce—you would see Sikhs carrying out of Delhi the first day, as if they were almost nothing. A shawl, which in England would fetch £1000, they were selling at four rupees, and you may depend our fellows were not behind them. It is supposed the Rifles will go to England with upwards of £1,000 each, though General Wilson has issued an order that the prizes shall be all put together and divided.—Most of my men are worth upwards of 100 rupees."

What it Costs to Visit Europe

A correspondent of the Boston Post thus writes:

"During my visit to Europe, I visited England, France, Belgium, Holland, Germany Switzerland, Northern Italy and Sardinia, and was gone from home about one hundred days. When I have been asked the cost, I have asked my questioner to 'guess' at the amount. The sum named has been usually $2,000 or $2,500. It was about one fifth of the latter sum—to wit: five hundred, and the very scenes can now be visited for one half the sum, and travel respectably.

BORN TO GOOD LUCK.—Mr. John Martin, of London, is being put into possession of the Jennings property, which, for so long a period has been without a recognized heir. He each he inherits amounts to the gigantic sum of $80,000,000, while his income will be $1,250,000 per annum. That is something like a fortune. The lucky inheritor has been wretchedly poor all his preceding life.

A number of persons in this country have had great hopes, for some years past, of coming into a portion of this estate, but it seems they were not the lawful heirs.

☞ The following is said to be a perfect rule for calculating interest. It is certainly very easy:

"Multiply the principal in dollars by the number of days, and divide by 72, the result is the interest at 5 per cent in cents; for 6 per cent, add 1-5; for 7 per cent, add 2-5; for 8 per cent, add 3-5; for 10 per cent double."

THE TREASURY NOTES.—The Secretary of the Treasury has decided to adopt three per cent. as the rate of interest for the new Treasury notes, and will issue immediately six millions in denominations of one hundred, five hundred and one thousand dollars.

☞ A handsome young bride was observed to be in deep reflection on her wedding day. One of the bridesmaids asked the subject of her meditation. "I am thinking," she replied, which of my old beaux I should marry, in case I should become a widow!"

☞ I will not envy the prosperity of the wicked, nor be offended at the affliction of the righteous: the one is drawn in pomp down to hell, whilst the other swims in tears to heaven.

☞ "I owe you nothing," said an undutiful son to his father. "So far from having served me, you have always stood in my way; for if you had never been born, I should now be the next heir of my rich grandfather."

REMEDIES.—For sea-sickness, stay on shore. For drunkenness, drink cold water. For gout, board with the printer. To keep out of jail, keep out of debt. To please everybody mind your own business. To preserve your appetite, keep out of the kitchen. To fully hunger, eat a hearty supper.

☞ "Be moderate in all things," as the boy said to his schoolmaster when whipping him.

WE respectfully call attention to the inducements offered for purchasing Engines and Machinery mentioned below. We have purchased the right to make and sell the

PATENT OSCILLATING ENGINE

of Messrs. Craige & Wadsworth, and are now engaged in the manufacture of them at the lowest possible rates, which is about twenty five per cent lower than the Slide Valve Engine—Their simplicity and durability, combined with their cheapness, and almost utter impossibility to get out of order, renders them the most desirable Engine to have.

The following is a list of the different kinds of Machinery which we have made. Persons wishing to procure any thing of the kind, will do well to give us a call before purchasing elsewhere.

Double Slide Valve Reciprocating Engines, the same as manufactured at Salem, Ohio; Oscillating Engines, Craige & Wadsworth's Patent; Tub and Bucket Machinery; Flour Barrel and Nail Keg Machinery; Planing Machines; Cylinder or Barrel Saws; Fire Brick and Clay Rollers; Starch Rollers, Pipes and Castings for extracting Oil from Cannel Coal; Flouring Mill Gearing; Pullies and Shafting; Muley, Sash, and Circular Saw Mills; Lath Machinery, &c., besides numerous other Machines which it is not necessary to enumerate.

We might add a long list of certificates, but deem any but the following unnecessary.

ECONOMY, December 24th, 1856.

Messrs. CRIDGE, WADSWORTH & Co, Gentlemen:—We hereby certify that we have had one of your Oscillating Engines in use for nearly four months, and that it gives satisfaction in every respect. Its principal advantages over the common Engine are—

1st. Its simplicity, and the consequent ability to keep it in good order.

2d. It takes up much less room.

3d. It requires less pressure of steam to do the same amount of work; and is, therefore, worked with less danger and less fuel.

AYER'S

PILLS,

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operations. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a cathartic pill, but not easy to make the best of all pills—one which should have removed the objections, but all the recommendations of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is accompanied by disagreeable qualities. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. Those pills produce no irritation or pain, unless it arises from previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box, wherein the compliants which they cure are specified. Let no one neglect to try them for his complaint, in his various forms of it, such as Costiveness, Languor and Loss of Appetite, Indigestion, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all those ailings but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colds, Dysentery, Humors, Sorrows and Scurfs, Colds with soreness of the body, Ulcers and Inflammation of the blood; in short, in all and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be occasionally taken in the spring of the year, to purify the blood and prevent the system from the effects of scrofula. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and by their stimulant action on the circulatory system, restore the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advisable, even though no serious derangement exists; but no unnecessary dosing should ever be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed that this will be found a better purgative than any thing that has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Their sugar-coated coating renders them pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-Cough, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its operations, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is so apparent to every observer, and when its character becomes known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which it is destined to cure climate. And not only for the milder attacks upon the lungs, but for the severer varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the standard that ever has been, and that the

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and bloches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate use of rheumatism.

Two or three bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another. After trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1854, I peddled it and sold about six bottles per day—In April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it, that I never suspected.

Several cases of epileptic fits—a desease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For tae various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.

Directions—Adults one table spoonful per day—Children over ten years dessert spoonfull. Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by

Glad News.

FULL OF HOPE TO THE AFFLICTED AND SUFFERING!

Many of the thousand portals of Death may be closed, and life made happier, and more comfortable to thousands who are now in danger. Doubtless this world contains many a balm to soothe its physical woes and cure its diseases. Among those in prominent rank, stands

BOWMAN'S

VEGETABLE COMPOUND,

A SAFE and speedy cure for Consumption, not only in those milder forms of Throat and Lung Diseases, such as colds, coughs, quinsey, difficulty of breathing, bronchitis, Ministers' sore throat, weakness of the chest, asthma, inward ulcer, spitting of blood, influenza, croup, whooping-cough, pain in the breast and side, hoarseness, catarrh and catarrhal affections, inflammation of the lungs, bleeding of the lungs, and such like. But its superior excellence is seen and tested in the more advanced affections of the lungs. For the truth of the above statement and the efficiency of the preparations as an antidote, we refer the public to the following testimonials:

Language is scarcely strong enough to tell the great power of this

WONDERFUL DISCOVERY!

The doubting may try and be convinced.

The Proprietors point to the following bona fide certificates with confidence to the community; they are but samples of the many hundreds of testimonials in our possession:

Philadelphia, Aug. 15, 1856.—In a spring, while in Pittsburgh, I had a bad cold and cough, which troubled me much, and a friend of mine gave me a bottle of Bowman's Vegetable Compound for diseases of the throat and lungs, which I commenced taking, and found relief almost immediately. I had taken many things for cough and hoarseness, but never got anything to help me as it has done. I believe it to be the best antidote for coughs and hoarseness that is out, and cheerfully recommend it to the public. THOS. H. STOCKTON,

Pastor 1st Prot. Meth. Church.

From Judge Vashon, of the District Court at Cincinnatia.

Cincinnati, May 4, 1856.—I have used Bowman's Vegetable Compound for bronchitis and cough, and believe it to be the best remedy out for those diseases, and the only one I ever got to give me any permanent relief. It will cure. I recommend it to the public as an honest and efficient medicine, and will perform what it is published to do. W. VANBORN.
