Carrying the War into Africa.

Mr. ELI THAYER, who is prominently connected with various Emigration schemes, is a Representative from Massachusetts, and on Thursday he made a speech on fillibusterism which created a sensation on both sides of the House. A Washington correspondent of the New York *Tribune* says:

Eli Thayer's speech to-day was a brilliant success. It has made a sensation, and is thought the best speech of the session thus far. The cool, dry way in which he turned the tables on the South in regard to the necessity of expansion for our population, and the patronizing, condescending air with which he welcomed Messrs. Quitman, Keitt and Stephens to the ranks of the political regenerators, graciously accepting the little aid that they and their States could afford to the rich and populous North in the work of Americanizing Central America, gave great satisfaction to the Republican side of the House. The subtle irony and sarcasm of his speech, and his original and ingenious method of carrying the war into Africa, evidently bothered the fire eaters very much. They were continually and palpably hit, but with such dexterity as to give them no chance to retort. They now wish to close the discussion, having gained nothing by it so far.

Mr. Thayer maintained that we wish to, can and shall Americanize Central America. It should not, however, be done in any way that would tarnish the national honor by violating the treaty stipulations and laws of the United States, but in accordance with the highest law, human and divine. He expressed regret that Mr. Haskin yesterday proclaimed himself in favor of grand larceny. A meaner thing cannot be said of it than to call it by its own name. He was grieved that either party should be in favor of either grand or petty larceny. It was not only disgraceful, but utterly contemptible. The only proper way to Americanize Central America was by organized emigration. This might be done within fifteen years, if no neutrality laws and Executive interfered. He wanted our *neutrality laws so plain that every man may know whether he is right or wrong. The South, owing to its sparse population, cannot afford to spare its citizens; but the North, in consequence of a superabundant population, must have an outlet somewhere. Something must be opened up to the descendants of the Pilgrims. [Laughter.]—They must be imprisoned in between the Atlantic Ocean and Rocky Mountains. An better institution than this could not be desired for Americanizing Central America. In consequence of the financial pressure, Europe will send to our shores during the present year, not less than half a million men, and, together with the quarter of a million surplus people in the North must go somewhere. There are enough to make right smart a State, if we have Territory where they can be placed, used economically, with waste not to be done. [Laughter.] In short, if you repeal the neutrality laws, the North will fill up Nicaragua before the year 1859, and that comfortably. After setting forth the benefits to result from emigration to Central America, with steam plows, shovels, hoes and seeds, to tell that the country would not compare, immigration would be promoted and arranged by a company with a capital of from $2,000,000 to $5,000,000, which could spread through the country information showing what are the natural resources of Central America, and the inducements to emigrate thither.*

DR. H. TUBBS,

Will be at his room, Bridgewater, Lehmer's Hotel, Monday, Jan'y 18, 1858.

For consultation upon all diseases of the Throat, Lungs, Heart, Liver, Stomach, Bowels, Kidneys and Spleen; also Dropsy, Gravel, Rheumatism, Nervousness, Debility, Dyspepsia, Female diseases, Ague and Fever, Fits, Impurities of the blood, Eruptions, Cancers, Ulcers, and all other varieties of long standing complaints, both external and internal.

For some ten years Dr. T. has devoted his entire time to chronic diseases, treating thousands annually, many of whom had exhausted every other resource within reach. In no case are mineral or other poisons employed, nor does he make sick to make well, or tear down to built up again. The medicines can be taken with safety by the most delicate, and patiens may remain at home, and continue with prudence their ordinary diet and excercise. Many have recovered under the treatment after friends and physician had given up all hope, the indisputable evidence of which can always be furnished. Invalids, however reduced or despairing, are invited to call, and may be assured that no encouragement will be given or expense incurred, without a corresponding prospect of recovery.

We commend the following unparalelled case of ulceration of the right lung, involving doubtless the pleura, to the attentive perusal of consumptives. The incleme ncy of the two past seasons have produced an occasional cold, but revived none of the old symptoms. The Logan Co. Republican says: Mr. More is well known to us and to the County: his statement is entitled to all confidence. No facts can be better attested.

Union tp. Logan Co., O. Feb. 1857.

Dr. Tubbs—Dear Sir: When I saw you in July last, I was in a very feeble condition. I had had a violent cough for the eight months previous, accompanied by a discharge of enormous quantities of putrid matter, such as issues from an old sore. Sometimes it was tinged with blood. The accumulation of matter in the chest became so great as to cause an enlargement externally of the breast or side.—When the abcess broke, the flow of matter was so profuse as nearly to cause suffocation.

After expectorating thus freely, swelling would subside. The pus would then gradually collect again, producing the same fullness, and followed by a most copious discharge as before. This continued for about four months, and until after I commenced your treatment. I was reduced in flesh, had night sweats, and my ankles and lower limbs swelled so large that bandaging was resorted to in order to reduce it. My cough was continuous, some nights depriving me almost altogether of rest or sleep. Improvement was gradual, but continued after seeing you, until I got entirely rid of my sweats, cough, and expectoration, also the enlargement of the side, and am again as fleshy as is usual for me when in health. So far the severe weather of winter has produced no return of my old symptoms, and health and strength remain comfortably good. I had no expectation of ever again being as well as I am now. I now furnish this that others may know what means were employed during my recovery. Having resided forty years in Logan county, I am well known to its citizens, to whom reference may be had. Yours truly, SAMUEL MOER.

THE MEDICINE OF THE MILLION

PHILOSOPHY AND FACT.

HOLLOWAY'S PILLS

THE EXCITING CAUSE OF SICKNESS.

The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter, rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

THE NATIONAL COMPLAINT.

Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS.

The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittents, and all the varieties of disease generated by an unnatural condition of gorh et n

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhœa Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMALES.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alternative.
