SUMMER FALLOWS.

This branch of farm operations has antiquity in its favor. The Romans practiced it for a long period in their history, and in all parts of their dominions. The practice originated, probably, in the idea that land after several years' use, required absolute rest; and that it would thereby recruit its energies. Experience, too, doubtless showed that it was more productive after this season of rest; and hence it was supposed that the advantage was derived from the mere cessation of raising crops, and not—as the fact was and is—chiefly from the decay of vegetable matter growing wild upon it and from the absorption of nutritive gases from the atmosphere.

British husbandry makes great account of fallows. It practices "naked fallows" and "green fallows." Naked fallows means the plowing and cleaning of the land for one Summer without taking any crop from it. Green fallows means the growing of hoed crops on soil usually devoted to some kind of grain. The object of the latter is to clean the land, by hand and horse cultivation, and to bring it into fine tilth. In England, stiff soils and those which have become infested with weeds are most commonly treated to fallow. The land is thrown up into ridges in the Fall, so as to shed water quickly, and to get the benefit of the Winter frost. In the Spring it is cross-plowed, and during the Summer it is worked over as often as needful, to pulverize it well and eradicate all weeds. When the land has become full of couch grass, they practice "paring and burning." They have an implement called a breast-plow, with which they take off a few inches of the surface and throw it into heaps. This, on becoming dry, is mixed with rubbish and then burned or charred and afterwards scattered over the soil. This keeps the grass very much in check, and furnishes a rich top-dressing for the land. If the grass continues troublesome, the ground is broken up again and a "grubber" put into it, which brings the roots to the surface, from which they are then raked off and burned. This thorough work prepares the land for any crop.

In some of our Southern States, we see that the old Roman mode of Summer fallowing is still in vogue. Large fields we have observed, grown over with mullcins, thistles, and various other rank weeds, and scattering their seeds far and wide. Now, is not this land nearly as much exhausted by growing these immense crops of weeds, as it would have been, under good management, in growing regular crops? Consider, too, the injury sustained by allowing the soil to become so infested with weeds.

The common practice throughout the Northern Middle States is better, though even this may, perhaps, be improved upon a little. Many farmers plow their grass lands intended for wheat, in May or June, and let them lie until September, when they cross-plow, harrow and sow their grain. This course is generally pursued, without reference to the nature of the sod turned under. But is not this second plowing objectionable? Whatever gases are evolved by the decomposition of the grass should be left undisturbed, so as to furnish food for the young wheat; whereas; by this second plowing, they are brough to the surface and dissipated in the air. Then, again, all the roots of the grass are not killed in so short a time, and this second plowing lays them back in their original position, and they begin to grow again, very much to the injury of the wheat. Would it not be far better to use a set of light "gang-plows," which break up the surface sufficiently, without disturbing the inverted sod?

Again: might we not more generally adopt the English system of green fallows, so far as to take off some such crop as peas or beans, whose broad leaves, drawing most of their food from the air, would not exhaust the soil, and yet the cultivation of which would tend to clear the land of weeds and to bring it into fine tilth? Clover land, instead of being devoted to the usual Summer fallow, might be allowed to remain unplowed until nearly the time of sowing wheat. The sod then turned under, would afford a rich repast for the growing wheat. Sandy or loamy soils and those not infested with weeds, may often be treated in this way to great advantage.—*Amer. Agricul'turist.*

NOVEL METHOD TO PREVENT POTATO ROT.—Some Belgian boys, a few years since for amusement, inserted some peas into potatoes and planted them. The result was an unusual yield of peas, and a crop of tubers perfectly sound, though in a field where the potatoes were badly affected. Acting on the hint, Mr. Jackson, of Leeds, Eng., developed the theory that the potato, being deficient in nitrogen, would receive an equivalent of that article from the pea, during the time of growing and so its tendency to disease would be counteracted He then tried the experiment, inserting four or five peas into each potato, carefully avoiding injury to the eyes, and then planting in the usual way. The result was perfect success—an unusual yield of both peas and potatoes, and the latter perfectly free from disease. The tubers were found healthy the next spring, and were again planted with the same results.—*N. Y. Post.*

THE VARIOUS CROPS.—It has been estimated that the cotton crop will exceed a quarter of a million bales, and that the wheat crop will not fall short of two and a half millions of bushels. Sugar cane is looking remarkably fine, the late rains having been of immense service to it; and of corn there will be full enough for all the wants of the people.

——When you see a gentleman at midnight, sitting on the step in front of his house, combing his hair with the door scraper, you may judge he has been out to an evening party.

——An old gentleman says that he is the last man in the world that will ever tyranize over a daughter's affections. So long as she marries the man of his choice, don't care who she loves.

☞ The Columbus Fact states that the Artesian Well in the State House Yard is 1400 feet deep, and the water has risen to within four feet of the top.

☞ Avoid entering into an argument with a deaf man in a railway car, as it is sure to lead to high words.

THOMAS M. TAYLOR,
Appraiser of Mercantile Taxes.
May 10, 1858.

FOR SALE,

THE subscribers offer for sale, upon reasonable terms, their STEAM SAW MILL, situated in the Borough of Hookstown. The location is among the best in the County, being located in a well timbered region of country; always enjoying a very liberal patronage. A description of the Mill is unnecessary, as it will recommend herself to persons desiring to purchase; suffice it to say, fearless of contradiction, that it is the best frame boiler Engine and other machinery necessary for a Saw Mill, south of the Ohio River. The only reason of the present owners for disposing of said property, is the fact of being engaged in other business, which requires almost the whole of their attention. Persons desiring to purchase a good paying property, would do well to call soon.

SAMUEL C. TRIMBLE & CO.
Hookstown, Mar. 10, 1858.

DUFF'S MERCANTILE COLLEGE

CORNER 3d & MARKET STS'
PITTSBURGH PA.

Established in 1840; incorporated by the Legislature of Pennsylvania.

BOARD OF TRUSTEES.

Hon. JAMES BUCHANAN, President of the United States,
Hon. WILLIAM WILKINS,
Hon. MOSES HAMPTON,
Hon. WALTER H. LOWRIE,
Hon. CHARLES NAYLOR,
Gen. J. K. MOORHEAD,

P. DUFF, (author of Duff's system of Mercantile and Steamboat Book-keeping) President with a Superintendent and five assistant teachers of Book-keeping, and seven other teachers and lecturers.

J. S. DUNCAN, one of the best penmen in the country, (author of the gems of Business and Ornamental Penmanship,) Professor of Penmanship.

Duff's system of Book-keeping is sanctioned by the American Institute and Chamber of Commerce of New York, and many of the leading business men of the East and West; as the most comprehensive and practical system of accounts now in use, and after from ten to fifteen years practical application of its principles to business, over four hundred students have attested its superiority, (circular 19.) All the arrangements for teaching being perfected by nearly 20 years' experience of the principal, students graduate in about half the time required in other colleges, saving $15 or $20 in board.

Upwards of 4000 students have entered the institution since founded. To obtain full particulars of the collegiate training for business and the character of the institution, send for its pamphlet circular of 50 panes, with samples of Mr. Duncan's writing which are mailed free.

Duff's Bookkeeping, Harper's new enlarged edition. Price $1.50, postage 20 cents.

Duff's Steamboat Bookkeeping. Price $1; postage 9 cents.

Duncan's Business and Ornamental Penmanship; crown quarto, $5, mailed post paid. This splendid work and Duff's Book-keeping, have recently been awarded FIFTEEN 1st PREMIUM SILVER MEDALS AND DIPLOMAS, attesting the fact that their being the best treatises upon these subjects now in use.

An elegantly bound copy of Duncan's Penmanship is presented to every student who hereafter graduates in the institution.

Duncan's Copy Books, complete in six numbers, 24 quarto pages each, on fine Demy paper, with the author's directions for teaching, the most thorough system for school instruction published, 12½ cents per number, with a liberal discount to the trade; postage 17 cents, on application to the publishers, W. G. JOHNSTON & Co., Pittsburgh.

☞ Call and see Mr. Duncan perform with the pen. jan13'58.

BEAVER MACHINE WORKS

Childs, M'Connell and Darragh,

FOUNDERS

AND

STEAM ENGINE BUILDERS

Fallston, Beaver County, Pa.

WE respectfully call attention to the inducements offered for purchasing Engines and Machinery mentioned below. We have purchased the right to make and sell the

PATENT OSCILLATING ENGINE

of Messrs. Cridge & Wadsworth, and are now engaged in the manufacture of them at the lowest possible rates, which is about twenty-five per cent. lower than the Slide Valve Engine—Their simplicity and durability, combined with their cheapness, and almost utter impossibility to get out of order, renders them the most desirable Engine to have.

The following is a list of the different kinds of Machinery which we have made. Persons wishing to procure anything of the kind, will do well to give us a call before purchasing elsewhere.

Double Slide Valve Reciprocating Engines, the same as manufactured at Salem, Ohio; Oscillating Engines, Cridge & Wadsworth's Patent; Tub and Bucket Machinery; Flour Barrel and Nail Keg Machinery; Planing Machines; Cylinder or Barrel Saws; Fire Brick and Clay Rollers; Starch Rollers, Pipes and Castings for extracting Oil from Cannel Coal; Flouring Mill Gearing; Pullies and Shafting; Muley, Sash, and Circular Saw Mills; Lath Machinery, &c., besides numerous other Machines which it is not necessary to enumerate.

We might add a long list of certificates, but deem any but the following unnecessary.

ECONOMY, December 24th, 1856.

MESSRS. CRIDGE, WADSWORTH & Co, Gentlemen:—We hereby certify that we have had one of your Oscillating Engines in use for nearly four months, and that it gives satisfaction in every respect. Its principal advantages over the common Engine are—

1st. Its simplicity, and the consequent facility to keep it in good order.

2d. It takes up much less room.

3d. It requires less pressure of steam to do the same amount of work; and is, therefore, worked with less danger and less fuel.

Respectfully yours,
R. L. BAKER
JACOB HENRICI.
Trustees

Our facilities for shipping to any point whatever, by Rail Road, Canal, or on the Ohio River, is as good as at any other point. Our works are situated in Fallston, Pa. on the west Bank of the Beaver River, opposite N. Brighton, and only one hour's ride by rail from Pittsburgh. July 1, 1857.

KERR'S HOTEL.

Corner of Third St., and Branch Bank Alley, Beaver, Pa.

THE subscriber, (late proprietor of the 'Gormly House,) has purchased and fitted up for a HOTEL, the large brick building recently owned and occupied as a dwelling by Mr. John Shivelay, opposite the Store of D. Ramsey, Esq. The stand is conveniently located with regard to the several approaches of travel by railway, canal, &c. being nearly opposite and contiguous to the Beaver Station of the Cleve. & Pittsburgh Railroad. The house is pleasantly situated, roomy and commodious, and well adapted for the entertainment of travellers and visitors. It is also provided with sufficient stabling, &c.

He respectfully requests his friends and former customers to call with him and continue their patronage, with the assurance that no pains or attention will be omitted to accommodate and render comfortable *all* who may make his house their home or stopping place. His table will always be supplied with the best the market affords; and his charges for boarding and lodging &c., in every case as moderate and reasonable as they can be procured elsewhere in the vicinity. S. KERR.
April 21, 1858.

JOSEPH H. WILSON,

ATTORNEY AT LAW—Office in the Lawrence house, on the North side of the Diamond Beaver, Pa. Jan 7 1857.

The Greatest Medical Discovery OF THE AGE.

DR. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures *every* kind of humor, from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases. (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of Pimples on the face.

Two or three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers,

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure he most desperate ase of rheumatism.

Two or three bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benifit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—In April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a desease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.

DIRECTIONS—Adults one table spoonful per day—Children over ten years dessert spoonfull. Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by

DONALD KENNEDY,
No 120, Warren St. Roxbury, Mass.
PRICE $1.

Bridgewater Book Store.
Mar. 17, '58.

Town Property for Sale.

THE undersigned offers for sale a BRICK DWELLING, on Third street, and formerly occupied by David Somers, dec'd. The house is two stories high, with good cellar and attic; contains two rooms and kitchen on first floor, and three rooms on second floor. Also, a half lot, with fruit trees, stable, &c., thereon.—Terms easy. For further information inquire at this Office, or of MARY SOMERS.
Beaver, March 24, 1854.

Watches, Clocks and Jewelry.

I WOULD most respectfully give notice to the citizens of Bridgewater, Beaver, Rochester and vicinity, that I have received a new stock of Watches, Clocks, Jewelry &c., which I can sell lower than can be had in Pittsburgh. It is but reasonable to say that goods can be sold lower here than in the large cities; our rent is less, and our living is less. I only ask you to call and I will try and sell the goods.

Particular attention paid to repairing Watches, Clocks and Jewelry; old Gold and Silver taken in exchange for goods or work: Remember the place; sign of the Big Watch, No. 2, Stewart's Row, Bridgewater. WM. PLATE.

A CARD.—Having relinquished the business and wishing to settle it, I have left all Watches and Jewelry left me for repairs, with Mr. Wm. Plate, where they can be had when called on. Having a personal knowledge of Mr. Plate, I would recommend him to my old customers for anything in his line.
Apr. 20, '57. HENRY T. PATTON.

NOTICE.

THE law requires Executors and Administrators to settle their accounts thirty days prior to the meeting of any regular Court, to wit: For march Term on or before the 8th day of Feb. 1858. For June Term before 8th of May, For Sept. Term before 9th of Aug.—For Nov. Term before 11th of Oct. 1858.
Dec. 16th '57. S. B. WILSON, Reg.

Ball's Ohio Mower.

NOTICE.—The subscribers, having become the sole owners of Ball's celebrated and original Ohio Mower, for Pennsylvania, are building these machines for the harvest of '58, of the best materials, selected for the purpose, and finished in superior style. The unprecedented demand for this Mower during the past seasons, and its universal success over every other Mower in the field, is a *sure* guaranty that the farmers will examine this machine before purchasing others, similar, somewhat, in appearance, but having none of the tested merits of Ball's celebrated Ohio Mower.

May 18, 1858.

A NEW STOCK OF

Fall and Winter Goods.

JUST received at the corner of Market and Bridge streets, Bridgewater, Pa. I have just received and am now opening a very desirable stock of goods suitable for the present and coming season, to which I invite the attention of my old customers and the public in general to an examination, as I feel confident it will compare in quality and price to any other house in this vicinity.

DRESS GOODS & TRIMMINGS.

I would especially invite the ladies to call and examine my stock of silk, French merinoes, all wool delaines, cashmeres, coburgs, poplins, Persian clothe, Persian twills, ginghams, chambros, paper cambrics, cambric, jaconet swiss and mu l muslins, shawls, dress trimmings, lace fringes, bonnet ribbon, sleeves, collars, waist bands, hose &c. Also a large assortment of men and boys wear, consisting of black and colored French cloths, doe skins, fancy, cassimeres, tweeds, cords, jeans, satin and fancy vestings, nett shirts and drawers, silk cravats, handkerchiefs, stocks, suspenders, comforts &c.
