

TREASURY DEPARTMENT,
New-York, Sept. 28, 1790.

THE following regulations, which have been adopted towards carrying into execution the act, making provision for the debt of the United States, are announced for the information of the public creditors.

WHEN a transfer is to be made from one person to another, the certificate or certificates of the debt to be transferred, must be produced at the proper office, in order that the same may be cancelled, and a new one, or new ones issue, as the case shall require.

When a transfer is desired from one office to another, application must in the first instance be made at the office where the credit exists, whereupon the certificate or certificates of the debt to be transferred will be cancelled, and a special one granted, as a voucher to the Secretary of the Treasury; upon the production and delivery of which to him, a warrant will issue to the office, to which the debt is to be transferred, where the business will be completed. The form (A) at foot hereof, has been adopted for letters of attorney, to make transfers, which, and the directions for completing it, it is expected will be carefully observed.

In every case of a transfer of the subscribed or funded debt, the new certificate will bear interest, only from the first day of the quarter, in which the transfer is made. The unpaid interest which may have accrued prior to that quarter, will be paid only to the person, who was stockholder at the time it accrued, or to his special assignee.

Fourteen days before the expiration of each quarter, the books of each office will be closed; so that no transfers will be made, nor, except at the Treasury, will any subscriptions be received, or old certificates exchanged for new ones, on the application of non-subscribers, during that period. Those intending to become subscribers to the proposed Loan, who do not subscribe, prior to the commencement of any such period—or those intending not to subscribe, who do not present their old certificates to be exchanged, or if holders of certificates of the Register of the Treasury, who do not notify to the Treasury their intention not to subscribe, prior to such commencement of such period, will not receive the interest, which may have accrued antecedently, till the end of the quarter in which their subscriptions are made, or in which their certificates are exchanged, or in which they shall so notify their intention not to subscribe. This, the proper distribution of the funds, and the preservation of order render indispensable.

On the subscribed or funded debt, interest as it becomes due, will be paid without production of the certificates issued for the same. On the unsubscribed debt, if any there shall be, the production of the certificates will be necessary, in order to the receipt of the interest, and an indorsement of the payment of it upon the certificates. This however, in consideration of the risk and inconvenience of transmission, will not be required of those who hold certificates of the Register of the Treasury, and reside out of the United States. The form (B) at foot hereof, of a letter of attorney for receiving interest, and the directions therewith, it is expected will be carefully pursued.

TREASURY DEPARTMENT, Sept. 28, 1790.

NOTICE is hereby given, that proposals will be received at the Office of the Secretary of the Treasury, until the 31st day of December next inclusive, for the building of a LIGHT HOUSE, nearly of the dimensions proposed by the late Commissioners of Virginia and Maryland, upon the lot of land on Cape Henry, in the County of Princeps Ann, and State of Virginia, lately ceded for that purpose to the United States. It is desired, that the proposals may leave the election, whether the building above the foundation shall be of brick or stone, and as the cost and charges of those materials vary, it is expected, that a corresponding difference will be made in the terms offered.

The foundation of the Light-House is to be of stone, and sunk to the depth of thirteen feet below the water table, over the top of which the pavement is to be laid. The diameter thereof is to be twenty seven feet six inches, with a vacancy of about nine feet in the centre.

The diameter of the base is to be twenty six feet, at which place the thickness of the walls is to be six feet. The height from the bottom of the water table to the top of the stone work is to be seventy two feet, where the diameter is to be six feet six inches, and the thickness of the walls three feet. The form is to be an octagon, having three windows in the east, and four in the west. If it be built of brick, it is to be faced with the glassy kind, if of stone, it is to be faced with hewn or hammer-dressed stone.

On the top of the stone work is to be a floor of joists, bedded therein, planked over and covered with copper, extending about two feet eight inches beyond the wall, thereby forming an eve, which is to be finished with a cornice, the whole having a descent from the centre sufficient to throw off the water.

The lantern is to be supported by eight posts of wrought Iron of three inches square and twenty feet in length, ten feet of which are to be wrought into the stone wall on the inner part at each corner. The diameter of it is to be ten feet, leaving a platform on the outside thereof of about six feet in width. All the work above this is to be of iron and copper. The lantern is to be ten feet high, having a semicircular roof of five feet more, with iron rafters covered with copper. The whole space between the posts supporting the lantern, is to be occupied by the fashies, which are to be made of iron, each fash is to have twenty-eight panes of glass, twelve by fourteen inches. One of the fashies on the fourth west side is to be hung with hinges for a door to go out upon the platform, from the outer part of which to the roof of the lantern is to be a frame of iron covered with a net work of strong brass wire, to preserve the glass from injuries by hail and flights of birds in the night.

The rafters of the lantern are to be well fastened to an iron hoop, over which is a copper funnel, through which the smoke may pass into a large copper ventilator in the form of a man's head, capable of containing one hundred gallons. This head is to be so placed as to be turned by a large vane on the spire above it, that the hole for venting the smoke may always be to the leeward. Eight dormant ventilators of six inches diameter are to be fixed in the roof of the lantern.

A close stove is to be provided and fixed in the lantern, which is to be furnished with eight lamps, each capable of containing six quarts, hung in two tiers over each other transversely. There are to be six flights of stairs to ascend to the lantern, the entrance to which is to be by a door covered with copper. The building is to be furnished with two conductors, to secure it from the effects of lightning.

A frame house is to be built for the keeper, twenty feet square, two stories high, with a frame kitchen; the whole to be finished with lath and plaster.

A vault for the storage and safe keeping of the oil is to be built of stone at a convenient distance, twelve feet wide, and twenty in length. It is to be arched, and covered with earth or sand, over which a shed is to be built, and it is to be furnished with eight strong cedar cisterns with covers, each capable of containing two hundred gallons of oil. The entrance is to be secured by a strong door.

Good security for the faithful performance of the contract will be expected. Payments on account will be made at proper stages of the work, and the balance will be paid on its completion; or, if a suitable difference should be made in the terms, cash will be advanced for the purchase of materials and provisions.

The Printers in the several States are requested to insert this.

WAR DEPARTMENT, Sept. 9, 1790.

INFORMATION is hereby given to all the military Invalids of the United States, that the sums to which they are annually entitled, and which will become due on the fourth day of March ensuing, will be paid on the said day, by the Commissioners of the Loans within the States respectively, under such regulations as the President of the United States may direct.

H. KNOX,

Secretary for the Department of War.

(The Printers in the respective States are requested to publish the above in their newspapers, for the space of two Months.)

By Order of the Honorable Richard Morris, Esq. Chief Justice of the State of New-York.

NOTICE is hereby given to Lewis M'Donald, of Connecticut, an absent debtor, that upon application and due proof made to the said chief justice by a creditor of the said Lewis M'Donald, pursuant to an act of the Legislature of the said State, entitled, "An act for relief against absconding and absent debtors," passed the 4th April, 1786; he, the said chief justice, has directed all the said Lewis M'Donald's estate, within this State, to be seized, and that unless he shall discharge his debts within twelve months after the publication of this notice, the same will be sold for the payment of his creditors. Dated the 3d May, 1790. New-York, May 7, 1790. (1w. 1y.)

TREASURY DEPARTMENT, Sept. 20, 1790.

IT is hereby made known, that the following arrangement has been adopted towards carrying into execution the Act, making provision for the debt of the United States, viz.

Loan-Office Certificates, and those issued by the Commissioners for the adjustment of accounts in the several States, will be receivable only at the Treasury and by the respective Commissioners of Loans within the States in which they were respectively issued. The Certificates issued by the Register of the Treasury, by the Pay Master General and Commissioner of Army Accounts, by the Commissioners for the adjustment of the Accounts of the Quarter Master's, Commissary's, Hospital, Cloathing, and Marine Departments, Indents of Interest, and Bills of Old Emission, will be receivable indiscriminately at the Treasury and by the Commissioners of all the States. The situation of the Checks has dictated this arrangement for the greater security of the public against impositions by forged or counterfeit paper, and the details which have been adopted from the same consideration for the execution of the business are such, that it will give facility and dispatch, if applications from the Holders of Certificates of the Register of the Treasury and of the Paymaster General, and Commissioner of Army Accounts, and of the Commissioners of the five Departments above mentioned, are made in the first instance at the Treasury; and if applications from the Holders of Loan Office Certificates, and Certificates issued by the Commissioners for the adjustment of Accounts in the respective States, are made in like manner to the Commissioners of Loans within the States in which they were issued. Transfers can afterwards be made to any Office that the Proprietors of these Certificates may desire.

The printers of the several States are requested to insert this.
