CONTRACT,
For erecting BRIDGES over the HACKINSACK and PASSAICAK
Rivers, between Powlas-Hook and Newark, in the State of

New-Jersey.

THE Commissioners appointed by an act of the legislature of the state of New Jersey. the state of New-Jersey, to erect bridges over the Hackinsack and Passaiack rivers, having obtained the necessary surveys, are now ready to receive proposals for performing the same; and offer the following conditions for the consideration of such as may

be inclined to contract:

The fituation of the bridge across the Hackinsack river, will be at one of the following stations, as shall be hereafter determined most eligible.

1st. At the place where the present ferry is established, where the width of the river is 1448 feet.

Depth at the eastern shore, 8 feet 8 inches.

Do. western shore, 8 11 Greatest depth,

2d. At a place more northerly, called Douw's Ferry, where the width of the river is 846 feet.

Depth at the eastern shore 19 feet 10 inches.
Do. western shore 12

Greatest depth 35 8

The situation of the bridge across the Passaiack river, will be at one of the three following stations, as shall be hereafter determined most eligible.

1st. At the place where the present ferry is established, where the width of the river is 676 feet.

Depth at the eastern shore 8 feet 6 inches, Do. western shore 9 6

Greatest depth 2d. At a place more westerly, called Beef-Point, where the breadth of the river is 799 feet.

Depth at the eastern shore 11 feet,

Depit at the eatern more it rect,

Do. western shore 4 5 inches,

Greatest depth 13 4

3d. At a place still more northerly, called Hedden's dock, in
the town of Newark, where the width of the river is 526 feet.

Depth at the eastern shore 4 feet 5 inches,

Do. western shore 10 8

Do. western shore

Greatest depth

15

11

The bridges are to be confructed on the principles of those erected over Charles, Mystick, and Beverly Rivers in the State of Massachusetts, with a draw to admit a free passage for vessels with fixed standing mass, not less than twenty-four seet wide, to be placed in such part of the bridges as shall be determined most convenient for the navigation of the river, with piles or blocks on each side of the entrance of such draw, as shall be judged sufficient to aid vessels in passing through. Also, one lamp on each side of to aid vessels in passing through. Also, one lamp on each side of the draw, to be lighted every night from sunset to sunrise, during

the continuance of the leafe.

The bridges are to be built with fuch piles, timber, feantling, and plank, as shall render them perfectly substantial and secure in the opinion of the commissioners, and are to be of a sufficient height to protect them against the tides, which rise at ordinary Allowance for carriage way, 20 feet.

Do. for ballustrades, 1 foot each, 2 feet.

Do. for hand-rails for do. 6 inches each, 1 foot.—Total, 31 feet.

The fider of the heidese to be feeted with 0.

The fides of the bridges to be secured with strong ballustrades, after the manner of the bridge between Boston and Charlestown.

The bridges and draws are to be kept in constant repair, and at the expiration of the leafe are to be furrendered in good order, agreeably to the act.

The following are the terms which the commissioners are authorised to offer to contractors:

A lease of the exclusive privilege of the bridges for a period not exceeding 99 years, with a toll equal to three-fourths of the pre-fent rates of ferriage.

From as accurate an estimate as could possibly be obtained, the actual receipts of the serries for a medium of five years last past, amount to twelve hundred pounds, New-Jersey currency, per annum, three-fourths of that fum will confequently produce an immediate income of goo pounds per ann. This may fairly be estimated as the smallest profit that can be calculated upon. The advancing population of the United States, the increasing intercourse between the two cities of New-York and Philadelphia, the facility which the construction of these bridges will give to travel-ling, the easy communication thereby offered with the state of New-York, on the western side of the Hudson, are all important circumstances, which must necessarily tend rapidly to accumulate the profits of the bridges. The commissioners are moreover authorized by law to raise four thousand pounds to be applied towards making causeways and laying out proper roads connected with the bridges, and have a lottery now on foot for that purpose. As foon as the places shall be determined on where the bridges are to be fixed, and the contracts for erecting them are executed, the roads and causeways will be immediately undertaken.

Such persons therefore as may be inclined to contract on the cove principles, will be pleased to send in their terms sealed, within three months from this date, to WILLIAM MAXWELL, Efq. in New-York, fpecifying the shortest period of leafe for which they will undertake to erect the said bridges, together with

proper fecurity for performing the fame.
SAMUEL TUTHILL,
JOHN NEILSON,
ROBERT KEMBLE,
WILLIAM MAXWELL, IOHN PINTARD Newark, State of New-Jersey, April 22, 1791.

Has Blank Powers to receive the Interest, and for the transfer of the principal of public debt, agreeable to the Rules established in the Treafury Department: Also Blanks for abstracts of Certificates, to be fold by

Commissioners.
