The public utility of extending this wharf, is too evident to require any comment, to those who are acquainted with the town and harbour of New-Haven; to those who are not, suffice it to say, that its beautiful situation is not surpassed, if equalled by any; being in the heart of a country, which may, with propriety, be faid to be the garden of America. The harbour lays open to the found but by reason of the flats, this wharf is necessarily extended to the channel, where ships can load and unload; and when compleated, will be the most extensive and commodious wharf in America, the whole extent being about 3-4ths of a mile; and not only the mercantile interest of New-Haven and the towns adjacent, but the maritime interest of all the States will be benefited by it. The general wish that prevails in the minds of all classes of people, for the fuccess of this enterprize, together with the very great advan-tage which this scheme holds out to adventurers (there being more capital prizes for the number of tickets than any yet published in America) induce the managers to believe the tickets will meet with

a speedy sale.

The drawing will positively commence at the State-House, in New-Haven, on the 13th of September next, or sooner, if the tickets are fold.

A lift of the fortunate numbers will be published, and the prizes paid on demand, by the managers. Those prizes not called for in nine months after drawing, will be deemed as generously given for the use of the wharf, and appropriated accordingly.
