CONTRACT,

For erecting BRIDGES over the HACKINSACK and PASSAICK Rivers, between Powles-Hook and Newark, in the State of New-Jersey.

THE Commissioners appointed by an act of the legislature of the state of New-Jersey, to erect bridges over the Hackinsack and Passaick rivers, having obtained the necessary surveys, are now ready to receive proposals for performing the same; and offer the following conditions for the consideration of such as may be inclined to contract:

The situation of the bridge across the Hackinsack river, will be at one of the following stations, as shall be hereafter determined most eligible.

1st. At the place where the present ferry is established, where the width of the river is 1448 feet.

Depth at the eastern shore, 8 feet 8 inches.

Do. western shore, 8 11

Greatest depth, 25 4

2d. At a place more northerly, called Douw's Ferry, where the width of the river is 846 feet.

Depth at the eastern shore 19 feet 10 inches.

Do. western shore 12

Greatest depth 35 8

The situation of the bridge across the Passaick river, will be at one of the three following stations, as shall be hereafter determined most eligible.

1st. At the place where the present ferry is established, where the width of the river is 676 feet.

Depth at the eastern shore 8 feet 6 inches,

Do. western shore 9 6

Greatest depth 17

2d. At a place more westerly, called Beef-Point, where the breadth of the river is 799 feet.

Depth at the eastern shore 11 feet,

Do. western shore 4 5 inches,

Greatest depth 13 4

3d. At a place still more northerly, called Hedden's dock, in the town of Newark, where the width of the river is 526 feet.

Depth at the eastern shore 4 feet 5 inches,

Do. western shore 10 8

Greatest depth 15 11

The bridges are to be constructed on the principles of those erected over Charles, Mystick, and Beverly Rivers in the State of Massachusetts, with a draw to admit a free passage for vessels with fixed standing masts, not less than twenty-four feet wide, to be placed in such part of the bridges as shall be determined most convenient for the navigation of the river, with piles or blocks on each side of the entrance of such draw, as shall be judged sufficient to aid vessels in passing through. Also, one lamp on each side of the draw, to be lighted every night from sunset to sunrise, during the continuance of the leaf.

The bridges are to be built with such piles, timber, scantling, and plank, as shall render them perfectly substantial and secure in the opinion of the commissioners, and are to be of a sufficient height to protect them against the tides, which rise at ordinary tides from 5 to 6 feet, and at spring tides from 8 to 10 feet. They are to be 31 feet in breadth, viz.

Allowance for carriage way, 20 feet.

Do. for foot walks, railed off on each side, 4 feet each, 8 feet.

Do. for ballustrades, 1 foot each, 2 feet.

Do. for hand-rails for do. 6 inches each, 1 foot.—Total, 31 feet.

The sides of the bridges to be secured with strong ballustrades, after the manner of the bridge between Boston and Charlestown. The bridges and draws are to be kept in constant repair, and at the expiration of the lease are to be surrendered in good order, agreeably to the act.

The following are the terms which the commissioners are authorized to offer to contractors:

A lease of the exclusive privilege of the bridges for a period not exceeding 99 years, with a toll equal to three-fourths of the present rates of ferriage.

From as accurate an estimate as could possibly be obtained, the actual receipts of the ferries for a medium of five years last past, amount to twelve hundred pounds, New-Jersey currency, per annum, three-fourths of that sum will consequently produce an immediate income of 900 pounds per ann. This may fairly be estimated as the smallest profit that can be calculated upon. The advancing population of the United States, the increasing intercourse between the two cities of New-York and Philadelphia, the facility which the construction of these bridges will give to travelling, the easy communication thereby offered with the state of New-York, on the western side of the Hudson, are all important circumstances, which must necessarily tend rapidly to accumulate the profits of the bridges. The commissioners are moreover authorized by law to raise four thousand pounds to be applied towards making causeways and laying out proper roads connected with the bridges, and have a lottery now on foot for that purpose. As soon as the places shall be determined on where the bridges are to be fixed, and the contracts for erecting them are executed, the roads and causeways will be immediately undertaken.

Such persons therefore as may be inclined to contract on the above principles, will be pleased to send in their terms sealed, within three months from this date, to WILLIAM MAXWELL, Esq. in New-York, specifying the shortest period of lease for which they will undertake to erect the said bridges, together with proper security for performing the same.

At any other place or places within the state of Georgia which may hereafter be occupied as permanent posts by any troops of the United States.

And for rations deliverable on the march to such future posts. The rations are to be furnished in such quantities as that there shall at all times, during the said term, be sufficient for the consumption of the troops at each of the said posts, for the space of at least two months in advance, in good and wholesome provisions.

The rations to be supplied are to consist of the same articles, as are above mentioned.

It is to be understood in each case, that all losses sustained by the depredations of the enemy, or by means of the troops of the United States, shall be paid for at the prices of the articles captured or destroyed, on the depositions of two or more creditable characters, and the certificate of a commissioned officer, ascertaining the circumstances of the loss, and the amount of the articles for which compensation is claimed.

The contracts for the above supplies will be made either for one year, or for two years, as may appear eligible. Persons disposed to contract will therefore confine their offers to one year, or they may make their propositions so as to admit an election of the term of two years.

The proposals may be made for the whole of the above posts together, or separately for Springfield, for West-Point, for Yorktown, and the seventeen places following it, and for the posts in Georgia, and they must specify the lowest price per ration, for prompt payment.

The price of this Paper is 3 Dollars per ann.
