THE SEAT of the late Doctor Lewis Johnston, deceased, in Perth-Amboy, containing TWO HUNDRED ACRES of LAND.

This place is bounded foutherly for near a mile on the river Raritan, where it empties into the bay about 18 miles from Sandy-Hook, and affords two most agreeable situations for Gentlemens' Seats. There are now on it, two brick houses, with gardens, and a good collection of fruit trees of the best kinds. The land is very fertile, and a great part of it very good meadow; and from its situation on the river, has the advantage of sish of different kinds, in their seasons, particularly of oysters and chicken clams, which may be picked in great plenty on the state before the doors. It is a delightful, healthy situation, capable of genteel and tasty improvements; and as Perth-Amboy is one of the best sea-ports in the United States, and within 18 miles of the sea, the prospect of its increasing in value from that circumstance, is by no means incon-This place is bounded foutherly for near a mile on the river increasing in value from that circumstance, is by no means incon-

fiderable.

There will also be told, other Lots, within the bounds of the city, and about Five Hundred Acres of Land on the opposite fide of the river Raritan—part of which is improved by a farm—on which there is a framed dwelling-house and barn, with an orchard of grafted apple trees, and will contain about one hundred and fifty acres; the remainder will be fold in convenient lots, well wooded and timbered, and very convenient for supplying New-York and other markets with fire-wood, timber for ship building, and other uses, the transportation by water being easy and ing, and other uses, the transportation by water being easy and fafe. — The conditions will be made known at the day of sale, and the requifite conveyances made by

BOWES REED,

Likewife to be SOLD, at the same time and place,

ELEVEN ACRES of LAND, adjoining the above, the property of the Proprietors of East New-Jersey, whereon the proprietary house lately stood. The elegant situation of this spot is hardly to be equalled; it affords a grand prospect of Raritan Bay, and of the Bay formed by the waters of Raritan and Hudson's rivers, where they disembogue into the sea to the East—and a most delightful one of the serpentine course of the Raritan river, for several miles, through a rich tract of meadow to the West. The great quantity of stone neatly dressed, and brick, the remains of the house lately burned, will be nearly sufficient for a new building; and a large stone cistern, and well of excellent water, with a very convenient stable and coach-house, will greatly lessen the expence of putting the place in order for the residence of a Gentleman.—There are few situations so eligible, particularly in the summer season—when the cool sea breezes, and the elevated situations, render them places of pleasing retreat, from the confinement and sultry air of the southern states and neighbouring cities.
