BENNINGTON, (Ver.) Dec. 7. BY the post from Onion River, we are informed, that the following melancholy accident lately happened at Milton, on the river Moile; feven young men attemp ing to cross the river in a canoe, were by some accident overfet, and four of them, viz. two by the name of Soper, one Owen and one Irish, were unfortunately drowned.

We hear from Rutland that the Council of Cenfors, having completed the business of their appointment, adjourned on Friday last without day. They have ordered their proceedings, with the conflitution as proposed to be amended, to be published in the Vermont Gazette and Journal, as speedily as may be, for the perusal of the public.

Samuel Hitchcock, Lot Hall, Le-muel Chipman, and Paul Brigham, Esq'rs. are chosen electors for President and Vice-President.

BOSTON, Dec. 8. On Wednesday evening last, by virtue of a warrant issued by Justices Greenleaf and Barrett, on the complaint of the Attorney-General, the Sheriff of this county arrested Mr. Harper, one of the company of Comedians who for fomestime past have entertained the inhabitants of this town, as guilty of a breach of the law against Theatrical enter-tainments—and held him to bail to appear the next day before the Justices, and recognize for his appearance at the next Supreme Judicial Court. At the end of the second act of the "School for Scandal" which was then performing, Mr. Harper came forward on the stage, and read a card from the fheriff, informing Mr. Harper, that unless the performances of the evening were stopped, he should apprehend forthwith all the perfons of the company. Much agitation enfued, and the refentment of the citizens at what they conceived to be a violent and untimely measure, discovered itself in several spirited pro-ceedings, and a loud call for the performances to go on : But, at the particular request of the performers, the audience dispensed with the entertainment of the evening, and peaceably retired; first refusing to accept the admission money, Mr. H. offered to return.

The next day, Mr. Harper appeared before the justices to recognize. The court, for the gratification of the citizens, was held in Faneuil-Hall-when the Attorney-General read a special order from the Supreme Executive, directing him to make the complaint on which the warrant was issued, and then read the complaint. On Mr. H. being put to plead, Mr. Otis, one of his counsel, objected to the legality of the warrant as contrary to the 14th article of the Declaration of Rights, which requires, that no warrant shall be issued, except upon complaints made upon oath : and the complaint upon which the prefent warrant was iffued not being made upon oath, the warrant consequent. ly was illegal. Mr. Tudor, the other counfel for Mr. Harper, supported Mr. Otis's opinion—which was combated by the Attorney-General with much candor and fairness. The opinion of their honors being defired, one of them (Mr. Barret) acceded to the validity of the defendant's counsel. -In confequence of which Mr. Harper was liberated, much to the satisfaction of a numerous and respectable audience.

A CARD. Mr. IlARPER, impressed with the liveliest emotions of gratitude, prefents to the citizens of Boston, and its vicinity, the tribute of unfeigned thanks for their many favors : And while he laments the necessity he is under, thus early to leave this hofpitable capital, he shall ever bear in remembrance the obligations he is under for their liberality, benevolence and candor.

Perhaps there is no science more entertaining and useful than geography. It reveals the disco-veries of travellers—the remarkable curiofities of all countries, in nature and att—the fituation of provinces, cities, towns, villages, rivers, & mountains—in fine, the history, manners, customs, laws, forces, revenues, and government of different na-

It is an old observation, that "there is not a son or daughter of Adam, but has some concern with geography;" and that a knowledge of this science is indispensable towards the study of listory with advantage or satisfaction. Indeed a man unacquainted with it, cannot discourse on the most common new spaper topics of the day without bettering his isonrance.

most common newspaper topics of the day without betraying his ignorance.

So much for geography generally. With respect to the present plan, let it suffice to remark, that Guthrie's Geography has been long acknowledged to be the best in the English language; however, the account of America in it has, from obvious reasons, been very erroneous and defective. The errors of former editions will be corrected, and the defects supplied, by gentlemen of abilities, who have engaged to superintend this undertaking, and to avail themselves of all the information that can be procured, to render it too most complete edition extant.

The Printer carnessly folicits the support of his fellow-citizens throughout the United States: and

fellow-citizens throughout the United States: and as no deposit is required, and every subscriber will as no depoint is required, and every subscriber will be at liberty to withdraw his name, if, on trial, he should disapprove of the work, he hopes the friends of science, and of American arts and manufactures, will cheerfully and early patronize this useful work, the greatest and most expensive, probably, ever yet attempted in America, in the typographical line, the Encyclopædia excepted.
