ESSAYS

L S S A I S ON THE INTELLECTUAL and ACTIVE POWERS of M A N. By THOMAS REID, D.D. E.R.S. Edinburgh. Profeffor of Moral Philolophy in the University of Glafgow. T would be improper for the publisher to mention any thing respecting the literary ta-tents of an author, fo generally known and effecemed. Nor does it appear necellary to re-quest attention to gerule a work, whole import-ance is univerfally acknowledged. Those who have read the ancient systems and the evolumes, will readily perceive, that the knowledge of philosophy, advances from a flate of infancy, towards maturity; nor will it appear too much, when it is faid, that Dr. Reid has divested moral feince from that veil under which for fo many when it is faid, that Dr. Reid has diverted moral feience from that veil under which for fo many ages, it has been concealed, by ambiguous words and the jargon of the tchools. Thus he has acted that friendly part to moral feience, which the ingenious Newton and Ferguion did to natural philofophy; their united and fkilful efforts, ren-der philofophy not only an ufeful, but a pleafant exercife, and a more fafe introduction to the moff important fludies.—It is impracticable to infert the lengthy reviews of this work, and to give a part, would be unfriendly to the author and reviewers. give a part, we and reviewers.
