which conveys the remedies to the cavities in the large through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough; causes a free and easy expectoration, heals the lungs, purity) the blood, imparts renowed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cursed in the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cursed in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, linkalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United State slone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's erave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the greatenemy of life, for it spares neither age nor sex, but sweeps off allke the brave, the beautiful, the graceful and the gifted. By the help of that Supreme lieing from whom comich every good and perfect gift, I am enabled to offer to the afflicted a perand perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air calls, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Irindation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than stitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of ulministration chloreform inhaled will entirely destroy sensibility in faw minutes, paralyzing the entire nervous evetem, so that a limb may be amputated without the alightest pain: in-heling the ordinary burning gass will destroy life in a few

The inhalation of sumonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after be ing inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the effect that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and threat, have been under my care, and I have effected many remarkable cures, even at ter the sufferers had been pronounced in the last stages which fully satisfies me that consumption; is no longer fatal becase. My treatment of consumption is original, and founded on long experience and a thorough invertigation. My perfect acquaintance with the hature of tuber-cles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies; rarely being mistaken even in a single case. This familiarity, in connection with certain pathelogical and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge he chest, parify the blood, impart to it renewed vitality,

giving energy and tone to the entire systematic Medicines with full directions self to say part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient shouldpay me a visit, which would give me an opportunity to examine the lungs and enable me to pre-scribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

ALL IMPROPER DISCHARGES FROM BOTH SEXES It matters not from what cause the disease originated however long standing or obstinate the case revery to creating, and in a shorter time then 'a permanent cure can be effected by any other treatment, even after the discase has besided the skill of entirent physicians and resisted all their means of cure. The medicines are placing without odor, causing no sickness and free from mercury or belsan. During wenty years of practice, I have rescued from the During twenty years of practice, I have rescued from the Jaws of Death many thousands, who in the last stages of the above mentioned discusses, had been given up to die by their physicians, which warrants me in premising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause, of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a perminent cure is acree, by any effected, a majority of the cases falling into the ly ever effected, a majority of the cases falling into the hands of incompetent persons, who not only full to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into

a rapid Consumption.

But should the disease and the treatment not canced ash speedily, and the victim marries, the disease is entailed upon the children, who are burn with deelle constitution and the current of life corrupted by a virus which becar. and the current of the currences by the particular and other at fections of the skin. Eyes, Throat, and Lungs, entailing up fections of the skin. Eyes, Throat, and Lungs, entailing up on them a brief existence of suffering and constants to an early grave.

SELF-ABUSE is another formidable enemy to licalth, for

nothing else in the dread catalogue of human diseases, es-ses so destructive a drain upon the system, drawing its thousands of victims, through a few years of suffering down to an untimely grave. It destroys the Naryous sys-tem, rapidly wastes away the energies of the causes mental derangement, prevents the proper development of the system, disqualifies for marriago, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evil more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and specify cure can be effected, and with the bandonment of ruinous practices my patients can be restored to robust, Vigorous health.

The afflicted are cautioned against the use of Patent Med-

icines, for there are so many ingenious snares in the col-umus of the public prints to catch and rob the unwary sufthe paint of the paint of their constitutions mined by the vile compounds of quack dectors, or the equally pelsonous northing vended as "Patent Stedicines." I have carefully analyzed many of t 1 so called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, while is one of the strongest preparations of nercury and a deally poison, which instead of curing the disease disables the system for life... Throe-fourths of the patent nostrums new in use are put

up by unprincipled and ignorant prisons, whe do not un-derstand even the alphabet of the sudgress medica, and are equally as destitute of any knowledge of the human system, rardidse of consequences, 🐠 Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures.
