BARNES' PILE LOTION. This colebrated Remedy for the Piles, when properly applied and its use continued in, will never fall in curing the plied and its use continued in, will never fail in curing the most aggravated cases of Piles, External or Internal.

Read the following from a Physician in Mississippi.

**Dear Sir:—The Barnes' Pile Lottin purchased of you has effected wonders. My attention was called to it when North, but presuming it to be one of the many nostrums of the day, paid but little attention to it. Some months since I was sent for to attend a planter, who was sorely afflicted with the disease. His condition was truly distressing. It was the most aggravated case I have met with in a practice of over thirty-five years. This was the first case I used it in. I used three bottles of it and effected, I think, a permanent cure. I have used it in several cases since, and in none has it deceived me. My experience induces no to say that it is the most valuable remedy for Piles ever used. At my suggestion, Le Count sends you an order for a pretty liberol supply."

IMPORTANT DISCOVERY. .OONSUMPTION AND ALL DISEASES OF THE LUNGS AND THROAT

the cough, causes a free and easy expectionation, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state considently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent, in the decond; but in the third stage it is impossible to save more than five per cent, for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United State alone; and a correct calculation shows that of the present population of the carth, eighty millions are destined to fill the Consumptive's grave. Truly the quiver of death has no arrow so fatal as Con-

Truly the quiver of death has no arrew so latal as Consumption. In all ages it has been the creat enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I are embled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and that immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cylls, which causes a weakened vitality through the entire system. Then surely weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhaling remotics. Thus, Ir halation is a local remedy, nevertheless it acts con-Thus, Ir indiation is a local remedy, nevertheless it acts constitutionally, and with more powerfund certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chioroform inhaled will entirely destruy sensibility in a faw minutes, paralyzing the entire nervous system, so that a limb may be amoutated without the slightest pain; inheling the ordinary burning gass will destroy life in a few The inhalation of ammonia will rouse the system when

fainting or apparently dead. The older of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately defected in the blood. A convincing proof of the constitutional effects of inhalaion, is the effect that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even af-ter the sufferers had been prenounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original. and founded on long experience and a thorough investigacles, &c., entitles me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single proper remedies, rarely being initiation with certain patho-case. This familiarity, in connection with certain patho-logical and microscopic discoveries, enables me to refleve the lungs from the effects of contracted chosts, to enlarge the chest, purify the blood, impart to it remewer vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient shouldpay me a visit, which would give me an opportunity to examine the lungs and enable me to prewill with much creater certainty, and then the cur-could be effected without my seeing the parient again.

The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrapts me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption; Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarce by ever effected, a majority of the cases falling into the hamle of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hestens the sufferer into a rapid Consumption.

a rapid Consumption.

But should lighthease and the treatment not caused at speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betray itself in Scroffula, Tetter, Uleers, Eruptions and other at fections of the skin. SELF-ABUSE is another formidable enemy to history, for nothing else in the dread catalogue of human district cases so destructive a drain upon the system, drawing in thousands of victims, through a few years of antering down to an untimely grave. It destroys the Narrous system, rapidly wastes away the energies of life causes mea-

tal derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a trait of evil more to be dreaded than death-itself. With the fallest cofidence I assure the unfortunate victims of Salf-Abrese the a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to relust. vigorous health.

The afflicted are cautioned against the use of Patent Med

icines, for there are so many ingenious snares in the co-umns of the public prints to catch and rob the unwary suf-ferers that, millions have their constitutions ruined by the vile compounds of quack dectors, or the equally polionous nortraps vended as "Patent Medicines."
