Read the following from a Physician in Mississippi.

"Dear Sir:—The Barnes' Pile Lotion purchased of you has effected wonders. My attention was called to it when North, but presuming it to be one of the many nostrums of the day, paid but little attention to it. Some months since I was sent for to attend a planter, who was sorely af-flicted with the disease. His condition was truly distres-sing. It was the most aggravated case I have met with in a practice of over thirty-five years. This was the first case I used it in. I used three bottles of it and effected, I think, a permanent cure. I have used it in several cases since, and in none has it deceived me. My experience induces me to say that it is the most valuable remedy for Piles everaged. er used. MPORTANT DISCOVERY. CONSUMPTION AND ALL

DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY Curable by Inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectaration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation is to me a source of unalloyed pleasure. It is as much under me a source of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in

disease; ninety out of every hundred cases can lie cured in the first stages, and fifty per cent, in the second; but in the third stage it is impossible to save more than five per cent, for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inha-lation affords extraordinary relief to the suffering atten-ding this fearful scourge, which annually destroys ninety-five thousand persons in the United State alone sand a cor rect calculation shows that of the present population of the earth, eighty millions are destined to fill the Censumptive's grave. Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift! I am enabled to offer to the afflicted a perfect gift. I am enabled to offer to the afflicted a perfect gift. I am enabled to offer to the afflicted a perfect gift. I am enabled to offer to the afflicted a perfect gift. and perfect gift; I am embled to oner to the timeted a per-manent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weskened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally and with rarre rower and certainty than True, it naistion is a local remedy, hevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a faw minutes, parelyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inheling the ordinary burning gass will destroy life in a few

hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the akin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the effect that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? Diving eighteen years practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even afcare, and I have effected many, remarkable cures, even atter the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a mind disease.
