BARNES' PILE LOTION.

This celebrated Remedy for the Piles, when properly applied and its use continued in, will never fail in curing the most aggravated cases of Piles, External or Internal.

Read the following from a Physiciali in Mississippi.

"Dear Sir:—The Barnes' Pile Lotion purchased of you has effected wonders. My attention was called to it when North, but presuming it to be one of the many nostrums of the day, paid but little attention to it. Some months since I was sent for to attend a planter, who was sorely afficted with the disease. His condition was truly distressing. It was the most aggravated case I have met with in a practice of over thirty-five years. This was the first case I used it in. I used three bottles of it and effected, I think, a permanent cure. I have used it in several cases since, I used it in. I used three bottles of it and effected, I think, a permanent cure. I have used it in several cases since, and in none has it deceived me. My experience induces me to say that it is the most valuable remedy for Piles ever used. At my suggestion, Le Count sends you an order for a pretty liberol supply."

DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralises the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other furnidable disease; ninety out of every hundred cases can be curred in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per control for the Lungs are accurate up by the disease as to bid defiance to medical skill. Even, however, in the last stages, links to medical skill. Even, however, in the last stages, links lation affords extraordinary relief to the suffering attending this fearful securge, which annually destroys hinesy-five thousand persons in the United State alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave. Curable by Inhalation.

grave.
Truly the quiver of cath has no arrow so faul as Consumption. In all ages it has been the great enemy of life, for it spares neither/age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the sir cells, which causes a weakened withit through the entire system. Then surely free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those admisistered through the stomach; the patient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Ignalation is a local remedy, nevertheless it acts constitutionally, and with more more and cartainty than attractionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chlorobren inhaled will entirely destroy sensibility in a faw minutes, paralyzing the entire nerrous system; so that a limb may be amputated without the slightest pain; in-heling the ordinary burning gass will destroy life in a few

The inhalation of ammonia will rouse the system when The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the effect that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results! During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care and I have effected many remarkable cures, even at care, and I have effected many remarkable cures, even atter the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tuber cles, &c., enables me to distinguish, readily, the various orms of disease that simulate consumption, and apply the proper remedies, rarely being mistuken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests to enlarge the chest, purify the blood, impart to it renewed vitality, the chest, purity the Blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient shouldpay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with purch greater certainty and then the cure

oribe with much greater certainty, and then the cure could be effected without my seeing the patient again.

The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the During twenty years of practice, I have rescued from the jaws of Death many thousands, who in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption. Scrofula and many other diseases, and should be a terror to the human family. RELF-ABUSE is another formidable enemy to health, for SELF-ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims, through a fixw years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself.
