The FAIR. -- The Ladies Fair, held in Lowther & Plack's Hall, which was closed on Thankspiv ing eve, was one of the largest affairs of the kind ever held in this part of the country, and was visited by almost every person in this place and many from a distance. Almost everything whibited was disposed of by lottery, and the rapid manner in which the chances were bought up, evised the desire of the buyers to obtain fine articles at a small price, and if they did not win, they had the consolation that their loss was small. Many persons condemn this mode of obtaining money, but the condemnation was met by the argument that the "end justified the means." On this question we do not intend to decide; it belongs to those engaged in it. Suffoe it to say, it netted a much larger sum for the purpose intended than could have been secured by other means. Many of the articles were of the very best quality; among which we may enumerate a fine silver tes service. four gold watches, a number of silver watches, several beautiful quilt patterns, fancy bonnets and dresses, and smaller articles "too tedious to enumerate." Everything was conducted in a manner which insured impartiality in the discribution of the prizes, as the person who had charge of this part of the arrangement enjoys the confidence of all. The best of order was observed by visitors during the whole time the Fair was open. We have not learned the amount of money realised, but presume it came fally up to the expectations of the managers.
