DR. COGGSWELL'S ANTIPHLOGISTIC BALT.-We learn from the Philadelphia Daily News, that D. C. Taylor, Esq., formerly of the Neptune Insurance Company, of that city, has accepted the agency for this celebrated Remedy in N. J., Pa. Del., Md., Va., and N. C. This is the prescription of an eminent physician and well worthy the attention of all physirange and those afflicted with inflamatory distases. It strikes at the source of all inflamation by surely and speedily equalizing the circulation. It is highly recommended by editors, physicians and others, and the certificates of cure are perfectly enthusiastic. The descriptive circulars should be read by all, and let every one afflicted try, and those not sick remember the new Medical Salt. By reference to the advertisement in our columns, it may pe seen where this valuable medicine is for sale.

SPEAKER OF THE SENATE.—The Pennsylvania Argus states that Hon. Jacob Turney, heretofore considered a prominent candidate for Speaker of the Senate, will not be a candidate under any circumstances, but will use his influence to secure the election of Hon. John Cresswell, of this county, who was elected Speaker at the plose of the last session. All right BAY We .: It would give us pleasure to record the election of Mr. Cresswell, believing as we do, that he would make a competent, faithful and impartial officer. He sertainly deserves this mark of distinction for his untiring exertions in favor of his party.

MOLASSES A PREVENTATIVE AGAINST TYPHOID FEVER .- The Abingdon Virginian, in noticing the fact that Typhoid Fover prevails, and is generally fatal, in some parts of Tennessec, states that he has been informed by a physician, who has had several years experience in treating the disease, that those families who use molasses daily, are rarely attacked with the fever. Whether, in reality, molasses had anything to do with preventing those families who used it from taking the disit is hard to determine, nevertheless, it would not be a hard matter to give it a trial, as it will do no harm to eat it.

Godey's LADY'S BOOK.—If Godey ever excelled himself in his life, he did it in his invaluable Book for January. He made large promises, but he was fully competent to fulfil them. He goes on improving steadily, year after year, and generally keeps about one year ahead of all ontemporaries. What he does this year, some one will be imitating next year.— Godey has no successful rival, and while he holds the sway over the ladies which a long life of devotion to their interests has secured him, he can have none.-Price of the Lady's Book \$3,00. We Hon John M. Clayton. will furnish it for \$2,00.

MRS. STOWE'S NEW SERIAL.-The reading public will be glad to learn that the story entitled "The Minister's Wooing," commenced in the Atlantic Monthly, for December, is from the pen of Mrs. Harriet Beecher Stowe; and that portions of it will appear from month to month until it is completed. The story is marked by all the characteristics of style and spirit which have made the author's former works so famous. The scene is laid in New England, immediately after the Revolution—the period when all that was most simple, quaint, and peculiar in character and manner, was in full force.

The Pacific Railroad.

The bill which was introduced by Mr. Curtis. n the Ilouse of Representatives, to secure the construction of a central Pacific Railroad, provides for branches from two points on the navicable waters of the Mississippi river-one opposite to Iowa, and the other opposite to Missouri the two branches to converge and unite within two hundred miles-of the Missouri river, and thence run to the navigable waters of the Sacramento. The usual appropriations of the alternate sections within six miles are to be appropriated, and Government is to appropriate the contracters twelve thousand dollars a mile, to be reimbursed to the Government in transportation of mails and stores. We had the pleasure of examining the model made by him, on a visif to that pleasant Moravian town, not long since. It is really very curious invention, though Mr. Weiss has never brought it prominently before the public.

There being but an indifferent solection of candidates, comparatively few votes were cast, but the people generally preferred the white man to the Republican of a darker shade, and so "temperance and freedom" triumphed by 772 majority.
