SCASONABLE HINTS FOR BUSINESS MEN. We have published many articles, lately, bearing directly upon the necessity of business men ailvertising their business. By so doing, it may be said, we are laboring to benefit ourselves. Certainly we are, but at the same time, we consider that the advertisement of the business man would be of more value to him than the price of its insertion would be to us. One business will generally build up another, and so it should. If merchants will advertise with us it will build us up, and in return they will be built up through us. We commend the following article, from the Harrisburg Telegraph, to those who do not advertise:-Our business men should embrace the present

time, above all others, to make extensive use of that infallable panacea for hard times-" printer's ink." The harvest and fall work is over, are about to lay in their supply of clothing, furniture, groceries, in short all the necessaries of the Winter season. Of course they will not purchase without looking around them to see where they can expend their money to the best advantage-and hence if advertisements are published in the newspaper, or cards and posters printed and circulated, the buying community will read them and be greatly governed by their contents. Those merchants who do thus advertise get, in consequence, the best trade the country affords-particularly that trade which brings CASH. The wise business man, therefore, looks upon this matter from a common sense standard. He should consider that in these days of newspapers, a proper system and tore-room to contain his goods, or the sign over his door which conveys to passers by the name of the proprietor. It is not a luxury to be indulged in when business is more than ordisarily prosperous—it is a necessity at all times. but decidedly so in times of inactive trade. -The experience of eminent and successful merchants has demonstrated the truth of this assertion in hundreds of instances. And it is but estural that it should be so. A bold, readable. wide-awake advertisement in a public journal. or in the shape of cards or circulars, shows that there is some life-some business activitysome progressive talent in the advertiser, which even in the dullest times attracts attention, and is the means of giving him a popularity profitable as well as pleasant. This feature of business is well understood by some men engaged in trade-by others it is not. Other things being equal, the results of the operations of the two classes are very perceptibly favorable to the former. Particularization is unnecessarywhat we state is a fact known to every man of common intelligence, and clearly observable in every community, our own as well as others.

when we go to church, we do it to enjoy the singing, the prayers and the preaching; but we are sorry to say that there are those who will Dat permit us to so enjoy' ourself, at least such was our experience on Sunday week, at the Methodist Church, in this place. During the reading of the first hymn, we saw sented at our lest hand, two la-(not ladies-we don't know what to call them,) whispering to each otherno doubt making remarks upon their neighbors' bonnets or dresses. We were so annoyed that all the sentiment of the hymn, and even the page, were lost to us, and our enjoyment destroyed. Then, while the minister was reading the morning lesson, our pleasure was again marbelow par in the former,) was engaged hunchmissiueness to the controlling power of the orstor, the spell was broken, by the monkey-shines -absolute monkey-shines-of a human being (in form-not act) within the range of our eye, and this offender was the well-trained son of one of our most respectable citizens. We were shocked! We could pardon, in some measure, the brainless apes who had annoyed us before, but for this person, who should have known better, and done better, in consideration of his acknowledged good sense, was unpardonable. We left the church, at the close of the services, in no good humor, we assure you, reader; and while to let the public know first of the actions of the persons who aggrieved us so deeply, and if that would not serve to put an end to their evil and detestable interruptions of God's worship, to give their names the next time.

Mas. King's SELECT SCHOOL .- Mrs. King would inform her friends and the public, that her next term of school will open on Monday, December 20th. Those who have confided their daughters to her, and others who may wish to do so may be assured of her continued desire, and, as she hopes, increased ability, to impart to her pupils a substantial, useful, accomplished and christian education, She has the aid of a teacher of acknowledged talent, and it will be their aim to contribute as much as possible to the personal happiness, as well as moral and intheir care.

DISTINGUISHED PASSENGER.—Yesterday moron the first round in the late fight for the championship of America, passed through this place, on the Express Train, sa route for Pittsburgh, where he and his celebrated trainer, Aaron Jones, who preceeded him by the Fast Line. on Monday night, gave a sparring exhibition last evening. In our opinion he comes fully up to all that has been said about his dimensions, and we believe that a stroke from his " south paw" would make the stars fly and give a fellow a slight headache. He is a much better looking man than we had imagined to fird him, notwithstanding, there is a determined, bull-dog look about his countenance, which indicates one born to the science in which he has became so proficient, and who could endure an awful amount of punishment without flinching .-None of our "sparers" evinced a desire to have a friendly "set-to" with him and he was consequently permitted to pass without giving us an exhibition of his skill. Although no notice of and farmers and others throughout the country his coming had been given, the news of his arrival spread rapidly and ere the train moved off. the avanue in front of the Logan House was well

MORE PARERY THIEVING .- This business is now carried on so extensively in this place, that it may be set down as a regular business, and considered one of our "institutions." Within the last couple of weeks, quite a number of cellars and pantries have been relieved of th ir contents, and always on Friday or Saturday nights. showing conclusively that the persons engaged in this business, which is generally degree of advertising is just as necessary as a wholesale, know when the Sunday preparations are made and a goood lot of bread, cakes, pies, butter, &c., is on hand. The cellars of our clever friends, Joe Hileman and Joe Adlum, have received professional visits from some of the gentlemen, and in both cases the proprietors were relieved of all articles in store, in the eatable line, which required no cooking. Can not something be done to put a stop to this business? The robberies are often daring, sometimes visiting the same places twice in succestheir premises against those night prowlers, who may become emboldened by their many undetected depredations on pantries and cellars, and begin to look for something more valuable.

A Novel Invention .- As a number of young men will persist in grinding tobacco in church, it is proposed to get up a large flask, to be placed in the breast pocket, with a funnel or tube in the same, to receive the product of the mill, which they can carry home with them and empty out on their mother's parlor carpet or cleanly scrubbed floor, instead of leaving it in the corners of the pews. We hope the invention may be speedily got up and patented, and every storekeeper in town made an agent for its sale. Let the ladies be on the look out, and we ate our dinner on that day, we determined when they observe a gentleman with a full breasted coat, they may calculate that he has a "hop-

Good FLOUR.—Since we have lived in Altoona, we have had some good and some very bad flour, but the best, decidedly the best, we have ever had in our house, was made at the new Steam Mill, in this place, a few days since. Better bread than that made from the flour from the Steam Mill, we have never eaten, and we are certain we never wish better. Although the flour was made from common red wheat, the bread is exceedingly white and very easily made. We have heard many complain of the flour made at this Mill, and not without cause, but they have demonstrated, by taking a stroll along Virshould remember that it was new, and of course | ginia street, in seeing the crowds of Ladies and could not be regulated so as to make the very Gentlemen wending their way after those handbest flour from the first. Parents, is it not a duty you owe to your children, to leave them this image to gratify this noble passion? How shen do we hear the exclamation, where persons are viewing portraits, "I would not value any sum if I could but procure the portraits of my departed parents or children. > DENTISTRY. - In another column will be found the card of Dr. S. Kimmell, of Hollidaysburg, Operative and Mechanical Dentist, to which the attention of our readers is directed. Dr. K. enjoys the reputation of being a skillful practitioner in his line, and we doubt not will render full satisfaction to all who entrust him with their work. He promises to do work as cheap as any other dentist in the county, and deduct the fare, from this place to Hollidaysburg, from all work done for persons in this place, when the amount is over five dollars.

Accident.—On Sabbath last, as the family of Soth R. M'Cune Esq., who resides near town, were returning home from Church in their family carriage, one of the horses became unmanageable, backing the carriage over an embankment and upsetting it, to the imminent peril of the life and limbs of those inside. Fortunately, however, they all escaped serious injury, save his eldest daughter. Miss Elizabeth, who received a severe hurt in the face. - Register.

Ріттявинан, Nov. 18th, 1858. DR. KEYSER: - Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your Pectoral Syrup. As a medicine it is well worthy the attention of any person who may in any manner be effected with colds, cough and hoarseness of any kind; and for its peculiar qualifications for removing all that dissagreeable sensation attending a severe cold. I have been, more or less, in my life afflicted with the severest colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup, it would relieve me entirely. In recommending this medicine, I must unhesitatingly say, that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully, EDWARE D. JONES. Cashier Citizens' Deposit Bank. Sold by G. W. Kessler, Altoona.

THE PANIC-MORE FAILURES.—The panic in New York seems to be on the increase. In this city everything goes on smoothly, and the only failures we have heard of were the failures to furnish good fits made by some inferior clothing establishments. There is no such difficulty to be encountered by those who patronize the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chesnut street, above sixth. Gentlemen and Youths never fail to procure capital fits at this popular establishment.

world and from the most intelligent to prove that it is a perfect Restorative; but read the circular and you cannot loubt; read also the following. 45 The Hair .- People have for centuries been afflicted

with hald heads and the only remedy, heretofore known has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we carnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fall. We know of a lady who was bald, who used the article a short time, and her head is now covered completely, with the tinlest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it over had been before. It is also without doubt one of the best articles for keep-ing the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance though some may differ in regard to the ways doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much tobe de-sired, and there are no means that should be left untiled to obtain such a consideration.—Woman's Advocate, Phila.

O. J. WOOD & CO.—Gents: As I have been engaged in soling your Hair Restorative the last season for one of your local agents (R. M. Hackinson.) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours. obtain such a consideration .- Woman's Advocate, Phila. secretive organs or invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell. Yours truly.

Wayland, Muss., Feb. 5, 1857. PROF. O. J. WOOD & CO.—Gents: Having realized the ood effects of your Hair Restorative, I wish to state, that inding my hair growing thin, as well as gray, I was in-luced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely, In the operation I have used nearly three bottles.
Yours &c., JAMES FRANCIS.

nd the various affections consequent upon a disord Such as Indirection, Acidity of the Stomach, College Palma, Heartburn, Loss of Appetite, Despondency, Coshirentea, Blind and Bleeding Piles. In all Nervous, Rheimatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a dockled cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave: Because of its great success in the most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success numbers STOMACH OR LIVER. this mighty country.. Meeting with great success and them. I now offer it to the American public, knowing that them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged. It is pasticularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raking up the drooping spirit, and, in fact, infusing new health and vigor in the system.

CAUTION.—The great popularity of this delightful Arema has induced many initations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland lifterwas a fair trial. One bottle will convince you how infinitary superior it is to all these imitations.
