

ALTOONA, PA.

THURSDAY, FEB. 3, 1858.

the parties are minknown to sa bur ralefor allverdeling is to require payment in advances or a guarantee from known persons. It is therefore useless for all such to sen ients offering to pay at the end of three or si Where advertisements are accompanied with the whicher one, have or ten dollars, we will give the seath full benefit of each rates.

B.M. PRTTENGILL & CO., Andrewiston Agents, 110 Nassau street, New York, and logitate street, Boston, are the Agents for the Alloone Frounc, and the most influential and largest circulating Newspapers in the United States and the Canadas. They was enthorised to contract for us at our lowest rates.

COUNTRY NEWSPAPES.—One of our city magazine writers pays a high compliment to the newpaper literature of our country, in saying that he "has seen in little country newspapers prose articles of genuine merit-articles in which were displayed the highest order of capacity; and yet beyond the narrow circle of a country. where, perhaps, they were not and could not be appreciated, were never read, or even heard of. We open every week in our office country papers, whose editorials would adorn the great city papers and make their reputation. But they pass away after being glanced over, and are seen no more. There is a great amount of talent in the country that could be made the basis of splendid reputation. But it wants a theatre for display. Like the cold steel, it must be smitten to produce fire. It is modest, timid, and retiring, and lives in oblivious shades, while contemporaneous and arrogant ignorance takes the lead in all public matters and gathers the laurels to be won. Look at the second and third classes of conspicuous men among us. What they lack in capacity they make up in an article commonly called "brass." They have stepped in where the highest capacity feared to tread. They reap honers, emolument and wealth, while the timid children of genius, like the glow-worm, shine in obsourity, and go wanting all their days .--He will indeed be a benefactor who shall teach true merit how to be courageous."

In a case of some importance, tried last week, at Hollidaysburg, Asheom vs. Getty, one of the Attorneys for the Dft. was examined in the case as a witness on the part of his client and afterwards argued the case to the jury, asking, of course, a verdict for the Dft. partly on his own testimony. We see that Senator Coffey has introduced a bill into the Senate making important changes as to the rule of evidence, and we would respectfully suggest to our Legislators the propriety of adding as he is a humbug. The name of the Company a clause to it disallowing members of the bar to give testimony in any case in which they are concerned. It is certainly calculated to lower this noble profession to place to day, when George Sanderson, Demosee a grave counsellor try a case - be examined as a witness-and argue to the jury that he is right because he swore 50. Every lawyer, independent of the fees he has at stake, feels an interest in the result of the case being tried. there is nothing in the law to prevent it, and we believe there is not in the United States, (although it is not allowed in England) and professional ethics do not prevent Lawyers from being witnesses in cases in which they are interested, a plain statute should be written and passed for-

bidding it. SLIGHTLY SOLD .- On monday afternoon last, a couple of men, supposed to be the robbers of the Coshocton County Treasury, an account of which we published last week, were arrested at Columbus, Ohio. They informed the officers who arrested them, that they were shoemakers, but the weight of one of the carpet-bars created suspicion. At Columbus they ware taken before a Magistrate, when the officers immediately commenced pulling cont the contents of the bag. Some old rags that were not worth carrying were first pulled out-" most suspicious," said the officers, "put in on top to conceal what is Cherry Pectoral in China; playin' "Yankee underneath"—next came a shoemaker's Doodlo" in Japan; openin' a land office in Ari-"kit," awls, knives, &c., but at last, at the very bottom lay the weighty treasure carefully wrapped up in a leather apron. It was handed out cargerly and unwrap-ped with great care by the magistrate, when out rolled a shocmaker's lapstone. They were discharged.

FIRE AND LOSS OF LIFE. -A fire oc- know the agent perfectly. curred in Reserve township, Allegheny ounty, about half-past 11 o'clock, on Mon- swain who has been duped by some fair maiden, day evening last, consuming a house ocsemically a family named Rodgers. Mr. modgers, his wife and four children were Buried with the house, but one, a boy 8 years old, escaping.

THE TONNAGE TAX.—The Philadelphia Press has been reliably informed, that the Pennsylvania Railroad Company whuse to pay the tonnage inx, imposed by their chartes to the common wealth, and intend to test its constitutionality in the courts, as advised by their coursel. Messrs. Cuyley, Meredith and Crittenden, in an opinion recenly published. The amount due at the present time, for the last six months, is over one hundred thousand

I shaved them clean and called again.

And thought my trouble o'cr.

She laughed outright, and said I was hore nank recen than before. LETTER PROM MARRISHURG.

HARRISHURG, February 1st, 1859. One month-being the first section of the Legslature panorama, has passed before our vision, and we can not, just at the moment, call to memory anything done calculated to work any very great change in the onward destines of the world or to retard or advance the march of man. There was a faint hope induledd in at the pening of the session, that as there were but a very few bank charters asked for; but few in-

orporations would have the breath of life blown into their nostrils. But, sirs, they are here.-They come here and ask for vitality under a guise which even cunning Legislators can not see through. They do not claim to want powers of issue, but they actually want privileges of pawn-broking on a gigantic scale. One of these is called the "American Improvement & Loan Company," with a capital of \$500,000, to go into operation when ten per cent. on each share is paid in. Among other things the Co. wants to do, is "to make loans of money and credit" "and emphatically to hold on deposit and in trust estate real and personal." Another is the "Indian and American Commercial Company," with a capital of \$5,000,000, which asks | site institutions too numerous to mention, to say for pawn-broking powers on a gigantic scale.— Such mammoth establishments credit expand. which is the only thing they have to lend, but soldier shindles, square-spinal-termination pulnever make money plentier. They do not ask lings, faucy balls, &c. powers to loan at more than legal rates, but under the new usury law, or rather the repeal of the old law, and the charges for storage of rison, named James Morrissey and Pat Quinn collaterals, they could so entrench themselves both Irishmen, got into a fight, in which the as to grind the life-blood out of the needy with ten fold more force than the ordinary Jew Pawn-

On Friday last, you will observe, Mr Coffey read in place a bill to prevent the destruction of trout in Blair County, which it is to be hoped will become a law. Twelve years ago the enthusiastic disciples of Isaac Walton, could whip a half-a-mile of any stream in the countryenjoy the keenest sport extant, and return home with a basket full of trout. Now, alas! it is work and not amusement to take them. Their rapid extinction is not merely owing to the settling and opening of the country, but it is the villainious practice of luring them from their haunts with hook and worm at all seasons .-Half-a-dozen trout fishes a day, and twice as many on Sunday, in a stream, during the season, would in time extinguish them, but not so rapidly as do the fish-hawks, who take them in the spawning season, when, instead of taking one trout, they often take a hundred in embryo. The hill provides against this by making it a misdemennor for any person to take trout out of any of the running streams in Blair county, between the 5th day of July and the 1st day of March, punishable by a fine of \$10 and imprisn a cold winter night, exclaimed, "Of all ways onment in the county jail for a term of not less than thirty days. It remains for the interested to carry its provisions into effect, if it becomes

> The Legislative Record printing is a hydraheaded monster. No sooner is one of its heads cut off in the Senate, than another even more formidable than its predecessor springs up again in the House. I do not see that the steal-I beg parden-profits of this job are so great as to require an entire session's Legislation upon it. I am very much mistaken if the loss of time consumed in debating the question has not already cost the State a trille more than the publication of at least two Records. Yesterday the House brought over to the Senate another Resolution having for its object exactly what its predecessor, which was killed in the Senate on Tuesday last, had. Before it could be acted upon, however, the hour of adjournment ar-

To-day, after the regular orders of the day were gone through with, the same subject was continued with variations in the shape of a debate of a very spicy nature. The resolution rescinding the contract fell by a tie vote, after enster, Feb. 1.—The municipal election took | which is resolution was adopted to appoint a committee to act in conjunction with a similar committee of the House and to contract for the Burrowes, Opposition, by 7 majority. The vote printing and publishing of a daily Legislative Record.

The Committee in the Cambria contested election case has ended its labors and decided in favor of Proudfoot. No report has yet been 00 bushels, and from York river, 45,000 bush- made, and it is expected that a minority report els. This, however, is but a small portion of will follow upon the heels of that made by the

C. M. Donayan, convicted in the Quarter Sessions of an assault and battery upon J. M. Church, the particulars of which I gave you two E. M. Jo thousand two hundred dollars. He has been weeks ago, was sentenced to-day to pay a fine James Roller, of \$200 and the costs of prosecution, undergo an imprisonment in jail for the term of three months and enter hail in the sum of \$1000 to keep the peace. This is certainly a very severe sentence, as the conviction was only for simple assault and battery, and Church was so little injured as to be able to appear in his seat next day after the occurrence.

Nothing of any importance to-day in either House. In the Senate numerous petitions for appropriations to the contemplated monument were presented, and a few trifling bills in place were read. The House was employed on the private callendar, which contained nothing of LOGAN.

THE PENNSYLVANIA RAILROAD.—We find in he Philadelphia papers a report submitted to the stockholders of the Pennsylvania Railroad, by J. Edgar Thompson, Esq., in which the subject of the proposed extension of the road to the Delaware river is fully and ably discussed. Mr. Thompson urges strongly the propriety of the measure, and gives facts and figures to prove that it is the interest of the stockholders to have the extension carried out with as little delay as possible. Among the many reasons asshould be carried out is the fact that the reduged expenses of transferring the business at a Delaware river depot, accessible by steam power, and of transportation to it, would enable the Company, without interfering with the regular dividends, to reduce its charges upon the local traffic, and thus directly aid in developing the resources of the State. Accompanying the report was a resolution authorizing the Board of Directors to select a site for the proposed ter- Western Penitentlary, minel danat and to complete the extension of B. L. Hewit, District Att'y, fees in Court cases, minal depot, and to complete the extension of the road to the Delaware river at the earliest practicable period. The measure, we presume, will meet with the approval of the stock holders, James Funk, Esq. on account, whose sanction is all that is now required to John Love, taxes on unseated lands refunded, carry it into effect.

SHOCKING DEATH IN WASHINGTON .- A YOUNG man of estimable character and fine talent, named John Hart, came to his death in Washington, D. C., in a most distressing manner, by getting accidently hung on the palings of a fence. t seemed, from what we could learn of the circumstances, that young Hart, who is the son of a very estimable gentleman, (formerly connected with the Charleston S. C. papers) came to his boarding house at a late hour, and attempted to climb over the palings of the front yard, and in doing so, his foot apparently slipped, and he was caught by the neck in such a way as to strangle him to death. A mithful dog, which was with his master, had endeavored, with all his power, to relieve him from the peril, and in doing so, tore the ciethes entirely off from young Hart in his efforts to null him down. When found in the morning the body was stiff and cold, and the clothes torn in shreds by the dog. lay scattered about, the faithful animal keeping guard over the dead body of his master.

AN INTERESTING TOWN. The town of Carlisle a great place, and has a large number of peculiar institutions," which the American otices as follows ---

"We have Gas and Water, fine Hotels, elegant Boarding Houses, excellent Schools, Dickinson College, a beautiful Jail, a Female Seminary, Lager Beer and Switzer, two intermitent Faro Banks, the Barricks, nine Groggeries, four Sweat Cloths," two "Thimble rigging" establishments, a Ten-pin Alley, and other exquinothing of very peculiar luxuries, in the shape of horse races, cock-fights, dog-battles, nigger rows, pig chases, pole-climbings, had whiskey,

MURDER AT THE CARLISLE GARRISON .- On Thursday evening last two soldiers at the Garformer, it is said, got the worst of the battle, when they were separated. A few minutes ofter, the parties again met, when Morrissev nicked up a large stone, with which he struck Quinn. on the head, causing an injury from which he died on the evening following. Morrissey was arrested and is now in iail to await his trial.

THE PROPERTY OF KANSAS.—It appears by the statistics of Gov. Medary's message, that the taxable property of Kansas is placed at \$25,000,000. As four fifths of the new improved farms are not pre-empted, and of course not yet axable, it is evident that the wealth, when fairy estimated, will bear a good proportion to the opulation. The claims admitted by the Comsioner, for losses in the late war amount to \$254,279 28, of which only \$28.942 90 are for public losses.

PITTSBURGH, FT. WAYNE AND CHICAGO RAIL ROAD.—The earnings of this road for the month of December foot up \$181,567,47, against \$111 .-628.78, for the same period last year, an increase of seventeen per cent. The expenses, however, for the same period were \$44.726.68. more this year, so that the nett earnings of the road for the month exhibit a decrease of \$24,-790 99. The decrease during the year, as compared with 1857, was \$36,524 15.

ORE THAN 500,000 BOTTLE NEW ENGLAND STATE IN ONE YEAR.

The Restorative of Prot. O. J. Wood for Restoring to perfectly and permanently, has mover yet had a riral of ume after volume might he given from all parts of the world and from the most intelligent to prove that the perfect Restorative; but read the circular and yes saint doubt; read also the following.

The Hair.-People have for conturies been afficial with bald heads and the only remody, herstokes have, has been those aboutinable wigg. By a recent discorry a Professor Wood these articles are being fast dispensed in but a great many persons still patronize them, beam they have been so often imposed upon by Hair Toking different kinds. To all such persons we carriedy inhe the request; that they will try once again, for is ween Restorative there is no quelt thing as fail. We know a lady who was bald; who used the article a short time as her head is now covered completely with the thistent most beautiful curls imaginable. We know of numbers of the property where hair was rapidly falling out, which it retain

most beautiful curls imaginable. We know of immens cases where hair was rapidly falling out, which it retail in greater perfection than it ever had been before.

It is also without doubt one of the best articles for by ing the hair in good condition, making afreed and gay removing dandruff, and has proved Itself the girlist amy to all the fils that hair is heir to.

It is the duty of every one to improve their personal pearance though some may differ in regard to the wind doing it; but every one will admit that a beautiful healthair, either in man of woman, is an object much to be alred, and there are no means that should be left untils obtain such a consideration.—Woman's Adverse, Phile Coshocton, Ohid, Nov. 17, 188.

O. J. WOOD & CO.—Cente: As I have been engaged selling your Hair Restorative, the last season for east your local agents (R. M. Hackinson.) and having epoen enced the beneficial effects of it mixelf I would like he tain an agency for the State of Ohio or some State he west, should you wish to make such an arrangement all am convinced there is nothing equal to it in the United Man for restoring the hair. I have been engaged in the lay business for several years, and have sold various prepared.

business for several years, and have sold various prestions for the hair, but have found nothing that restored being fully convinced that your restorative is white represent it to be, I would like to engage in the said for I am satisfied it must sell. Yours truly.

S. T. STOCKMAL

Wayland, Mass., Feb. 4, ME PROF. O. J. WOOD & CO. Gents: Having resided a good effects of your Hair Restorative, I wish to state the good effects of your thair Restorative, I wish to stand inding my hair growing thin, as well as gray, I was alread from what I read and heard, to try the articles pared by you to promote its growth and change is east to yas in yourly, both of which it has effected compared by. In the operation I have used nearly three kets.

Yours &c. JAMES FRANCE
