PETTING A YOUNG MAN "THROUGH."-A new way of putting a young man " through a course of agreets," and effectually capping the climax of siabe, was instituted in this place, on Saturday last. It appears that a few days since the junior partner in a Jew Clothing Emporium. up street, stepped into a dry goods store. next door to his own, and offered to give a counte of clerks who were present the sum of fifty cents if they would put him out of the store. Not feeling willing to take the young man's word for the money, they requested him to place it. in the hands of one of the bystanders, to be handed over when the job was finished. Having no change in his pockets, the young man anpealed to our jovial friend, John Campbell, to go his security, and he agreed to do so. All preliminaries arranged, the boys began their task, the parties, in turn, going through all sorts of manœuvres, ground and loftly tumbling &c., which wound up with the rather unceremonious ejectment of a personage about the size of the Jew clothier through the hole the carpenter made. After being fairly ousted, the young man refused to "pony up" the "spondulicks," and twitted the boys about the pay they had received, As a matter of course, as the affair stood, the the rie was on the boys; but one of them, who must be some relation to a razor, concluded to turn the tables, and not be Jewed out of his fairly earned quarter. Accordingly he appeared hefore Esquire Cherry and entered suit against the iunior clothier and his security, for the recovery of the money. Attachments were immediately issued and placed in the hands of our model Constable, Joe Ely, who brought the gentlemen up "instanter," neither of them, however, exactly understanding why they had been thus summarily deal with. A statement of the case, by the Justice, soon knocked the scales from their eyes. A bearing was then had, after which the Justice decided that the junior clothier was bound to fulfil his contract. After giving vent to sundry expletives on the "outrageousness" of the proceedings, the affair was compromised by the boys withdrawing their claim and the junior clothier paying the costs, which amounted to \$1,20. The whole affair was a well played out joke, but we opine it will make the young man a little more careful in offering to pay for ejectments, as the fun was all on one side, and was more expensive than pleasant. To many this disgusting practice of sending vulgar and obmay appear like an unimportant event, while in scene missives, on St. Valentine's Day, has well act it is that which most directly interests nigh done away with the time honored custom them. The actions of Borough and Township of sending delicate expressions of friendship officers come home more directly to the voter, and love. Though old ceremonies no longer and oppress or benefit more immediately, than give their wonton charms to the occasion, the the acts of members of Congress or the Leg- day is still noteworthy. In former years the elature; consequently the selection of good, lads and lasses commenced their preparations empetent officers is as much to be desired at for its observance at a very early day. The good of above, which has caused it to be voted a nuicommunity depends, to a certain extent, sance. We sincerely hope that there may be on the actions of its immediate home rulers, none who will so far forget their self-respect erefore they should be selected with due care, and the rules of common decency, as to be guilas far as possible, without reference to po- ty of sending ridiculous or obscene missives, especially to ladies, on Monday next. Much more real pleasure may be derived from the observance of the customs of this "day for lovers," by conducting them after the manner of the an-

New SHAVING SALGON.—George Hooper, that excellent Knight of the razor, has taken the room, next door to our office, has fitted it up in good style, and is now prepared to scrape the countenances and acquaintance of all his old mains. friends and as many new enes as may give him a call. George is a first-class barber, as all who have set under his skillful hands can testify, and now that he is in a saloon of his own, may be expected to put the finishing touch upon all who commit the dressing up of their physiognomies to him. He deserves and will no doubt receive

a fair share of patronage. MILITARY AND FANCY DRESS BALL, The members of Winebago Tribe, No. 35, I. O. R. If he fails to see his shadow, he remains out to "root heg or die." All we have to say is, that if his hogship made his appearance in these parts, on the day named, he must have had optics sharp to discover his shadow, for we cannot recall a much more gloomy, dark and disagreeable day. Then if the "ground-hog sign," is a good one, and we'll consent to be called superstitions for once, that it may prove such, we shall have an early spring.

> BoxHood.—Boys, when they are boys, are queer "institutions!" How many ridiculous notions they have, and what singular desires, which, in after life, change and shape themselves into characteristics! A cotemporary asks, who remembers when he would have sold his birthright for a rocking-horse, and his new suit of clothes for a monkey? Who forgets the sweetfaced girl, older than himself, against whose golden hair he leaned and wept his grief away? Who recollects when the thoughts of being a circus rider appeared greater than to be President; and how jealously he watched the little fellows who wore spangled jackets and turned somersets, and prayed to become like them ?-If memory preserves not these capacities, or something similar, the boy is lost in the man.

THE BEST COUGH REMEDY KNOWN.—There is no doubt about the fact Dr. Keyser's Pectoral Cough Syrup is one of the most remarkable cough medicines, now offered to the public. Old cases of lung disease, bronchial, and every variety of lung disease, have yielded to its wonderful powers, and we therefore feel no hesitation in recommending our readers who may be afflicted in that way to try it. There is very little cost attending the purchase of a bottle, which even though it should not cure, it will do no harm. We know Dr. Keyser to be a regular physician ; conscientious in the discharge of his business, and our renders will find it safer to trust such a man's statements, than hundreds of those who are unknown to the community. Sold by G. W. Kessler, Altoona.

FISHER'S GALLERY. HOLLIDAYSBURG.-While on a visit to Hollidaysburg, last week, we dropped into the Photograph Gallery of that excellent artist, G. W. Fisher, and examined a num ber of his specimens in oil and water colors, and we are free to admit, and pleased to say, that we have never seen anything to excel them, truthfulness and beauty of finish, executed by more (but not justly) famed artists of the cities. His work will compare favorably with that of any artist in the country. The perfection at which he has arrived proves that he fully understands every branch of his business. His works needs but to be seen to be admired. We can not see what is to prevent him from making a fortune at his business, as we feel sure that all who see and examine his specimens will call

BOROUGH CONSTABLE. As will be seen by a card in another column, our present excellent Borough Constable, Joseph K. Ely, offers himself for re-election to that office. We believe we but express the opinion of nine-tenths of the citizens of this place when we say that he is the best Constable we have ever had. We presume he will have no opposition, at least we have heard of none. It would be no more than an act of justice and a merited compliment to a faithful officer, to give him a unanimous vote.

THE MATCH FOR THE BEAR -The shooting match for the large bear on exhibition at the American House, announced to some off some two weeks since, was postponed for a few days. in consequence of a failure in perfecting the necessary arrangements. All preliminaries settled, the match came off last week, and bruin was won by Col. J. Q. Young, of Hollidaysburg. The distance was fifty yards, off-hand, and the shortest string in twenty-one shots.

CHILD FOUND.—A child, evidently but a few hours old, was found on the Railroad track, at Fostoria, on Thursday evening last, immediately after the departure of the Emigrant train Westward. It was "alive and kicking," when found, and was taken in and cared for by a family named Miller, in whose possession it re-

This is a purely veretable compound, prepared on strictly scientific principles, after the manner of the calcharded Holland Professor, Boschave: Because of its great success in the most of the European States, its introduction into the most of the European States, its introduction into the most of the European States, its introduction into the most of the European States, its introduction into the most of the European States, its introduction into the most of the European States, its introduction into the Indian States was intended more especially for those of our fathertand scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuess use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
