TOBACCO CHEWERS. DE GUSTAV LINNARD'S TASTA RESTORATIVE TRO-Cites, the great Substitute for Tobacco.

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most se-

MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain norcotic and poisonous properties most dangerous in their effects, which by entering into the blood orange the functions and operations of the Heart, causing nany to suppose that organ to be seriously diseased.

TOBACOO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious, weed will bear testimony—in Lassitude, Nervous Trritability, Water Brash, Dyspepais, and many other disorders of a similar character.
THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accom-panying tickling sensation of the Threat—which are always consequent upon abstraining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and and unplease ant habit of Tobacco Chewing.

These Troches of Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A lib-
