And the various affections consequent upon a disorders

And the various affections consequent upon a disordered STOMACH OR LIVER, Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Coativenses, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in nunerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave: Because of its great success in the most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this nighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Gene-

constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Gene-rally instantaneous in effect, it finds its way directly to the scat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new heatts and vigor in the system. CAUTION.—The great popularity of this delightful Are-ma has induced many initations, which the public should guard against purchasing. We not persuaded to buy any-thing else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these initations.
