Terrible Railroad Accident.

It was with feelings of the deepest re gret that we read the following account of melancholly accident, near Halifax, on the Northern Central R. R. which we found in the Harrisburg Telegraph of Monday evening last. With Dr. Wright, the victim in the disaster, we were at one time intimately acquainted, he having been our (the senior's) preceptor for a considorable length of time, in our school-boydays, and we always entertained for him the highest respect. The Dr. was a native of Juniata county. He studied medicine with Dr. Philo Hamlin in Mifflintown, and after attending a regular course of lectures, located at Halifax, in Dauphin county, where he has since resided. He was entirely a self-made man, having risen from obscurity, and worked his way, by indomnitable energy and perseverance, to

the position he occupied at his death.-His popularity in the county of his adoption may be inferred from the fact that he was elected to the Legislature in a few years after his settlement therin. The following is the Telegraph's account of the accident:
