Mount Vernon Ladies' Association.

Who is there among us that does not take an interest in preserving the name of Washington, and in handing it down to posterity as the "Father of his Country." the wise and just patriot, statesman and philanthropist. We feel sure no one could be found to say, he or she did not. We are lod to write the above from having read the beautiful and touching appeal to the ""Patriotic Ladies and Gentlemen of Blair County," by Mrs. Delia R. Banks, of Hollidaysburg, published in another column, who has kindly taken upon herself the task of acting as "Lady Manager" of the "Mount Vernon Ladies Association of the Union," for this county. Mrs. Banks has requested a number of ladies in the county

papers claiming all the late victories achieved over the Democracy, as Republi-

can victories. This may suit their ideas of matters, but we think it will not meet the views of all those who have assisted in gaining these victories. If we mistake not, there is an American element, worth taking into account, in those States wherein the victories have been attained, which, while it agrees with the Republican element on the Lecompton issue, is nevertheless different therefrom in many essential particulars. To claim the victories therefore as exclusive Republican victories is manifestly incorrect, and may work to the detriment of the Peoples' Party, that being the banner under which, in reality, the victories have been secured. A generous acknowledgement of assistance ren-non Estate, including the mansion where Wash-dered would be of mure advantage to the ington dwelt and died, his tomb, the garden and

HARRISBURG, April 12th, 1859. At the time I close, but one day and a half smains of the session of 1859, and both Houses are engaged in legislating at Rail Road time; bills going through like rafts, through a schute. This hasty way of doing business is sometimes productive of a considerable amount of evil. which only becomes apparent some time after the adjournment.

The great Fry divorce case has " collapsed." It fell like a lump of lead, and must have been worse than an unexpected shower-bath upon those who were so confident that they could engineer it through. On Saturday the bill came up in the House on the private calendar, when the House refused to prepare it for a second reading, by a vote of 72 to 8. This still does not kill the bill outright, but it is equivalent to C635. a death-blow, for it is not at all likely that it will be re-considered, even if a vote be had upon it. In the early part of the session it might have passed, but the delay was fatal to the bill, for time worked a terrible revolution, and a current of public sympathy set in in behalf of Mr. Fry a week ago, which neither love nor money could stem.

The bill allowing Justices of the Peace, with s jury of five, to decide certain cases, is among sylvania that, with unexampled modesty, and the few which I have watched with a good deal touching expressions of anxious but devoted to act with her as Solicitors, in the several of interest, but I regret to say that it has been army, scarcely formed, and resumed the respontowns and townships, and desires their doomed in the Senate. No matter-if they are not all destroyed this season, we shall probably have another chance next fall. The bill to regulate the Insurance Companies of the oities of Pittsburgh and Philadelphia, surance companies the city which should be crushed out by the heavy hand of the law, but this is not the kind of a law to do it. The Huntingdon County Bank went down in although I knew its passage was to be urged by Senator Schell. But in case it had slipped through, its fate would unquestionably have Leen sealed by the Executive. At the time I write, the House has got thro' with its business, and has adjourned until 8 show your patriotism, generosity and gal- o'clock this evening, to take action on anything that may be required by the action of the Senate, which is still in session, and considerably behind.

## We notice a few ultra Republican Appeal to the People of Pennsylvania, for the Purchase of Mount Vernon.

Chosen to represent, in this State, the Mount Vernon Ladies' Association of the Union, I venture to appeal to the generous and patriotic people of Pennsylvania on this day, the anniversary of the birth of Washington, for their aid in mison with the people of other States, to complete the purchase of Mount Vernon, the place of his residence and tomb ; and to secure forever as a public and enduring monument of their unabated gratitude for his life-long sertheir allegations of innocence, were clearly pro vices, and increasing veneration for his illustrious name. Gratitude to one whose life was so generous and exalted; veneration of an example, ous outlaws of the worst stamp. Henry Gamsuch as his, of virtues that have so elevated the character of a public man, may well enlist the despest sympathies of the women of America, and embolden them to elsim the aid, not of their own sex alone, but of every one who justly glories in being a countryman of Washington, and whose heart is moved by actions the purest and noblest that man can render to mankind. The object of the Mount Vernon Ladies' Association is to obtain, by voluntary contributions, a sum necessary to purchase and hold forever, two hundred sores of the Mount Vergrounds around them, and the landing at the Potomac by which they are approached. To collect this sum, Vice-Regents have been appointed in different States, with lady-managers, ssociated communities of ladies, and advisatory

committees of gentlemen, in the various counties, cities, and principal towns. Every person by whom one dollar, toward this fund, is paid, becomes thereby a permanent member of the Association, and is inscribed as such in a record which will be preserved at Mount Vernon. Similar arrangements will be immediately organized throughout the State of Pennsylvania, and a public announcement will be given of the persons by whom subscriptions will be received and the registry of names be made.

A large amount has been already collected from places where these arrangements have been completed. The public press, 'so influential in good works, has lent its powerful aid. Associations established for philanthropic purposes-the fraternity of Free Masons, to which Washington himself belonged; that of the Odd Fellows ; the voluntary military companies and firemen, and numerous bodies assembling together for objects of utility and benevolence, have everywhere exhibited the deepest interest and united in this noble effort with the most liberal spirit. Patriotic individuals have come forward, with prempt sympathy, to lead and encourage the several communities; and the cheering prospect is held out that this wide-pervading spirit, spreading through all parts of our common country, is insuring complete suc-

Having been solicited to act as " Lady Manager" of the "Mount Vernon Ladies' Association your prompt and generous co-operation, in the generosity we also rely, that with no State in the Union is the name and fame of Washington more closely or gloriously identified, than with Pennsylvania.
