LOCAL ITEMS. CITY COUNCIL OF CINCINNATI. - A short time duce the City Council of Philadelphia extended en invitation to the City Council of Cincinnati to risit the Quaker City, which invitation was acsented, and on Monday morning last, the party, numbering some ninety or one hundred persons. including a number of ladies, started on the where a grand supper was served up. They remained in the city until 4 o'clock on Tuesday over night and take a glimpse of the Alleghenies as they are seen from this point. Information of their intention to stop with us having been generally published throughout the town, arrangements were made to have Van Tries' Carnet Band of Hollidaysburg, and the Altoona Brass Band in readiness to receive them. Shortly previous to the hour for the arrival of the train, the Bands performed several airs in front of the "Logan House," which soon collected a a large crowd of people to hail the guests .-Osing to the heavy load of passengers, there being some 260 on board, the train did not reach this place until a few minutes before 10 o'clock. After the arrival of the train, the Bands continued to play, alternately, for half or threequarters of an hour, until the guests had been seated to partake of an excellent supper prenared for them by those prince of landlords. Messrs. Miller & Rowe, of the "Logan House." 4 fine collation was also served up to the Bands and a few invited guests. Supper over, a few nirs were performed by the Bands, when Van Tries' Band took passage for home on a special train provided for that purpose.

At 5 o'clock next morning, a special train was fitted up for an excursion trip to Gallitzin, to cuable all who wished to obtain a sight, in daylight, of the most grand and picturesque sceneries to be found in the country. The greater portion of the party, we think, availed themselves of this courtesy extended by the Penn'a R. R. Co., and they certainly did not regret it. The morning was clear and pleasant, affording a fine opportunity to view the scenery without being discomfitted by heat or cold. The train was stopped at a couple of important points on the route, and the passengers allowed to get out and view the country. All expressed themselves highly delighted with the trip and what they had seen, and we may expect grand accounts of it from a couple of the Cincinnati ediother improvements of the town, which they may be plainly seen. pronounced extensive and handsome. At 8 o'clock the excursionists' took passage on the Mail Train, on which they proceeded through to Philadelphia, arriving there at 6 o'clock in the evening. If we may judge from numerous exenjoyed their sojourn in this place exceedingly, and we have no doubt that they will long remember the cordial welcome extended them and the efforts put forth to render their stay agreeable. We doubt whether they will be more agreeably entertained during their trip.

New Arrangement. On and after Monday next, the Branch Train between this place and Hollidaysburg will make three trips a day instead of two, as now. The first trip will be made in the morning as at present. The second train vill leave Hollidaysburg at 10.10 A. WARD'S PATENT, On the 21st of June last, simplicity, ready adaptation to all cars now used by the various railway companies, and its real merits, must secure its adoption by most of the railroad companies in the country. We can not go into a general description of the patent and the advantages it possesses over all others of the kind ever yet invented, but may notice that it is no complicated contrivance, is easily understood trip. They arrived in Pittsburgh on Monday by all familiar with car building, and needs only night at 9 o'clock, and were received by a com- to be seen to be appreciated. It gives strenth mittee and escorted to the Monongahela House to the car sills and body, because no tenoning or mortising is required; consequently its application to old or new cars adds to their efficacy. afternoon, when they embarked on the Fast Line, The application of the patent to old cars is very for this place, at which they were invited to stop easy and the expense small when compared with the increased amount of service the car will thereby be enabled to perform. It is not only a saving in the wear and tear of the car bodies, but is less destructive to the road bed, and has been demonstrated to be a saving of at least 20 per cent. in locomotive power. This latter quality would alone be sufficient to recommend it, if it had no others. From the numerous letters Mr. W. has received from railway men. acknowledging the merits of his improvement, we think it will be universally adopted by railroad companies everywhere. We should be pleased to see Mr. Ward handsomely rewarded for this evidence of his skill and ingenuity.

TEMPERANCE MASS MEETING .- On Wednesday last, the Grand Division of the Sons of Temperance of this State, met in the Altoona Division Room: and in the evening a mass meeting was held in the Methodist E Church. Wm. Nicholson, G. S., was first called upon to adabout an hour's length, abounding in sound ar- ring articles and getting it up. gument, apt illustrations, humorous anecdotes, cutting sarcasms, and great encouragement to the members of the order to persevere in the good work. The meeting was next addressed by Mr. Baker, of Philadelphia, who directed his remarks more particularly to the young and the duty of those having charge of children to instil into their minds principles of temperance. He related several incidents of the good effects of this early total abstinance education, which appeared to have their weight upon the audience. The closing remarks were made by H. K. Smith. G. W. P., who is a pleasing speaker, and his words are always to the point. We only regretted that the lateness of the hour prevented him from extending his address. What the effect of the numerous temperance addresses, with which we have lately been favored, will ultimately be, time alone can tell. SERENADE. Previous to the arrival of the Fast Line, on Tuesday evening last, Van Tries' Cornet Band honored several of our citizens our humble self (the Senior) among the numher, with a serenade, for which they have the thanks of all so honored. The Band is composed of excellent musicians and as clever a set of fellows as can be found this side of sun-down. A FORGER CAUGHT. We find the following Mr. A. Ward, of this place, General Foreman of item in last Saturday's issue of the Harrisburg in another column, it will be seen that we are body was conveyed to the Presbyterian Grave of our citizens, but he does not belong here;-

Charles Watson, said to hail from Altoons but had been living at the United States Hotel for the past three months, was apprehended early this morning at his boarding house, Mrs. Updegroves, by officer Beeker, on a warrant John Brady, and William Keneagy, to orders on Dr. Patterson and Miss Wilson, by which he obtained various goods from their respective stores. On meeting Dr. Patterson this morn-selves. ing he acknowledge his guilt and appeared to be penitent. The boarding house was subseuently searched and nearly all the articles were at once handed over by the wife of the prisoner who was entirely ignorant of the exploits of her husband. She had one dress made f the goods thus obtained, but on ascertaining these facts she refused to wear it and was glad to embrace the first opportunity of restoring them to their lawful owners. The wife is quite young, but recently married at Altoona, where her parents reside, wealthy and respectable. It appears she intends to leave him at once, havg been so grossly deceived by him, she refused to recognize him as her husband after the arrest on these charges.

EPISCOPAL CHURCH FAIR .- The ladies connected with the Episcopal Church, in this place, intend holding a Fair in the Library Room of the Altoona Mechanic's Library and Reading Room Association, to open on Tuesday, August 16th, and continue four days, the proceeds of which are to be applied to the liquidation of the debt incurred in the erection of their church. We have not yet seen any of the articles to be placed on exhibition and sale, but presume there are many nice ones, judging from the skillful fair hands engaged in getting them up. We hope to see the Fair liberally patronized by old and young, that the ladies may be suitably redress the meeting and responded in a speech of warded for the time and labor spent in prepa-

Boy Killed .- A correspondent of the Whig writing from Fredericksburg, in this county, states that on the afternoon of the 20th inst., whilst Mr. Geo. B. Dilling. of that vicinity, was ngaged in hauling in hay, he suffered his two little boys to ride the wheel horses while he and another man loaded the wagon. A clap of thunder broke forth suddenly from a small cloud overhead, frightening the horses and causing them to run off. The little feilow who was riding the off-wheel horse was soon thrown, and was so much injured that he expired in a few minutes after being picked up. The other boy remained on the saddle horse and was taken off unhurt when the team was stopped in the

Horse Stolen .- We learn from the Register

From the same paper we learn that the barm ting the machine shops of the Company, and formation will have been worked, and its fruits of Mr. Wm. > NEW WHEAT FLOUR.—The Steam Mill in this place is now turning out an excellent article of flour from new wheat. We have tried some of it manufactured from the common red wheat, and We noticed a large, almost life-size photograph find that it makes most excellent bread, although of Dr. Landis finished in oil, which would do not quite so fair as it will make when a little more dryed. A lot of new white wheat has just been received at the mil!, from which a superior quality of flour in now being manufactured .-The fact that the grain of this year will make much better flour, and consequently better bread, will be gratifying intelligence to the good women of the land who have been sorely perarranged for the inspection of the public, suffice | plexed of late on account of having bad bread.

COURT PROCEEDINGS .- We clip the following items of Court proceedings, from the Standard of this week :-

Com. vs. Otho Harlan-Indictment, poisoning horses. Verdict, guilty. Sentenced to pay a fine of \$5, costs of prosecution, and undergo an imprisonment in the county jail for the term of eighteen months.

Com. vs. Abraham Garaher-Indictment, horse stealing, Verdict, guilty. Sentenced to pay for eighteen and a half months.

BEANT'S ROW .- The new buildings put up on Brant's lot are now completed, but they are no ornament to the town. On the contrary, they evidence a want of taste, in not suitably improving this, one of the best lots in town, with a good building, the income from which would certainly be equal to that derived from the present unsightly shed row. We hope that t will soon fall into the hands of some of our enterprising citizens, who will remove the present tenements and erect a building which will correspond with those now going up in the immediate vicinity.

MARBLE YAND .- A visit to the marble-yard of Messrs. Freeman & Hoover, Hollidaysburg, will be sufficient to convince any person that their work can not be excelled in the country. We examined a number of specimens, a few days since, and consider the design and finish appropriate and beautiful. Besides doing up their work in a creditable manner, they are present. clever and obliging gentlemen, with whom there is no trouble in dealing.

For our part we must confess that we find no pleasure in viewing such malformations of the human body although we have no doubt the unfortunate man may make a handsome thing out of it by giving these exhibitions. He has been liberally patronized.

I. O. or R. M. Pic Nic.—The pic nic excursion of Winnebago Tribe I. O. of R. M., to Spruck Creek, on Wednesday of last week, was a grand affair. Two full car loads were in attendance from this place, and they were joined by quite a number on the way and at the place of destination. The day was pleasant and everything passed off harmoniously. Van Tries' Band accompanied the party and "blowed out" muisc in its usual excellent style. The dinner at Col. Haslett's Keystone Hotel is complimented in the highest terms.

Annual Jubiles. -On Monday last the colored folks of Hollidaysburg held a jubilee somewhere in the neighborhood of that town, in commemoration of the emmancipation of the slaves from the West Indies. Two wagon loads left this place on the morning of that day to join in the festivities of the occasion. Their horses and wagons were decorated with numerof July. We presume they had a happy time.
