Bead the following Cartificates to the Efficacy of this Med-icine in Inflammatory Discusse.

a for the last twelve years I have been more or less orbited with Inflammatory Rheumatica. troubled with Inflammatory Rheumatism, commencing early in the Spring, and lasting until cold weather set in, when I would be relieved for a while, only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, agas, and hands troubled me most, so much so that I could scarcely walk, and almost always required assistance in dressing. During this time I would try everything I could hear of, in the hope, of finding a cure. I also tried several physicians, but nothing seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and finally had to give up and stay in the house, where I was confined about four weeks. This time my feet swelled, and were so sore that I could not stand on them or get on my boots, and my hands swelled to twice their usual size. In fact, I was, to all appearances and belief, totally used up. About this time my parents, who reside in Maine, sent for me to come home. I went and after my arrival I sent for me to come home. I went and after my arrival I commenced trying another remedy, hoping to be cured, but resulting the same as all others. For weeks I had not been able to dress myself or to raise my hand to my head, and suffering the most excruciating pain all the time.—One day my father came in with a paper in which was advertised 'Dr. Coggswell's MEDICAL SALT, for Inflammatory Diseases only, and wanted me to read and see what I vertised Dr. Coggswell's MEDICAL SALT, for Inflammatory Diseases only, and wanted me to read and see what I thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough. He kept urging me, and at last said I could but try it, and if I would write to Dr. C., giving him a description of my disease, he would pay the expense. Of course I could not refuse such an offer and sent for one box. It came in due season, but my faith was not increased, and I laughed at the idea of so small a dose doing me any good, and told my wife that I believed Dr. C. and his Salt, both humbugs.—However, I commenced using it and the result was per

wife that I believed Dr. C. and his Salt, both humbugs.—However, I commenced using it and the result was per fectly astonishing. I could hardly realise it myself. I slept soundly all night, which I had not done for a long time, and when I awoke in the morning, strange as it may seem, I was entirely free from pain. I had then taken but one dose, and bathed freely before going to bed. That morning I felt so well that I hardly knew how to contain myself, and went down stairs and told the folks how well I felt, and from that day to this I have not suffered one moment's pain or had an attack of my once dreaded enemy, Rheumatism. I am perfectly well and hearty, and wherever I have a chance I recommend it. A friend of mine, residing in Brooklyn, is now trying it for a bad case of neusiding in Brooklyn, is now trying it for a bad case of neu-ralgic rheumatism, and so far it is working admirably.— This is a long story, but I have told all the facts, which I can bring witnesses to substantiate if necessary; and will again say that in the MEDICAL SALT, a sure cure may be found for all inflammatory diseases, and would urge all found for all inflammatory diseases, and would urge all who are afflicted to give it a trial. GEO. H. DUNCAN, No. 117 Wall Street, New York.
When it is remembered that the MEDICAL SALT is as efficacious in all other Inflammatory diseases as in Rheu-matism, (see descriptive circulars) it will at once be seen that it is a most valuable remedy. Surely those thus af-flicted will find in their own condition and in the above statements, enough to induce them to give the MEDICAL

NEW AGRICULTURAL SETTLE MENT.—To all sounting Farms, a rare opportund in a delightful and healthy climate 25 miles Southeast Philadelphia on the Camden and Atlantic Ratirson Ne

An old estate consisting of several thousands of acres of productive soft has been divided into Farms of various sizes when I would be relieved for a while, only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, augus, and hands troubled me most, so much so that I could scarcely walk, and almost always required assistance in dressing. During this time I would try everything I could hear of, in the hope, of finding a cure. I also tried several physicians, but nothing seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land Juagment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred housis have been erected, two mills, one steam, four stores, some forty vinyards and Peach orchards, planted, and a large number of other improvements making the and a large number of other improvements, making it is able and active place of business.

THE MARKET,

as the reader may perceive from its location, is the BEST IN THE UNION. Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and annually exported to the extent of millious.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and citations is at hand. He can buy every or ticle he wants at the chenpest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where severs are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excel-

lent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every ar-ticle can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages there presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land ander cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neigh-horhood; they will witness the improvements and can horhood; they will witness the improvements and car-judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three THE TOWN OF HAMMONTON.
