Dr. C. J. Hirst Dean.—It is with feelings of deep sorrow that we this week record the death of our late and esteemed fellow townsman, Dr. C. J. Hirst, which occurred on Thursday morning last at Galeburg, Illinois.

Dr. C. J. Hirst, which occurred on Thursday morning last at Galeburg, Illinois, to which place he removed about the middle of June last. He was attacked with bilious fever shortly after his arrival at Galeburg, from which he never recovered, although at times he was able to be up and move from thence to Monmouth, 16 miles distant, and back. It was reported in this place, some few weeks since, that he was dead, but because we had no foundation for the report, we did not notice it, believing it false; but the letter received on Monday morning, from his brother, Rev. Wm. Hirst, leaves no room for doubt, destroys our hopes and confirms the fears we had that such would eventually be the case. In his death his estimable wife loses one who was to her a husband in every sense of the word, and no higher tribute to his memory in this respect could be paid; his relatives a kind and affectionate companion, and the community an example of perseverance, integrity, liberality, humanity, morality and all that adorn a man and make him a useful member of society. His relatives in this hour of their bereavement will have the sympathy of all who enjoyed the pleasure of his acquaintance, as his demise is universally coupled with expressions of sorrow. In the midst of their affliction his friends can console themselves with the reflection that he had made suitable preparation for the change which sooner or later awaited him, and that ere long, if they too are provident as he, they shall meet him where sickness never comes, where death is no longer feared, where the pain of parting is never felt, and sorrow is unknown.

Summer Ended.—The summer of fifty-nine is past and gone forever and we have entered upon the delightful season of the "ere and yellow" leaves. The harvest is past—the summer is over—the leaves of variegated hue are already making their appearance on the forest trees—and soon the voice of the "Katydid" and the light of the glow-worm will usher in the Autumnal evenings. How short the time seems since Spring was with us, so swiftly do the seasons pass! The years of human life have very truly been compared to the degrees of longitude which shorten as we approach the pole. The ardent youth thinks the years of fearful length until he attains maturity—then they seem shorter, and increase with every subsequent period of life's journey until he exclaims, with Job, "My days are swifter than a weaver's shuttle." Autumn is the most delightful season; teeming with the fruition of the year—the harvests are gathered, the fruits are ripe, and plenty abounds. It infuses a soothing and tranquillizing influence over the mind, and disposes to contemplation and gratitude.

CITIZENS' ENGINE AND HOSE COMPANY.—The seal with which the members of this company have entered into the spirit of their work, deserves success, and if we do not have a good fire company and a good engine, it will not be the fault of those engaged in the work, but may be attributed to the short-sightedness of the property-holders of the town. The Committee appointed by the company to receive subscriptions and money for the purpose of purchasing an engine and a quantity of hose, desire that all subscribers should pay up previous to the 12th of September; and we sincerely hope the response will be instantaneous and liberal. It seems to us useless that we should here recount the advantages of having a good fire engine and company in this place, as we presume all are aware of them; therefore we will only add that now is the time to aid in securing what the nature of the building and the good sense of the people tell them that the town demands, viz: a means of protection in case of fire.

THE ENCAMPMENT.—From the extensive preparations now being made, and the number of companies from a distance that have signified their intention to participate therein, we believe that the encampment to be held at Tyrone, commencing on Monday week, 19th of September, will be one of the largest and best ever held in the interior of the State. There are 11 companies in this county, all of whom will be on hand, together with some 10 or 12 companies from Cambria, Clearfield and Centre. It is also expected that Capt. Hambricht's company, from Lancaster, and the Duquesne Grays, of Pittsburgh, will visit the Encampment. Arrangements are now being made with an amount of Lebanon, John A. Light, to have a balloon ascension on Thursday afternoon. This will add materially to the attractions of the programme. The ground selected for the encampment is well adapted to the purpose, and has been suitably prepared. The citizens of Tyrone are taking great interest in the affair, evincing that they are a public-spirited people. We hope their expectations will be fully realized.

TOBACCO FOR BOYS.—A strong writer administers a wholesome dose to the boy chasers and smokers, assuring them that tobacco has spoiled and utterly ruined thousands of boys, inducing a dangerous proclivity, developing the passions, softening and weakening the bones, and greatly injuring the spinal marrow, the brain, and the whole nervous fluid. A boy who early and frequently smokes, or in any way uses large quantities of tobacco, never is known to make a man of much energy of character, and generally lacks physical and muscular, as well as mental energy. We would particularly warn boys who want to be anybody in the world, to shun tobacco as a most baneful poison.

CAMP MEETING.—The colored folks of this county will hold a Camp Meeting near Brush Run, a short distance from Hollidaysburg, commencing to-morrow (Friday). It will no doubt be well attended by whites as well as blacks. We have been requested to state that Geo. McCabe will be on hand with his gambles to run between this place and the camp during the convalescence.

NEW BOOK, STATIONERY AND PERIODICAL STORE.—A new store of the above description has been opened one door below the Post Office, in the upper room of Brant's Building, by Mr. J. Cameron, where may be had at all times, the latest daily papers together with all the popular weekly and monthly publications of the country. Also, school books of all kinds and stationery suitable for all purposes. Give the new establishment a call and examine for yourselves.—See advertisement.

VISITORS.—We acknowledge a visit from our respected contemporary of the Blairsville Record, James F. Campbell, Esq., who dropped into our office on Saturday last. James is a clever fellow, writes a good paper, and we hope makes plenty of money.

A SHAME!—Our post-master, on the 1st inst., opened the "Washington Monument Contribution Box" placed in his office on the 1st ultimo, and found the contents amounting to NINETY-NINE CENTS (99¢) deposited therein—averaging about one-fifth of a cent to each inhabitant of the town! "Oh! Shame! where is thy blush!" Oh! patriotism! where hast thou flown to! Oh! Washington! did thy glorious deeds die with thee?—Are we publishing a paper to enlighten the heathen—or are we talking to free-made citizens of Washington's Nation? We are really ashamed to publish the above disgraceful fact, but we beg our distant readers to exercise a little charity for our town—perhaps our people did not know there was a contribution box in the post-office—we hope they did not; and now that they have had due notice thereof, we hope to have a much better report to give of the patriotism of the citizenship of Altoona, at the end of next month. We shall see.

CONTEMPT OF COURT.—A man named Meloy, who was an important witness for the Commonwealth in several liquor cases which came up at last Court in this county, but who was not at the adjourned Court on the 24th ult., on attachment, and fined \$50 and costs, and ordered into the custody of the sheriff until the sentence be complied with. The Judge intimated that his straightened circumstances had led him to secure him a moderate punishment, but that a fine of three times that amount would be imposed in like cases in future. The Pittsburgh Chronicle in remarking on this case says:—"Judge Taylor is not a man to be trifled with, and if there were more courts like his in the State, there would be fewer rascals."

TRAVEL ON THE P. R. R.—For some time past the trains on the Penn'a Rail Road have been carrying a greatly increased number of passengers, rendering the addition of another car necessary. On Wednesday morning of last week there were eight cars in the Express Train West, and all crowded. The certainty of making connections, the safety and the excellent accommodations the Penn'a Central guarantees to travelers, is gradually drawing the travel from its rivals, none of whom can ever hope to successfully compete with it in any of these particulars. The traveler, who is not interested in the success of any of the rival lines, who once passes over the Penn'a Central will be sure to praise and patronize it over afterwards.

CHILD DROWNED.—On Friday afternoon last, a little boy, aged about two years, son of John Welsh, living on Branch street, East Altoona, wandered out of the house, while his mother was doing something up stairs, and went to a well in the yard, on which there was a loose board. As soon as the mother came down stairs and missed the child she made search for him, and discovering that the well-board had been shifted she rushed to the spot, only to find her fears realized. The child had fallen in and was drowned. The water being near the top of the well she reached in and pulled him out and gave the alarm to the neighbors, a number of whom came in immediately and endeavored to resuscitate the child, but it was too late—the vital spark had fled. Mr. Welsh is a brakeman on one of the freight trains on the Penn'a Railroad and was home at the time. An inquest was held by Coroner Fox and a verdict in accordance with the above returned.

BOYS IN TROUBLE.—On Sunday last, a number of boys of this place feloniously entered the orchard of Mr. Bell, residing over the hill, and carried away a quantity of apples. Excursions of this kind having become rather numerous, Mr. Bell concluded to enforce the law, and made provided for such cases, and make an example of the lads which would be a warning to others. Accordingly he had a warrant issued for their arrest, and placed in the hands of Constable Ely who succeeded in nabbing two of the boys on Monday evening and conveying them before Esquire Cherry, who imposed a fine on each and then let them off. The Constable has no doubt caught the others ere they are about to receive it.

OPENING OF THE SCHOOLS.—On Monday last the public schools in this place were opened under the supervision of the teachers heretofore announced. As a matter of course there was considerable confusion among the "young 'uns" in gathering up books, &c., and many cry faces were made as the command to "potter off" was issued by the parents. We can easily imagine the feelings of the juveniles who are thus deprived of the sports which they were enjoying during the holidays. Once we dreaded the words "school commences to-day," and would gladly have escaped to a land where there were no schools. Now, however, our only regret is that we did not gladly welcome the sound and make better use of our time; and so it will be with those who are now enjoying a privilege, the most to be prized on earth, that of obtaining a good education.

IT IS seldom that a drunk man is seen in our streets, consequently the boys consider it almost a treat to come across some unfortunate individual who has imbibed sufficiently to bring him within their reach to torment. Passing up street the other evening, we observed quite a crowd collected in the neighborhood of the R. R. ticket office, in the centre of which was a wretched looking being who had taken on such a heavy load of tangle-foot whiskey that he could not navigate, and the boys were enjoying the delectable sport of letting him "drap" heavily on his posterior at every opportunity. It was no doubt fun for the boys, but hard on the dilapidated individual's corduroys. Seriously, we could not but think that boys who would thus impose on an unfortunate man were as much deserving of a place in the "Look-Up" as he whom they tormented.

NEW BOOK, STATIONERY AND PERIODICAL STORE.—A new store of the above description has been opened one door below the Post Office, in the upper room of Brant's Building, by Mr. J. VISITORS.—We acknowledge a visit from our respected contemporary of the Blairsville Record, James F. Campbell, Esq., who dropped into our office on Saturday last. James is a clever fellow, writes a good paper, and we hope makes plenty of money.

ANOTHER BEAUTIFUL SIGHT.—On Thursday night last, between the hours of 12 and 4 o'clock, we are informed that a phenomenon, similar to that which we noticed under the head of the "Aurora Borealis" last week, only much brighter and more beautiful, was to be seen. The cause of these displays, if it may so style them, as yet remains unexplained, it, indeed, they ever can be. In their philosophy and astronomy will find their proper field for investigation. That they effect the temperature of the atmosphere is now fully demonstrated, hence we infer that electricity produces the phenomenon; and the wherefore of its assuming the appearance it has on the two occasions referred to, and its appearing at particular times, is to us, the mystery.

CONTEMPT OF COURT.—A man named Meloy, who was an important witness for the Commonwealth in several liquor cases which came up at last Court in this county, but who was not at the adjourned Court on the 24th ult., on attachment, and fined \$50 and costs, and ordered into the custody of the sheriff until the sentence be complied with.
