Thanksgiving in Pennsylvania. PENNSYLVANIA, SS.:

IN THE NAME AND BY THE AUTHORITY OF THE COMMONWEALTH OF PENNSYLVANIA.
WILLIAM F. PACKER,
Governor of the said Commonwealth.

Friedwichters:—The blessings vouchsafed by a kind Providence through the past year, demand our grateful recognition and sgaincall for the sacrifice of Thanksgiving and praise. Under the protection of a Government that secures to all equal rights, we have pursued, unmolested, the various avocations of life, with more than usual prosperity. The earth, under the labors of the husbandman, has yielded her increase, and our barns and storeman, has yielded her increase, and our harns and store houses are crowded with the fruits of the harvest. We have not only been preserved from the ravages of the postilence, but the past has been a year distinguished for health in our large cities and throughout all our rural districts. Our country has been preserved in peace. Our homes have been the abodes of tranquility; and blessings innumerable have clustered around our domestic hearths. innumerable have clustered around our domestic hearths.
Our various schools and seminaries of learning are diffusing throughout our community a higher intelligence, and imparting to our youth nobler aspirations. The institutions of our holy religion are well sustained; and under its pure and genial influence, the spirit of unity and love, the carnest of yet better days, is most happily developed. To God, the Great and the good, we are indebted for all, and to-Hini let praise be rendered.

With these soutiments, and in accordance with the known wishes of many of my fellow-citizens, I, William F. Packer, Governor of the Commonwealth of Penrsylvania, do here

times of many of my leftow-criticens, I, william F. MINNESOTA.—We have returns from thirty-two counties, which show a majority for Gov. Ramsey, of nearly four thousand and a Republican gain over the last Guhernatorial election of over three thousand. The remaining counties to hear from will probably increase Ramsey's majority.-The Senate stands twenty-two Republicans to fourteen Democrats, and the majority on joint ballot will be about forty. Minnesota elects a United States Senator next winter, in the place of Gen. Shields, and it is said the choice of the Legislature will fall upon Gov. Ramsey.

We notice a number of the Opposition papers of the State recommending Hon. Andrew Gregg, of Centre county, as a suitable man to fill the Speaker's chair in the Senate next winter. No man in the ranks of the Opposition deserve better at the hands of his party than Col. Gregg, and he is certainly well qualified to fill the office. We believe he received the unanimous vote of his party for retiring Speaker last spring, and the Senate will have a faithful and impartial officer should be receive a like support this

Godey's Lady's Book for November is a rich production, abounding in all that ly ill for some weeks past, at his residence in could fascinate or please the ladies. Every lady subscriber to the Book of the country expects largely of Godey, and he never disappoints them. On the contrary he pleases them far better than they could please themselves, and they admit the fact. Life Insurance.

There is no one thing in proportion to its imortance that is more undervalued than Life nsurance. The following example of an emient man is worthy of imitation.

It is announced that the late Hon. Rufus Choate had an insurance on his life to the amount of twenty-five thousand dollars. This is a new proof of the sagacity and foresight of that eminent man, and a fresh illustration of the excellence of the life insurance system. -His estate may be ample for the support of his amily in independence, but to guard agains contingencies and misfortunes, he had secured for them a fund sufficient for their support even if his estate should have turned out insolvent. Life insurance is an investment made for the future benefit of those who may be dependent on us: an investment that cannot be iffected by misfortunes and embarrassments, but remains to secure to those nearest and dearest to us. No man with a family should reglect to have his life insured for their benefit. t adds greatly to one's comfort to know that he as secured something for his wife and children in case of death. - Commercial Bulletin.

In our advertising columns will be found the card of the American Life Insurance and Trust Company of Philadelphia, the following notice of which, in connection We notice by the last number of with one of a similar kind in New York,

> The The New York Life Insurance Company Agency in this city has continued for nearly ten sident among us. The Semi-Annual statement of this company to 1st of July, shows a solid capital of \$1,667,513 63, its earnings for the half year being \$235,559 51 and its losses, paid

> during same time, \$114,600. The American Life Insurance and Trust Company of Philadelphia has an equally fair record; possessing probably as large if not larger cap tal, in proportion to its risks, than any other similar institution in our country. Its affairs are also most carefully conducted and, as is well known in this city, its losses are promptly paid. It also has its local board, composed of gentlemen whose names give ample guaranty of its excellence. We hope to see an increased attention to this important subject generally; and we cannot conceive how a congregation can do a more acceptable service to a pastor and his family, than by a policy on his life, assuring them of a provision after his decease. Indeed in benefitting their pastor, they will benefit themselves, by the very relief from depressing care which they thus afford. He will be more free to serve them with all his powers.

We would respectfully suggest to our cotempo-

Southern States generally, that such a course is

both unjust and impolisic in the highest degree.

While we have no desire to annoy our fellow

that of implicating them by wholesale in the

per's Ferry, by the additional telegraphic dispatches and the parratives of newspaper peporters. In summing up and commenting upon the additional facts thus brought to light, the New York Commercial Advertiser says, "they entirely denude the tragical affair of all political character and of all sectional or geographical complexion. It is true lifet one of the reporters makes the insage promoter of it say that he had a large organization many accomplices at the North expected help from other quarters so soon as he made a demonstration, with other remarks of somewhat similar import. It is also reported that letters and a check for \$1000 from Cerrit Smith were found upon Brown, all of which may be true, (though not yet in evidence beyond an irresponsible report,) without at all implicating Mr. Smith in the present act of treasonable wickedness. There is no doubt that Gerrit Smith was in correspondence with Brown while the latter was in Kansas, and he has never made any secret that he had contributed money, even to the purchasing of rifles for the party with whom Brown was there connected. It is by no means improbable, therefore, that documents in Mr. Smith's handwriting were found in Brown's possession. The reporter had only to omit the date of such documents—to suppress a part of the truth—to make the impression upon the public mind that Mr. Smith was in present complicity with demented Brown in his horrible scheme. We have little doubt that it will ultimately appear that the dates of all those documents were contemporaneous with the disturbances in Kansas, and that they have no bearing whatever upon the presnet melancholly affair of Harper's Ferry. At the same time we know of no political party that can be justly held responsible for the peculiar idiosyncracies of the Hon. Gerrit Smith. Assuredly there has long been an established mutual repudiation between him and the Republicans, and with no pretence of justice can they be held resposible for anything he may say or do in connection van slavery or against the Union or Constitution. On this question of the complicity of any political party with Brown, the statement of the man himself, when supposed to be dying, is entitled to as much consideration and credit as anything from the lips of such a man can be.-

The cost will be between seven and eight millions of dollars. The number of men employed upon it now is 3000, with 6 steamboats, 72 barges, and also several smaller craft. 142 horses, and 4 locomotives. The amount of wages daily is \$5000. > WHEN ARE THEY THE PRETTIEST .- " A wife looks prettier, if she did but know it, in her neat, morning dress of calico, than in any incongruous pile of finery, which she dignifies with the title of full dress. Many an unmarried female first wins the heart of her future husband in some simple, unpretending attire, if consulted about which she would pronounce too cheap except for ordinary wear, but which by its accidental suitability to her figure, face and carriage, idealizes her youth wonderfully. If the sex would study taste in dress more, and care less for dostliness, they would have no reason to regret it." A man may not only "take his own life." by writing his Autobiography, without committing felo de se, but may carry himself into future time, by producing a book which the world will not willingly let die, This is what Mr. Robert Houdin, the great artist in what is called Conjuring, has lately done in the remarkable book-Confidences d'un Prestignteur, a faithful translation of which is here presented to the American reading public. From the extent they are entering into the business, a supply of pure and unadulterated wines may soon be expected. They who have raised crops at Hammonton representthat the soil is very productive.
