WHAT IT WOULD TAKE TO FEED THE SUN .--- A philosopher has calculated that the amount of light which flows from the solar orb could be scarcely produced by the daily combustion of two hundred globes of tallow, each equal to the earth in mignitude. A sphere of combustible matter, eatliest symptoms of dispased Liver, it can be safely and much larger than the sun itself, would be consumed every ten years in mantaining its wonderful brilliancy. It

would be a splendid sight to see an immense transparancy Celebrated Liver Pills, manufactured by Fleming Bros. of illuminated by means of one of these tallow globes, and Pitteburgh, Pa There are other Pills purporting to be having written upon it, "Buy all your garments at the Brown Stone Clething Hall of Rockhill & Wilson, Nos.
