## HOSTETTER'S STEMACH BITTERS.

Is is a fact that, at some period, every member of the human family is subject to disease er disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired bject, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach. bowelsand liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great

preparation in the scale of medical science. FEVER AND AGUE. - This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nauses nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetten's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph

signature is on the label. Frepared and sold by HOSTETTER& SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany,

DR. COGGSWELL'S NEW MEDI-

CAL SALT.

Read the following Certificates to the Efficacy of this Medicine the Inflammatory Diseases.

"For the last twelve years I have been more or less troubled with Inflammatory Rheumatism, commencing early in the Spring, and lasting until cold weather set in, when I would be relieved for a while, only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, arms, and hands troubled me most, so much so that I could scarcely walk, and almost always required asshoulders, arms, and mains troubled me most, so much so that I could scarcely walk, and almost always required as-sistance in dressing. During this time I would try every-thing I could hear of, in the hope of finding a cure. I also tried several physicians, but nothing seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and finally had to give up and stay in the house, where I was contined about four weeks. This time my feet swelled, and were so sore that I could not stand on them or get on my boots, and my hands swelled to twice their usual size. my boots, and my hands swelled to twice their usual size. In fact, I was, to all appearances and belief, totally used up. About this time my parents, who reside in Maine, sent for me to come home. I went and after my arrival I commenced trying another remedy, hoping to be cured, but resulting the same as all others. For weeks I had not been able to dress myself or to raise my hand to my head. een able to drees myself or to raise my hand to my head, been able to drees myself or to raise my hand tomy need, and suffering the most excruciating pain all the time.—
One day my father came in with a paper in which was advertised Dr. Coggswell's MEDICAL SALT, for Inflammatory Diseases only, and wanted me to read and see what I thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough.

thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough. He kept urging me, and at last said I could but try it, and if I would write to Dr. C., giving him a description of my disease, he would pay the expense. Of course I could not refuse such an offer and sent for one box. It came in due season, but my faith was not increased, and I laughed at the idea of so small a dose doing me any good, and told my wife that I believed Dr. C. and his Sait, both humbugs.—However, I commenced using it and the result was per feetly astonishing. I could hardly realize it myself. I slept soundly all night, which I had not done for a long time, and when I awoke in the morning, strange as it may seem, I was entirely free from pain. I had then taken but one dose, and bathed freely before going to bed. That morning I felt so well that I hardly knew how to contain myself, and went down stairs and told the folks how well I felt, and from that day to this I have not suffered one moment's pain or had an attack of my once dreaded enemy, Kheumatism. I am perfectly well and learty, and wherever I have a chance I recommend it. A friend of mine, residing in Brooklyn, is now trying it for a bad case of neuralgic rheumatism, and so far it is working admirably.—This is a long story, but I have told all the facts, which I can bring witnesses to substantiate if necessary; and will again say that in the MEDICAL SALT, a sure cure may be found for all inflammatory diseases, and would urge all who are afflicted to give it a trial. GEO. H. DUNCAN,

No. 117 Wall Street, New York.

When it is remembered that he MEDICAL SALT is as efficacious in all other Inflammatory diseases as in Rheunatism, (see descriptive circulars) it will at once be zeen that it is a most valuable remedy. Surely those thus afflicted will find in their own condition and in the above statements, enough to induce them to give the MEDICAL SALT a trial.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various aloes to suit the purchaser. A population of some Fiften first-dired, from various parts of the Middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sam of from \$15 to \$20 per acre, the soil is of the heat quality for the resistance of Whent Closer. Or as the best quality for the production of Wheat, Clover, Core, Peaches, Grapes and Venetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perectly secure from frosts—the destructive enemy of the far-mer. Crops of grain, grass and fruit are now growing and mer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred hauses have been erected, two mills, one steam, four stores, some forty vinjurels and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the HEST IN THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few bours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and cialization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excelthe north, has generally been to restore them to an excel-lent state of health.

ent state of health. In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages there presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neigh-horhood; they will, witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.
