## HOSTETTER'S MACH BITTERS.

Is is a fast that, at some period, every mem-ber of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to ninte the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and Mie. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhosa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HÖSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible ? All nations have their Bitters, as a proventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great

proparation in the scale of medical science. FEVER AND AGUE .--- This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of dict or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the pro-

duction of a thorough and permanent cure. For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be 'tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the shild consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladics should by all means try this remedy for all cases of debility, and, before so doing

DH. COGOSWELL'S NEW MEDI-

Bent the following Certificates to the Efficacy of this Mod-tions in Antoninatory Discuss. New the Mat Incide years I have been more or less troubled with Inflammatory Rheamatism, commencing "for the two transported for a while only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, when the spring, all my joints would swell and be very sore, attended with the most acute pain. My feet, should are set to be attacked and the sould should be attacked again in the spring. All my joints would swell and be again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, arms, and hands troubléd me most, so much so that I could scarcely walk, and almost always required as-sistance in dreasing. During this time I would try every-thing I could hear of, in the hope of finding a cure. I also tried several physicians, but nolling seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and finally had to give up and stay in the house, where I was coafined about four weeks. This time my feat swelled, and were so sore that I could not stand on them or get on my boots, and my hands swelled to twice their usual size. In fact, I was, to all appearances and belief, totally used In fact, I was, to all appearances and belief, totally used in actor trying another remedy, hoping to be cured, but resulting the same as all others. For weeks I had not been able to drees myself or to raise my hand to my head, and wiftering the most extruciating pain all the time.— Mone day my father came in with a paper in which was ad-vertised Dr. Coggswell's MEDICAL SALT, for Inflamma-tory Diseases only, and wanted me to read and see what I thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough. He kept urging me, and at last said I could but ry it, and if I would write to Dr. C, giving hima a description of my disease, he would pay the expense. Of course I could not refuse such an offer and sent for one box. It came in due seeson, but my faith was net increased, and I laughed at the idea of so smail a forse doing me any good, and told my

wife that I believed Dr. C. and his Salt. both humbugs.-However, I commenced using it and the result was per factly astonishing. I could hardly realize it myself. I slept soundly all night, which I had not done for a long time, and when I awoke in the morning, strange as it may seem, I was entirely free from pain. I had then taken but one d.se, and bathed freely before going to bed. That morning I felt so well that I hardly knew how to contain myself, and went down stairs and told the folks how well I felt, and from that day to this I have not suffered one moment's nain or had an attack of my once dreaded enemy, moment's pain or had an attack of my once dreaded enemy, Rheumatism. I am perfectly well and hearty, and wherev-er I have a chance I recommend it. A friend of mine, residing in Brooklyn, is now trying it for a bad case of neu-ralgic rheumatism, and so far it is working admirably.-raigic rheumatism, and so far it is working admirably.— This is a long story, but I have told all the facts, which I can bring witnesses to substantiate if necessary; and will again say that in the MEDICAL SALT, a sure cure may be found for all inflammatory diseases, and would urge all who are afflicted to give it a trial. GEO. H. DUNCAN, No. 117 Wall Streat. New York.

When it is remembered that the MEDICAL SALT is as when it is remembered that the DEDIGAL SALT is as efficacions in all other Inflammatory diseases as in Rheu-matism, (see descriptive circulars) it will at once be seen that it is a most valuable remedy. Surely those thus af-flicted will find in their own condition and in the above statements, enough to induce them to give the MEDICAL SALT a trial.

MARIA L. DE PEYSTER MEMO-TEW AGRICULTURAL SETTLE-RIAL SCHOOL .-. This institution, which is located MENT.-To all wonting Farms, a rare opportunity a delightful and healthy climate in miles Southeast of hiladelphia, on the Camden and Allantic Railroad New I V. B. RIAL SCHOOL. This national, which is located n Altoona, Blair County, Penn'a, will be opened on the 1st MONDAY in MAY. It is intended as a permanent School; and will connect with it a Male & Female Department. In the Main demant in Male & Female Department. In and will connect with it a Male & Female Department. In the Male department, young men will be instructed with a view to their entering the allvamod classes of our best Colleges; or, if desired, their education completed. In the Female department, instruction will be given in any, or all of the different branches, either solid or ornamental, taught n our best Female Seminaries. The year will be divided into two Sessions of five months each—the Summer Session to commerce on the let Mon-An old estate consisting of several thousands of acres of

ive soil has been divided into Farms of various sizes productive soil has been divided into rains of which where to suit the purchaser. A population of some Fifteen Hun-dred, from various parts of the Middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the heat Clover, form, the best quality for the production of Wheat, Clocer, Curn, Peaches, Graps and Fegetables. IT IS CONSIDERED THE day of May, ending on the last Wednesday of Septe Peaches, Gropes and Fegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is per-fectly secure from frosts-the destructive enemy of the farthe Winter Session to commence on the 1st Monday in No-vember, ending on the last Wednesday of March. The Sessions will be divided into two quarters of eleven weeks each Tarms nor quarter as follows wis: ner, Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct jndgmen#can be formed of the productiveness of the land. each. Terms, per quarter, as follows-viz.: The terms are made easy to secure the rapid improvement Primary (including Reading, Writing, Orthog-raphy, Arithmetic, Grammar, and Geography, &c.) \$4,00 Advanced (Including the Natural Sciences, Mathe-matics, Mental and Moral Philisophy, Logic, the Lanof the land, which is only sold for netual improvement. The result has been, that within the past year, some three hundred houses have been crected, two mills, one steam, four stores, some forty vinyards and Peach orchards, planted, guages and Composition &c.) and a large number of other improvements, making it a desirable and active place of business. THE MARKET,

## as the reader may perceive from its location, is the BEST IN THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New Eng-land and Middle States, he is near his oid friends and associations, he is in a settled country where every improvement of comfort and cigilization is at hand. He can buy every for the highest, (in the West this is reversed.) he has schools for his children, diring service, and will enjoy an open winter, and delightful climate, where fevers are ut-terly unknown. The result of the change upon those from the north, has generally been to restore them to an excel-lent state of scalth. In the way of building and improving, lumber can be

obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings

and improvements can be made cheaper. The reader will at once be struck with the advantages there presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and buless these statements were correct, no one would be invited to examine the land before pur-chasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their wan neighhorhood; they will vitages the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

## THE TOWN OF HAMMONTON

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents in-ducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton busi ners, and manufactories of agricultural implements or Founderies for casting small articles. The improvemen has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not seil smail ones, as it would effect the improvement of the place, can be had at from \$100 and upwards. The Hammonton Farmer, a monthly literary and agri-

cultural sheet, containing full information of Hammonton can be obtained at 2 cents per annum. Title indisputabk-warrantee deeds given, clear of al

Railroad, at  $7\frac{1}{2}$  A. M., or  $4\frac{1}{2}$  P.M. Fare So cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had letter stop with Mr. Byrnes, a princibelow them over the land in his carriage. Free of expense Letters and applications can be addressed to Landis  $\delta$ Byrnes, Hanmonton P. O., Atlantic Co., New Jersey, of S. B. Coughlin, 202 South Fifth Street, Philadelphia.-Maps and information cheerfully furnished.
