UNITED DELEGATION.—We notice that the Opposition papers of this State are now agitating the subject of the selection of delegates to the Chicago National Convention, some favoring their appointmont by the State Convention which meets on Wednesday next, and others demanding that they be selected by Congressional Conferences. In the event of the selection of the delegates by the State Convention, Pennsylvania will send a united delegation, while their selection by conferences would result in sending a divided delegation. We do not profess to be very well booked up in the politics of the present day, (nor does it much concern us as to who are the candidates of the different parties, further than that they be good men.) yet we can easily foresee the result to Pennsylvania, should her delegation be divided, as it might be, unless selected by the State Convention. It cannot reasonably be expected that the delegates of other States would support a man from Pennsylvania, for either office, should he not receive the united support of the delegates from his State. The only hope of Pennsylvania is in sending a united delegation, and the surest plan of securing such a delegation is to allow the State Convention

with suggestions for its improvement that may present themselves to the board, and generally such facts, observations and recommendations, as the said board may think necessary, to the due government of the said house of employment and support, and the improvement of the system of public relief to the poor, and particularly as it relates to and affects pauper lunatics; and the said report shall be published in the newspapers of the proper county, for public information, at the expense of the county.

fort is being made in certain quarters to secure the enactment of a law, by the present Legislature which, if passed, will be an advantage to the people in the payment of their State taxes. According to the present law, if the Revenue Commissioners fix the amount of State tax to be paid by a county, say at \$10,000, and the Assessors of the county should assess \$12.-000 State tax, the State will claim the 2,000 excess. The law proposed will give of President of the Pennsylvania Railroad Comthe State no more than the amount fixed by the Revenue Commissioners, and certainly that is all she is entitled to, the excess to go into the county fund, to he used for county purposes. It is impossible for the county assessors to assess an amount exactly equal to that fixed by the Revenue Commissioners as the quota to be paid by the county; sometimes it may be too high the deficiency, and if too high, of course the county ought to get the excess. The law proposed is a just one, and we hope it the Commonwealth asking for an annual appromay pass.

CAPTURE OF A SLAVER.—The barque Orion, Capt. Morgan, was captured off the coast of Africa by the British war steamer Pluto, and found to have on board 1023 slaves, bound to Cuba. The Orion was sailing under American colors, and hailed from New York. The steamer took her to St. Helena and gave her into the charge of the U.S. steamen Mystic. One hundred and twenty-five of the slaves died on the passage. The vessel is supposed to be the property of parties in Cuba.

If has been decided lately in the Supreme Court at Pittsburg, that a loss by the stealing of goods that are insured, at a fire, is recoverable against an insurance company as a loss occasioned by fire. A fire policy, therefore, not only covers losses by the removal of goods from a as the bill contemplates. The bill has been rebuilding actually on fire, although the goods may not have been burnt, but, in fact are injured by water or by breakage in the act of saving, but also all goods lost or stolen in consequence of such removal.

HARRISEURG, Feb. 14, 1860 Gentlerien :- There must be important work of some kind on hand, for during yesterder the occessions to the floating population were numerous, and among them I noticed some very old stagers in the boring profession, who make their first appearance here this session.

The State Editorial Convention meets to-mor ow, and I look for a large turn-out of the quilldriving fraternity. As usual, I presume those editors whose editorial labors are comprised in the onerous duty of setting up half a column of original matter weekly, will figure most conspicuously, as heretofore.

The political cauldron is seething and bubbling at a terrible rate. Gov. Reeder has declined in a letter which was received here on \$60,000 a year! Friday last. This gives Curtin an unexpected accession of eight votes. He has also gained within a week past three delegates in Montgomery, and two in Lancaster, which places his nomination beyond the possibility of a doubt, unless something should transpire between this and the 22d inst, of which nothing is known. Mr. Covode is here, but I think he gives up all hope of getting the nomination. Like Townsend Haines, Samuel Calvin, and Mr. Kline, he will probably be satisfied with a complimentary vote this time, in hopes of better luck next time. On the other side, there is no telling who will get the nomination. Many contradictory rumors are affont-among others which I regard as very vague, is one that President Buchanan indicates preference for Arnold Plummer. It does not follow that the action of the Reading Convention should be governed by such preference, but if it is, and Plummer is nominated, I thus ear-

On Friday last Mr. Bell called up the following bill in the Senate, which was passed to a second reading, and laid over for the present:-An Act to authorize the appointment of boards of visitors to the several houses of employment, and for the support of the poor of this Commonwealth.

Sec. 1. Be it enacted, de., That in such counties of this Commonwealth in which have been or may hereafter be established and ercored houses for the employment and support of the poor, it shall be the duty of the judges of the court of common pleas of the proper county ally, at the first term of the court, a board of visitors. o consist of three citizens of the county, one of whom shall

I suppose you noticed that a supplement to the act incorporating the Pennsylvania Rail Road Company was introduced into the Senate last week. The principal object contemplated by this supplement is to compel Mr. Thompson o resign the Presidency of the Pennsylvania Railroad. To accomplish this, the supplement enacts that the President of the Road shall not hold the office of President of any other Railroad Company. It is well known that the office pany pays but a nominal salary, but that Mr. Thompson is President of the Southern Pacific Railroad, which Company rewards his services with the liberal salary of \$25,000 per annum.— The defeated candidates for Directors of the Pennsylvania Railroad have thus raised a questior of dollars and cents in order to force the management of the Road out of the hands of the present Board. But such an object can not be accomplished by any such underhanded measures. Under the management of Mr. Thompson, the Pennsylvania Railroad has attained a name and reputation second to none in the world. His services are appreciated by the -if too low, the county must make up travelling public as well as the stockholders and there is therefore no danger whatever that this

And Whereas, The causes for the temporary withdrawa of the support and encouragement thus formerly extended have been removed by the improved financial condition of the Commonwealth, and a return to the ancient policy of the State is demanded alike by considerations of public duty and the necessities of our leading institutions of learnonly and the necessities of our leading institutions of learning, these institutions being organized on a basis so liberal as to render them practically free schools, and which are now struggling with embarrasements from which the aid of the Common wealth may appropriately relieve them, conferring upon them that position of influence and usefulness to which they are entitled.
