Is is a fact that, at some period, every memher of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonio and the exercise finlain common sense, they may be able so to regulate the system as to secure permanent the true course to pursue is certainly which will produce a natural state of things at the least hazard of vital strength and For this purpose, Dr. Hostetter has in-

troduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple procoss of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nauses, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomsch or Bowels, producing Cramps, Dysentery, Colic, Cholers Morbus, &c., these Bitters have no equal.

and poesess many other advantages over the common cof-fins. The remains of the lamented OLAY and WEBSTER Disrrhosa, dysentery or flux, so generally con-tracted by new settlers, and caused principally were oncased in these cases. by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may slways be attributed to derangements of the digestive organs, can be cured without fail by using HÖSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind : then why not use an article known to be infal-, lible ? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE .- This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create marises nor offend the palate, and render un-Recessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are mffering from an enfeebled constitution and mairm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourchment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Mostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system.
