ADDRESS TO YOUNG MEN .- An address to the

presbyterian Church, at 11 o'clock A. M., on

Sabbath next, (March 4th,) by Rev. A. B. Clark.

The middle block of pews will be reserved for

their accommodation. All are invited to attend.

A Model Boy. - On Wednesday evening last.

the Local Freight train west, on the Mountain'

Division, was an hour and thirty minutes be-

hind time, and consequently was running at a

bretty smart speed. About a mile east of Con-

emaugh, at a sharp curve, a large rock fell on

the track and broke, one-half going into the

nver and the other half remaining on the north

mack on which the Local Freight was running.

A little boy, on his way from school, discovered

the rock on the track and hearing the train

coming took a red cap from the head of his lit-

tle sister, ran with all his speed to meet the

train and waving the cap, succeeded in stopping

in The engineer says that he certainly would

have run into the rock, had he not been signal-

led as he could not have seen it in time to

check the train. The boy who thus exhibited

so much forethought, and a knowledge of the

use of eignals, and the consequences to the

train in case it was not stopped, is said to be

only about 10 years of age. The taking of his

sister's red cap to use as a signal, evinces a self-

possubsion and thoughtfulness in such an emer-

gency, which would do credit to any man of

mature years. For one of his years he is cer-

tainly a model boy. His actions in this case

certainly deserves (and we are pleased to say

CHURCH DOOR LOAFING.—Every paper in the

country should contain an article weekly, on the

crnicious and reprehensible practice of church

door loafing. It is a trick indulged in by a set

of young men, who, while they have not yet

sufficient courage to walk up to a girl and offer

their arm, have all the inclination. They no

doubt sometimes sorew up their courage to the

point, and think they will take a girl home, but

when the ladies step out of church the courage of

tife; would be gallants all coze out at their finger

ends, and instead of being gallants, as they

should be, they make themselves blackguards

by indecently peering into the faces of the

ladies and making ungentlemanly remarks.-

Since these young men have not the courage or

the ladies home, we would suggest that the la-

dies act the gallant and ask of the young men

the privilege of escorting, them home, as they

certainly should not be allowed to stay away

from their mothers so long after nightfall. We

hope the ladies will consider this matter seri-

ously and do something for the young men soon.

We know they will receive the thanks of the

mother's of the young men for bringing them

RUN-OFF AND BREAKDOWN .- On Friday evening last, two horses attached to a carriage, the property of Col. E. Baker, of Allegheny Furnace, took fright at something in front of Mann's store, and started down Virginia street at a speed not consistent with safety. The fault, however, is said not to be with the millers, but in the grain, it having grown too large last year, and been too much exposed to the sun while ripening. Be these excuses for bad flour true or false, we know that the flour manufactured at Baker's Crystal Spring Mills is good flour, (notwithstanding the defects in the grain) as we have tried some of it. This Mill has always been celebrated for turning out the best flour to be had in this or any other part of the country, and it bids fair to keep up its reputation. Flour from the Crystal Spring Mills may be had in sacks of 25 or 50 lbs. weight, or in barrels, at almost any of the stores in town.

THE BEST COUGH KEMEDY KNOWN.-There is no doubt about the fact that Dr. Keyser's Pectoral Syrup is one of the most remarkable cough medicines now offered to the public. Old cases of lung disease, bronchial, and every variety of lung disease, have yielded to its wouderful pow- adv rtised. ers, and we therefore feel no hesitation in recommending our readers who may be afflicted in that way to try it. There is very little cost attending the purchase of a bottle, which though it should not cure, it will do no harm. We know Dr. Keyser to be a regular physician; conscientious in the discharge of his business, and our readers will find it safer to trust such a man's statements, than hundreds of those who are unknown to the community. SMALL POX.—IS THIS A FACT?—If the following, which we find among the local items of a cotemporary, be true, it will certainly be of advantage to gas companies and gas fitters:-A medical gentleman writes to a New York paper that from all the information he can obtain from medical men now having cases of Small Pox under treatment, that there is no house where gas is burned, of the ordinary consumption, in which the disease has yet found lodgment. The gas is a powerful disinfectant, and hence there is no contagion within the circle of its influence. He says that a person burning gas may contract the disease abroad and take it home with him, but it will not be communicated to any other member of his family.

UNIVERRAL CONFIDENCE AND PATRONAGE. For Statesmen, Judges; Clergymen, Ladies and Gentlemen in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular-for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20th, 1858. GENTLEMEN: Your note of the 15th inst., has been received saying that you heard that I had been benefited by the use of Wood's Hafr Restorative, and requesting my certificate of the fact if I had no objection to give it. certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair is auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair failing off the top of my head and threatning to make me balli.

In this miplessant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the failing off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only; that not only was the failing off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose read, vary much to the gratification of my wife, at whose olicitation I was induced to try it.
