American Life Insurance and Trust Company,

We have seen the statement of this Company for January 1, 1860. The Life fund is, very properly, excluded from the deposit business, and the exhibit of resources is certainly fully adequate to meet all the matured and contingent liabilities of this department of the Company's business. No institution of its class in the States is more prudently managed than the American, and its officers evince a most laudable desire to avail themselves of all improvements as they are developed in the science of Life Insurance. The American has the advantage of a very wide distribution of its risks in relation to the average amount of each policy. This average is less than \$850 Apart from the present value of future premiums, the assets foot up \$645,665 26. Since it began its career the American has paid over \$100,000 of its claims. The Company has three classes of rates, viz; Total Aostinence, Mutual and Stock. The lowest of these are, of course, the Total Abstinence, and they constitute a striking pracance in promoting human longevity.

An Olcaginous Correspondent.

The following from a facetious correspondent of the Sandusky Register, who writes to that paper from the oil region in Trumbull county, Ohio, is about as slippery a correspondence as we have seen lately:-

"I arrived here at a very late hour last night, on an oil train, and may as well have come on train oil, as we were sixteen hours behind time. All the trains were behind time, I learn, owing to the accumulation of oil on the track at this end of the road. The oil fries out of the ground and lubricates the rails for a great distance.—We shouldn't arrived here at all, if the passengers badn't get out and sprinkled the track with cigar ashes. I slipped out of hed,—nobody "arises" here; we all slip into bed and slip out -at an early hour this morning, and began my investigations. I found a section embracing fourteen thousand acres of land, chuck full of oil springs. Drilling is unnecessary here, as the oil hoils up in springs, sometimes to the height of tree which abounds here is the slippery elm. Well, the worst has been realized,—the lic advertisements of the amount of their capital. As an evidence of the manner in which most companies do business and the want of a proper law on the subject, we quote the following from the Philadelphia Sunday Mercury, of the 25th inst. in which our Senator, Col. L. W. Hall,

comes in for a just meed of praise:-"Certain Senators first sought to kill the bill by mutilating amendments, which were indignantly repudiated by its friends. Mr. Hall, of Altoona, made a telling speech in favor of the neasure. He traced \$860,000 as the advertised capital of an Insurance Company on Walnut street, Philadelphia, to the Auditor General's office, where it dwindled down to \$20,000, upon which they paid their. State tax, amounting to \$60. He demanded the passage of the bill, because it was right and just, and because every representative from the county of Allegheny and the city of Philadelphia, except Meesrs. Strong and Unniap, of the House, and Mr. Parker, of the Senate, were in favor of the bill. and as a matter of common courtesy he demanded its passage. But the majority of the Senate were "fixed," and the borers of the bogus companies were enabled to throw up their hats year amounted to \$7,108 64. over their trismphant escape."

APPALLING LOSS OF LIFE -On Thursday evening, the 1st instant, at Porter's Salt Works, in Conemaugh towrship, Indiana county, five persons, viz: David King and his two daughters, whose christian names we have not learned; the wife of Samuel King, son of David, and a Miss Waddle, entered a skiff or small craft to cross the Conemaugh river, in going to a singing school on the opposite side. It appears that the river was pretty full, and the navigators did not use the becessary precaution of sitting down closely to the craft, and when the wind bent on their bodies and the craft caught the current in the river, it was upset, and all the five precious souls cast into the muddy waters of the Conemaugh. It appears that William Waddle, father of Miss Waddle, saw the frail upset, or saw the result of its upsetting and ran and waded in with a pole, extending it to his daughter, who appeared to be nearest him, and thought she had caught it, but a Miss King and her appeared to be clinging together, and neither were benefitted by his efforts. Mr. King is said to have been a good swimmer, and it is believed that the other two unfortunately clung to him, and prevented his own safety, as well as any further efforts on their behalf. All five are lost .- Blairs. ville Record.

No Family should be without Them. We speak of M'Lane's Liver Pills, prepared by Fleming bros.. Pittsburgh, Pa., which have become an indispensale Family Medicine. The frightful symptoms which arise from a diseased liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the senses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepathic derangementand for these Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families. DIRECTIONS.—Take two or three going to bed, every se

ond or third night. If they do not purge two or three times by next morning, take one or two more. A elight breakfast should invariably follow their use. The Liver Pills may also be used where purging is simply necessary. As an anti-billious purgative, they are inferior to none. And in does of two or three, they give asonishing relief to sick headache; also in slight derange

ments of the stomach. Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEM-ING BROS., of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr. MVane's genuine Liver Pills, also his celebrated Vermi fuge, can now be had af all respectable drug stores. None centilise without the signature of FLEMING BROS. Sold by druggists and dealers overywhere.
