Chicago Convention.

The Republican Convention which met at Chicago on the 16th inst., nominated Hon. Abram Lincoln, of Illinois, for President, and Hon. Hannibal Hamlin, of Maine, for Vice President, the former on the third and the latter on the second balwithdrawn after the first ballot. The Pennsylvania delegation did not give him an united vote on first ballot as it was said that it would. There were men in that dele- for June has been received. Arthur & Co., Philada. lished speeches of Lincoln, he is as much of an "irrepressible conflict" man as Seward, and must of course be equally acceptable to the party. Hamlin, the candidate for Vice President, is, we doubt not, the better man of the two. What effeet this nomination will have upon that made at Baltimore some two weeks since. we can not tell, but we suppose the Union party will insist upon Bell staying in the field. In this event, the result is easily conjectured.

The nomination of Lincoln and Hamlin is received with much enthusiasm throughout all parts of the North and especially in the North-west, where Lincoln is very popular, and where Douglas alone could hope to make a contest against him.

TERRIBLE TORNADO.

On Monday evening last, the most destructive tornado ever known visited Cincinnati. The storm came from the north west, and appeared to be a cloud, densely black, extending two miles in breadth, and rushing forward with fearful rapidity, accompanied by thunder and lightning and torrents of rain. The damage done in the city by the blowing down and unroofing of houses was immense. and the loss will probably reach \$500,-900. A large number of persons were injured, and as far as heard from six persons were killed. The steeples and roofs of almost every church and public number of dwellings were blown down or damaged. Walls were blown down and fell upon occupied houses, injuring and killing the inmates. The telegraph lines in every direction were prostrated, consequently but little is known of the damage in the country. The railroads leading to Cincinnati were covered with trees which had been blown down. The railroad depot Loveland and the shops at Lawrenceburg were entirely demolished. Nurseries and gardens were destroyed. The storm along the river raged with fearful violence, and great fears are entertained for the steamboats and coalboats which were on the river at the time. The steamer Vilginia Home was capsized. The passengers who work on the boat were saved and two of the great lost.

The principal object of the Japanese Embassy is to get an English copy of the treaty signed by the President of the United States The original was burnt in the great fire at Jeddo two veate ago. The copy in Japanese was saved. This they bring with them, and a copy of it, (not signed,) and a letter from the Tycoon to the President of the United States.

The Atlantic Monthly for June is replete, as usual, with substantial reading matter, having a continuation of the series La popular. To all who wish a monthon, Mass.

> After strolling through this dilapidated village for couple of hours, I proceeded to the ticket office of the Ill. Central R. R., procured myself a ticket for Mendota, Laselle county, Ill., and in a few minutes we were speeding our way over the vast prairie lands, a great part of which is in a high state of cultivation. This is a first class Railroad, a sleeping car being attached to all night trains and the conductors accommodating men.

At Mendots several trains arrive and depart at the same time and a stranger, not well posted in Railroading, will stand a pretty fair chance of either taking the wrong train or being left to take the next, Being well skilled in railroading, I proceeded at once to the ticket office, as all railroad travelers should do, to get information in regard to the departure of trains, but lo, when I came there, I, for the first time in my life, could not get the information sought for at a railroad ticket office, If the railroad com mies centering here employ their men for the purpose of insulting gentlemen or treating them with silent contempt, and refusing to take Illinois rage for tickets at their offices, without giving their reasons for so doing, then I would consider them faithful employees. But I don't think it is the desire of the efficers of those companies to have them thus treated, and therefore I would advise them that it would be considerable to their interest to keep an eye to that point. After being thus rebuffed by the employees about this depot. I groped my way in the dark to the train which I presumed was going the way I wished to travel, entered the car and obtained the desired information from a passenger. In a few minutes we were on our way again, rolling over the vast prairies towards Arlington where I am at present. I shall spend a few days here and then proceed to Chicago, where some of the great men of the nation are now assembling to put in nomination a candidate for the Presidency to represent the Peoples' Party of this Union at the next election.

FROM THE PREFACE The Empress Josephine was one of the most remarkable of all the extraordinary characters who rose into conspicuous public positions in consequence of the Freuch Revolu-Wonderful were the events of her life. With the kindest and most affectionate of human hearts, she united the sternest principles of rectitude and a comprehensive

In political foresight, her superiority to Napoleon is now universally recognized. Had he listened to her admonitions his empire might have been averted. It is worthy of notice that this political foresight and ability has been inherited by her descendants—two of whomy Napoleon 111 and Pedro II, respectively the present Emperors of France and of Brazil are among the ablest sovereigns now reigning in the world.

The events of Josephine's life, and remarkable traits of character which she displayed amidst the most amazing vicinatudes of fortune, afford not only an exceedingly intersetling but a highly instructive lesson to all who read her biography. In this respect, her career, taken as a whole, may challengs comparison with that of any other historical

personages in history.

Josephine constantly looked to the glory of France and
the same of her husband as the two most desirable objects. When Napoleon dealred to perpetuate his dynasty by a second marriage which might yield him a male heir to his throne, Josephine nobly sacrificed her own feelings to what she was told might eventuate to the advantage of France. In his adversity this true woman forgot all but their happy years of wedded love remembered not that she had been pudiated, but that he was unfortunate.

We have drawn freely upon various authors, who have corded abecdotes and traits of Josephine, as related to with the tender regret of affection, which, too late. cognized her full value, by Napoleon himself, in his closing years, and it is hoped that the book will be found reliable as well as entertaining. Full of truth, yet it is the very Romance of Biography.

Have You a Diseased Liver.

The question, though startling, is sufficiently suggestive when the fact is taken into consideration that diseases of the Liver have become most ularmingly frequent in the United States. Indeed, there are few formidable diseases that are not in some way traceable to a deranged state of that important organ. Many of the complaints usually sults, although eventually ending in the liberty of the Re- classed under the head of Consumption, have their origin public, than that conducted by General Samuel Houston, in the Liver. Wonderful, but True. A few days since, Mr. Jas. H. Beadle, of Huntsville, Ala-

bama, called on us and gave us permission to publish for the benefit of suffering humanity, the astonishing cure which had been effected in the case of his wife by the use of Dr. Hance's Vegetable Epileptic Pills. He informed us, that at the time his wife commenced using the medicine, her system was so entirely prostrated, by the number of spasms she had undergope, as to reduce her weight to 100 lis. Since she has been taking the pills, she has entirely got over the spasms and has gained in weight and hod; ly health. She now weighs at least 200 lbs., and declares she is in better enjoyment of health than ever before in her life. Mr. Beadle also related the case of Mr. Harrison Lightfoot of the same town, who has been entirely cured of the worst form of Epilepsy by these same pills. Mr Lightfoot's case was so bad that he never passed a week without having an attack, often falling down in the street. Beadle thinks that if the pills ever fail in curing a case, it is for the want of a proper perseverance on the part of the person in taking them, as he feels assured from observation in the case of his wife, that if they are taken for a sufficient length of time, they will cure any case.
