Dragged to Death by a Cow.

A terrible accident occurred in the town of Delhi, Delaware county, New York, a week ago, which resulted in the death of a little girl seven years old. The parties to the sad occurrence were William Scott, a lad seventeen years old, and his half-sister Elizabeth Doby, the victim. The boy had been sent to take the cow to pasture, the little girl accompanying him. He had with him a piece of rope with which he was to bring back some hay. On his way he playfully tied one end of the rope around the body of his sister, and the other end to the cow's tail. When the cow had proceeded a short distance in this way, followed by the girl, the latter stumbled and fell, which so frightened the cow that she ran off at a furious rate, dragging the poor girl after her. After running some distance the girl's head struck a solid rock, crushing in the skull, and at the same time the cow's tail pulled out, so great was the force of the resistance. The girl was also badly cut around the face, neck and head. She was taken up by the boy and carried home, where she breathed but two or three times before expiring. The boy is said to be rather deficient in intellect, and it is not supposed that he realized the imminent danger in which his sister was placed by his mischievous conduct.

AN AWFUL WARNING.—We recently heard related the particulars of an occurrence which can only be looked upon as an instance of Divine retribution for taking the name of the Almighty in justification of a falsehood. We suppress the names and localities of the parties, who are respectable persons. It appears that the aunt of a young girl about eighteen years of age, accused her of having been guilty of some misconduct, which she positively denied, and on being again accused, she called upon God to strike her blind if she was not telling the truth. In a moment after, according to her own statement, a film seemed to pass before her eyes, and in five minutes she was totally blind, and has continued sightless ever since. The afflicted victim of her own impiety confessed that she had called upon her Maker to justify her in what was a falsehood. May not this be considered as a terrible instance of Divine wrath, and may not the thoughtless take warning?—Balt. Clipper.

A LOCOMOTIVE RECENTLY ran away on the West Cornwall line in England. The throttle-valve having been inadvertently left open, and a fire kindled in the furnace, the attendant went away for a few moments; on his return it had left town, and only ran out of breath at a station some sixteen miles distant, having rushed down some steep inclines, and over sharp curves, at the rate of sixty miles per hour. It tore up and smashed through a large number of gates, but with this exception did no damage whatever, and was quietly led back to its stall without having been made permanently vicious in its tracks, in which particularly it manifested another decided improvement of steam over horse.

FEMALE IN THE RING.—A disgraceful exhibition took place near New York on Tuesday, between two boys named Pardee and Odell, each about seventeen years old, having engaged in a prize fight for \$20, in the presence of about one hundred spectators. On the sixth round Odell knocked his antagonist down, leaving him in such a condition that he could not come to the scratch when time was called. At this Pardee's mother, who was on the ground, became so exasperated that she sprang into the ring, and expressed a desire to fight the victor herself. The cry being raised that the police were coming, all hands took to their heels.

WE COPY FROM THE Utica Telegraph the following receipt for the preservation of plum trees from the ravages of an insect that sometimes does great damage:—Take a tin pail, punch holes through the bottom, adjust it to a pole that will reach above the top of the tree. Fill the pail with air-slacked-lime, and hold it above the tree, in the morning before the dew is off, strike lightly on the pole, sprinkling the lime over the tree. Repeat this operation, say about three times, and your plum crop is safe. Curculio will not work where lime is.

DURING THE shower on Wednesday afternoon, says the Newport (N. H.) Republican, the lightning struck the house occupied by Mrs. Ebenezer Hazleton, Suptape. Mrs. H. was standing near the stove when the lightning struck the chimney, descended, split the stove in pieces, and instantly killed Mrs. Hazleton. She was about sixty-five years of age. About six years ago a son of hers was killed on the Pineburg Railroad, soon after a nephew was drowned, five years ago her husband took his own life, and now the wife and mother, by a violent death, is sent to meet her kindred in eternity.

ANOTHER WARNING.—The Fort Madison Plaindealer, of the 28th, reports a somewhat extraordinary case of blasphemy and sudden death that occurred near Farmington, Van Buren county, a few days previous. A farmer living there, while talking to a neighbor, about the dry weather, began an outburst of the most terrible blasphemy, using the vilest epithets toward the Almighty and the Saviour, because He did not send rain. The man was going on in frightful language, when all at once his jaws became paralyzed, his tongue became powerless, his voice ceased and he fell on the earth a corpse.

AT Farmington, Iowa, last Sunday, a little girl four years old was carried by a sudden gust of wind and lodged in a cherry tree a few rods distant, her clothes having caught in the branches of the tree, where she remained unhurt. The anxious father ran to and fro seeking her, when the little innocent, dripping with rain, peeped down through the branches of the cherry tree, exclaiming—"I'm here, pa."

THE greatest trot ever made was accomplished by the gallant bay mare, "Flora Temple," on the Union Course, Long Island, on Wednesday last, in a contest with a famous bay horse called "Geo. M. Patchen." The race was closely contested, but Flora won each mile heat, the time being 2.21, 2.24 and 2.21, respectively. The first heat is said to be the best time ever made on that course.

PEN AND SCISSORS.

A fast horse—one chained to a post. Human butter is the latest novelty. Of course it is very strong. Physicians' prescriptions are now called "death warrants" in Latin. The Legislature of Rhode Island adjourned on Friday, after a session of four days. It is stated that \$775,000 worth of new buildings are now in course of erection in New York city. The New Jersey peach crop promises better. The Newark Journal says it will turn out well. The "Wags," the popular wit, published in Hollidaysburg, on Wednesday last. Reminds us of rural life—the hay-making operations in the lot opposite our office. Disappeared—Quite a number of the canine population within the last few days. Tom Buckley, the "Limerick Boy," has just successfully accomplished his feat of walking 100 hours, without rest or sleep, at Elizabeth. Mr. R. Balfour, of this place, had a excellent cow killed on the Branch Road, a short distance from town, one day last week. Preparations for holding a grand commencement at Hollidaysburg will begin on the 24th of September, and to continue one week. A young man named James Dean, aged 18 years, fell off of Maple Street, Hollidaysburg county, a few days since, and was almost instantly killed. The proceedings of Congress on Friday show that Mr. Frank P. Blair, of Missouri, has obtained his seat in Congress, which he has so long contested. The printers at Pike's Peak have struck for higher wages. They want \$100 per month, and they have been receiving \$75. Day labor at the Peak is from \$2 to \$3. It is estimated that over 100,000 barrels of oil are now ready for market in the oil regions of Northwestern Pennsylvania. Invitations for the Erie, Putnam, &c., executed at the Tribune office in handsome style, at short notice, and on reasonable terms. An individual was arrested the other day while endeavoring to pick a man's pocket. He said he wanted to see the man, and was just trying to get his hand in. The police require monster steamboats in which loaded up capital, amounting to not less than two millions of dollars, are now lying idle at the docks at Chicago, Buffalo, and other lake ports. The United States Agricultural Society has had prepared, for presentation to the Japanese Embassy, a collection of seed and garden seeds, embracing nearly one hundred varieties. The New York Herald says that the German vote, deducting 15 per cent. for non-naturalized citizens, will amount in the next Presidential election from 1,010,000 to 1,020,000 votes. The bark Widder, recently engaged with a cargo of Africans, is said to have been owned and fitted out by a Boston house, who anticipated clearing \$500,000 by the operation. Strawberries were accepted abundantly at all the cities east and west, and selling from 4 to 5 cents per box. How comes it that those brought to this place are sold at 25 cents per box? There must be some profit in this traffic. The London correspondent of the New York Herald says—"The coup de grace has just been given to the participants in the Heenan and Bayers fight by the referee, knowing to a friend that he had \$100 on the result." U. J. Jones, Esq., of Hollidaysburg, has assumed the control of the editorial department of the Hollidaysburg Patriot and Citizen. We expect to see a great improvement in the local department of the paper mentioned, as Mr. J. is one of the ablest writers in the country. We welcome him to the tripod again. He denies it—Heenan, in a private letter to America, says that he was never married, and the woman who had claimed his name as all impostors. Also, for poor Ada Isaac, Monken Heenan. What became of her devotion to the best and bravest of men? On the evening before their departure from Washington, several of the Japanese servants were seen about Willard's in a state of shameful intoxication. The prices are advanced for this lot of drink will spread among their followers to a serious extent. The Troy Budget understands that John Morrissey, the pugilist, is to go immediately into training at the "Albany," with a view of fighting Heenan in August. He has left New York, and expressed his determination to vanquish the Champion of the world, notwithstanding he (Morrissey) is threatened with consumption. The Government has purchased the present site of the post office in New York city, and arrangements will be speedily made for the erection of a suitable and commodious building. The price paid for the site is \$250,000, of which \$50,000 was contributed by merchants, as Congress only appropriated \$200,000 for the purchase. Geo. W. South, Esq., a valued and highly respected resident of Toledo, last week hung himself in a pond, and drowned. He was a man said to be worth \$50,000 in property and funds, and did not owe a dime. Of late he has thought that he should be brought to want, and the idea has culminated in his effecting self-destruction. In a contest between two dogs and a panther, at Matanzas, Cuba, the proprietor of the latter, finding his animal overpowered and evidently getting the worst of it, shot the dog with an air-gun. For this he was compelled to give up the whole of the money taken at the door, in all amounting to \$400.50, for the benefit of the poor. A cow raised by Reuben Myers, of Cheltenham post, Montgomery county, and by him sold to a butcher of Frankford, was killed a few days ago for market. Before slaughtering her, she was weighed and drew 1710. After being dressed she weighed 100 pounds, being 69 to the 100 live weight. She yielded 106 pounds of round fat. Her age was four years and she had been fattened nine months. Mr. Smith, a pious and promising young lawyer, recently offered the following resolution at a Sunday School Convention in Ohio: "Resolved, That a committee of ladies and gentlemen be appointed to raise children for the Sabbath School." Several young men in this place are anxious for an appointment on that committee. Mr. John Glenn, of South Woodbury township, Bedford county, while engaged in cutting down some bushes in his garden, was struck in the face by the branch of a thorn, striking one of his eyes exactly in the centre, and instantly destroying the pupil. The wounded eye has almost totally disappeared, and singular, to relate, Mr. Glenn has suffered but little pain from the mishap. The Shirleyburg Herald is in error in stating that the Altoona Tribune is "down" on the Chicago platform. We never expressed our opinion on that document. We don't care whether Bull and Everett stand on the Baltimore platform or any other platform, or ever have or will be belonged to the American party. We merely expressed what we conceived to be the feeling in this place, not our own opinions. Do you understand? Bloody Affray.—A few days ago, an affray occurred at Tyrone, Pa., which resulted in the killing of Dr. J. M. Baker and his brother-in-law, Wm. De Griffin, a painter, at the hands of Dr. T. G. Bell. The affray grew out of the fact that the latter had notified that his visits to the female portion of Dr. Baker's family were disagreeable to them. Dr. Bell is in jail. Robert H. Bowers, a desperate and reckless character, who had recently served out a sentence in the penitentiary for counterfeiting, induced Eliza Paine, a young and pretty girl of Cleveland, Ohio, to go riding with him, on the 19th ult., when he brutally assaulted her and violated her person. Last Sunday night Bowers met Thomas Paine, a brother of the girl he had treated so infamously, and a fight at once began, during which Bowers was stabbed, and died the following evening from the wound. Paine made his escape. At a public "tea party," recently held in one of our country towns, where "sentiments" were in order, a timid bachelor was bold enough to remind the ladies that, "I was upon them by offering the following: Three long weary years have I waited for this; Now, if you'll put the question I'll surely say yes. Which a lady promptly responded as follows: The man without courage to do his own wooing, May do his own washing, but baking and sewing, The bachelor looked despair.
