Well, in a short space of time she had solved the contents of the package, but that she would not be compelled to change from whence it came remained a mystery, only to be car to car, and if a bed could be placed in a car substantial. As to the population, we have not solved by us, if at all. Neatly putting it all to she might live to reach her place of destination; rights again, she patiently (if a woman could but think it does not lack much, if any, of 5,000, be patient under such circumstances) awaited our coming. We came in due time, but had on population, which is larger than that of any could not divine. We thought there was "a cat tofore claimed, a population of 6,000. This is we were not looking for it, we ventured to ask certainly doing well for a town only a little over an explanation of this close chatechising, when the mysterious package was handed us, the circumstances connected with its presentation detailed, and we in turn asked to explain. Now here was a dilemma. What should we do? Should we say that we knew all about it, but refuse to give the name of the donor? or, should we deny all knowledge of the affair? Either horn was sharp, but one of them we must ride; and just then we remembered that

therefore something must be done soon, as delay was dangerous in this case, consequently we chose, the latter, which was the true one .--Whether this proved satisfactory or not is enough for us to know, suffice it to say that the package contained a neat silk neck-tie, for which the unknown donor has our thanks, although she did get us into rather an unpleasant predicament.

Among the visitors who have recently favored our town with their presence, we are happy to notice Mr. J. F. Coonley, attached to the well known photographic establishment of E. Anthony, 501 Broadway, New York city. Mr. Coonley has been for several days past engaged in taking some of the remarkable views immediately on the Pennsylvania Railroad, and has extended his visits to localities of old time interest, off, but still in the immediate vicinity of, the Road. THE BERRY SEASON.—We are now fairly in the midst of the berry senson. Dozens of bushels of whortleberries and raspberries are brought into town every day, the former gathered on the mountains and hills around town, and the latter brought over from "Camberry" on the freight trains. They are all readily disposed of at 5 cents per quart. The blackberries are now ripe, and we shall soon have them in abundance

which greatly facilitates the process of teething, by soften-ing the gums reducing all inflammation will allay pain and spasmodic action, and is sure to regulate the Bowels. Depend upon it mothers, it will give rest to yourselves, and Relief and Health to your Infants. We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed, in a single instance, to effect a cure. when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know," after ten years' experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is adfound in fifteen or twenty minutes after the syrup is ad-

ninistered.

This valuable preparation is the prescription of one etches with most experienced and skillful nurses in New England, the most experienced and skillful nurses in thousands. the most experienced and skillful nurses in new and has been used with never-failing success in the of cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve Griping in the Bowels and Wind Colic, and overcome convulsoins, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhous in children, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prefrom any of the foregoing complaints—do not let your pre-judices, nor the prejudices of others, stand between your sufforing child and the relief that will be sure—yes, absosunoring child and the relial that will be sure—yes, some lutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bot-tle. None genuine unless the flue-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world, and by G. W. Kessler and A. Roush, druggists, Altoons. Price 25 cents

Oak Grove, S. C. June 24th, 1859. PROP. O. J. WOOD: Dear Sir :- Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Keetorative a perfect test :- During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the road sale, from which my head received a most terrible blow that sing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of brain and external surface of the nead, from the surface of which my hair was finally destroyed over the entire and face of the head. From the time I first discovered its dropping, however, up to the time of its total disappoint ance, I employed everything I rould think of, being a professional man myself, and, as I thought, understanding the face of the disease but was finally defeated in every pre-

nature of the disease, but was finally defeated in every pre-These and no other circumstances induced me to resort to your worthy Hair Resforative, which I have every itea son to believe, produced a very happy result a two months after the first application. I had as beautiful a head of young hair as I ever saw, for which I certainly one you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a

Yours, very respectfully, J. J. WRIGHT, M. D. Office of the Jessessian, Philippi, Va., Dec. 12th, 1858.

Dear sir.—I feel it my duty as well as my. pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer.) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handhair grew out quite luxuriantly, and he now has a hard-some head of hair. The gentleman's name is Bradford; and some head of hair. The gentieman's name is brauwri; and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c., THOMPSON SURGINOR.

Da. Wood: Dear Sir: Permit, me to express the obliga-tions I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original line. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. The Restorative is put up in bottles of three sizes, vizglarge, medium, and small; the small holds is shirt and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion and the small holds at least twenty per cent.

twenty per cent. more in proportion than the small retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for 33.
