ALTOONA MAIL SCHEDULE.

Table with columns for destination (Hollidaysburg, etc.) and time (7:00 A.M., etc.).

RAILROAD SCHEDULE.

Table with columns for train name (Express Train, etc.) and time (8:10 P.M., etc.).

LOCAL ITEMS.

THE SCOTT TESTIMONIAL.—On Friday last, the beautiful piece of silver was intended to be presented to Thos. A. Scott, Esq., late Gen'l.

REGULAR HABITS.—The health of the human body depends in a great measure on habits of regularity and careful protection from the sudden changes of temperature incident to our climate.

CANDIDATES FOR THE PENITENTIARY AND GALLES.—On Saturday evening last, a crowd of boys about half-way up in their teens, accompanied by a few who have probably reached their majority, but who, out of respect to the manumaster, will not call men, collected in the vicinity of the Methodist Church and indulged in a breach of the peace, such as would have been a disgrace to the denizens of the Five Points in New York City, in its worst days.

HOW TO TREAT THE BITE OF A DOG.—Dr. Stejneger, of Boston, in his testimony in a recent case, which grew out of injuries from the bite of a dog, furnished the following valuable advice:—In the case of the bite of a dog where the teeth of the animal penetrate the flesh, whether the dog was known to be mad or not, should use the same precautions. He would wash the wound with warm water, extract all the virus possible by sucking the wound with his lips, and then cauterize it deeply with the caustic most readily obtained; but should use potassium if it could be procured at once.

THE CAPTIVE.—This is the name of the pretty, sunny little hat and feather worn by the lady. It is decidedly the most becoming fashion lately hit upon. It is juvenile, and, however beautiful it looks on the young, the effect is quite the contrary when worn by ladies who have the traces of forty summers on their brows.

THE CLIPPER.—A greasy astronomical calculation, the northern limb of the disc of the planet Mercury in this lunation sphere was observed from our vision on Wednesday morning last week, between the hours of 7 and 9 A.M., by the Queen of night interposing her proportions. Smoked glass was in demand and about not that sharpeners in some places made good thing out of the sale of it. Many old eyes cannot understand the why and wherefore of the moon getting between the sun and the earth, and we have not time or room to explain at present, nevertheless we assure them that such was the case on the day mentioned.

To PRESERVE PEACHES.—The peach crop of this year promises to be larger than it has been for six years past, consequently every lady is making preparations and calculations for preserving this delicious fruit in cans. Some of our lady readers know so well how to preserve fruits, that any advice from us would be considered gratuitous, if not positively impertinent; but there may be those who will be benefited by the following directions:—To preserve peaches in cans, take the ripe fruit, pare them, and throw them into cold water, which will keep them from losing their color. When ready put them in cans, adding as much sugar to them as would make them palatable. Then set the cans in a vessel of boiling water, allowing them to remain until heated through. A quart can will require at least twenty minutes to heat properly. Seal at once, taking care to keep the lid pressed down until the cement hardens.—This is said to be the best plan for preserving peaches.

INFERNAL MACHINES.—Not quite a few days since, our townsman, Col. L. W. Hall, received a box, by Adams' Express, from Chicago, or some point west of that city. Not having ordered anything from that part of the country, and the size and weight of the box being rather suspicious, he imagined it was either a hoax, or an "infernal machine," and declined opening it for some days. At last he lifted it and determined on solving its contents. After opening the box and unrolling an indefinite number of papers, he turned out, what?—why an excellent Plaster of Paris—just of the Peoples' candidate for President "Old Uncle Abe," which had been sent to him by a friend.

While Mr. Blair was speaking, a large balloon manufactured of red, white and blue paper, was sent up, which floated the air rapidly until above the houses, when it sailed slowly away over the hills.

A meeting of the People's Party will be held in this place, this (Wednesday) evening, which will be addressed by Hon. Henry D. Moore, Col. L. W. Hall and Hon. S. Calvin.

Mr. Spurgeon preaches from Luke to twelve verses a week, and also a good sermon and conference meeting, on the subject of several young men for the ministry, and writes continually for the public. He enjoys increasing health.

It is announced that the rumor of the discovery of a new motive power in Paris is true, and it has been made public. It is hydro-motive, cold water alone being the agent of propulsion. The benefit to navigation is anticipated as being immense, doing away at once with the necessity of coal and steam, which would enable vessels to perform the longest voyage in an incredibly short space of time. The system was submitted to the Emperor; so says the report, during his sojourn in Italy, by the inventor, M. Carvanna, and is but just completed in a manner satisfactory enough to be brought to Paris, where it is about to be examined and criticized by the first engineers of the day, and experiments are to be made at the expense of the Government. The savans and practical men of every branch of science, are waiting with the greatest impatience to learn the result of the first experiment, which is to be made as privately as possible. The success of this entirely new machine will determine at once the fate of the long-established sovereignty of steam in navigation, and the movement is felt to be one of intense interest.

PEOPLE'S PARTY MEETING.—A mass meeting of the People's Party was held at Hollidaysburg on Tuesday evening, at which addresses were delivered by Hon. S. Blair, Col. A. G. Curtin, and Hon. Henry D. Moore. The crowd of people in attendance was acknowledged to be the largest that has attended an evening political meeting in that place for many years. A delegation of over one hundred, accompanied by the Altoona Brass Band, went out from this place. Van Trier's Corned Beef was also in attendance. The speeches were well received by the audience, especially that of Col. Curtin.

While Mr. Blair was speaking, a large balloon manufactured of red, white and blue paper, was sent up, which floated the air rapidly until above the houses, when it sailed slowly away over the hills.

CHILDREN'S TEETHING.

MRS. WINSLOW, AN EXPERIENCED NURSE AND FEMALE PHYSICIAN, has the attention of mothers to her SOOTHING SYRUP FOR CHILDREN TEETHING.

Which greatly facilitates the process of teething, by softening the gums, reducing all inflammation, will allay pain and spasmodic action, and is sure to relieve the most distressing cases. Depend upon it, mothers, it will give rest to yourselves, and relief to your infants.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve the most distressing cases of teething, and prevent convulsions, which, if not relieved, end in death. We believe it the best and most reliable remedy in the world in all cases of teething and diarrhoea, and in all cases of colic, whether it arises from teething or from any other cause.

It is a safe and reliable remedy, and is a great blessing to all mothers who have children teething. It is a safe and reliable remedy, and is a great blessing to all mothers who have children teething.

THE ONLY PREPARATION HAVING PROOF SO STRONG AND DIRECT AS TO EXPULSE THE DOUBTS OF ALL.

For Stomachs, Jugglers, Editors, Physicians of the oldest schools as well as new, give their unqualified testimonies, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite in testifying that it will preserve the hair from falling out, and from falling to any age, as well as restore, Read the following:—

Prof. O. J. Wood, Dear Sir:—Your Hair Restorative is rapidly gaining celebrity in this community. I have had occasion to use your Restorative, and give you my testimonial:—I was afflicted with a very bad case of dandruff, and my hair was falling out in great quantities. I used your Restorative, and in a few days my hair began to grow again, and in a few weeks it was as thick and as healthy as ever. I can testify to the truth of the statement; I can also testify to the fact that your Restorative is a very valuable preparation, and one that every man and woman should have in their household. I am, Sir, your obedient servant, O. J. WOOD, No. 114 Market Street, St. Louis, Mo.

Dr. Wm. C. Kessler, Dear Sir:—I have used your Restorative, and I can testify to the fact that it is a very valuable preparation, and one that every man and woman should have in their household. I am, Sir, your obedient servant, Wm. C. KESSLER, Altoona, Pa.

Dr. J. W. Wright, Dear Sir:—I have used your Restorative, and I can testify to the fact that it is a very valuable preparation, and one that every man and woman should have in their household. I am, Sir, your obedient servant, J. W. WRIGHT, Altoona, Pa.
