An aperient and stomachic preparation of Iron purined of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every concei-

In cases of General Debility, whether the result of acuto disease, or of the continued diminution of nervous and mus-cular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no de-scription nor written attestation would render credible.— Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested by Female sufferers, emaciated victims of apparent attested by Female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and the complication of nervous and dyspeptic aversion to air and exercise, for which the physician has no name.

In Nervous Afflictions of all kinds, and for reasons familiar to medical men, the operation of this preparation of fron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costineness.

In unchecked Diarrheea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. nteresting instances. In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously bal-anced preparations of iodine, without any of their well-known liabilities.

The attention of temales cannot be too confidently invi ted to this remedy and restorative, in the cases peculiarly afflicting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably
well reported, both as alleviating the pain and reducing the
swellings and stiffness of the joints and muscles.
In intermittent Fevers it must necessarily be a great re-

medy and energetic restorative, and its progress in the new settlements of the West, will probaby be one of high renown and usefulness. No remedy has been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. Put up in flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. HOSTETTER'S STOMACH BITTERS.

Ir is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able to to regulate the system as to secure permanent health. In order to accomplish this desired ebject, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple proeess of strengthening nature, enable the tretem to triumph over disease.

For the cure of Dyspepaia, Indigestion, Newssea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Crampa Dysentery, Colic, Cholera Morbus, do., these Bitters have no equal. Diarrhosa, dysentery or flux, so generally con-

scacted by new settlers, and caused principally by the change of water and diet, will be speakly regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using MOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind: then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science. FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, evan in exposed situations, if the Bitters are used as per directions. And as they neither oreste nauses nor offend the palate, and render usnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep

and healthy digestion, the complaint is re-moved as speedily as is consistent with the production of a thorough and permanent ours. For Persons in Advanced Years, who are suffering from an enfeebled constitution and mfirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the domands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness. CAUTION.—We caution the public against using

any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stonage Birgers. and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic capcovering the cork, and observe that our autograph signature is on the label.
