EDWARD A. WILSON, Williamsburgh, Oct. 4, '60 .-- 1y. King County, New York

Age and Debility.

As old age comes creeping on, it brings with it many at tendant infirmatives. Loss of appetite and weakness impair the health, and want of activity makes the mind discontented and unhappy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until BERHAVE'S HOLLAND BITTERS were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great agent for this alone, and are used by many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, 'invigorating the system, thus giving nature another opportunity to repair physical injuries. See advertisement in another column.

1. It is a common observation that there are more suf ferers from debility, among Americans than can be found among any other civilized nation. The reasons are obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED BITTERS. The weak and nervous denizen of the counting house, the exhausted toiler upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful repenerator in the "Bitters," and prefer it to more preten tions, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influ ence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible form of disease. Who would not give it a trial? Sold by druggists and dealers everywhere.
