COURT PROCEEDINGS .- The proceedings of last court, as given by the Hollidaysburg papers, are too lengthy for our columns, therefore we will present only a condensed statement of the principal cases :--

Com. vs Michael Corcoran. Indictment-as. sault and battery with intent to commit rape on the person of Mrs. Catharine Filer. The evidence against him was conclusive and he made no defence. The jury returned a verdict of guilty without leaving the box. He was sentenced to undergo an imprisonment of four years in the Western Penitentiary, in separate and solitary confinement at hard labor, pay a fine of \$5 and costs of prosecution.

-Com. vs, Jacob Kephart. Indictment-larcenv. Jacob stole a pair of boots from Philip Dempsey, in this place, was detected, placed in tail, had his trial, was found guilty and Judge Taylor gave him a situation for nine months in the Western Penitentiary, in separate and solitary confinement, at hard labor.

Com. vs. John Brown. Indictment-larceny, to Moses Shoenthal, of Hollidaysburg, without every render, without comments by us :the permission of Mr. S. Plead guilty, and was sentenced to undergo an imprisonment of nine months in the Western Penitentiary.

We noticed last week that Hugh Ossman had been convicted of manslaughter in the killing of Wm. Meadville, at Fostoria, last summer. He was sentenced to pay a fine of five dollars and costs of prosecution and undergo an imprisonment in the Western Penitentiary, of separate and solitary confinement at hard labor, for the term of six years.

Frederick Lehle, a Inger beer saloan keeper of this place, was indicted for selling liquor to a minor, and found guilty. On motion of L. W. Hall, Esq., the defendant was granted a new trial. Same defendant was also indicted for selling liquor on Sunday, but the jury returned a verdict of " not guilty."

Care for Diptheria or Sore Throat. - The rapid epread and alarming fatality of this disease, has induced many spersons, who, no doubt, were honest in their intentions, to give to the public the various remedies which have proved effectual in cases that came under their observation. Some of these remedies may be good, but we would not advise any persons to trust in them. The best thing to be done is to go or send for a physician as soon as the disease makes its appearance. Do not delay until the assistance of a physician can be of no effect. While we are opposed to relying upon published remedies for such a dangerous disease, we may be permitted to copy the following from an exchange paper, determed not to be behind in this age of promost rational of any we have yet seen, still it Church in a style to make it not only more of family physician :---

resorted to in the forming stage, and, in most cases, in any and every stage of the disease.-The treatment consists in converting a virulent, by the free application of nitrate of silver (lunar caustic), either in substance or strong solution -thirty grains to a half ounce of cold waterto be applied to the whole visible internal throat. Fear not-use liberally and you will care every case. Such has been my experience. What can be more rational? A superficial burn will heal by a natural process; a specific, virulent disease will not. Physicians, try it. If resorted to early, and thoroughly applied, it will AN EXPERIENCED PHYSICIAN.

Repair Your Pavements -Board walks are very nice institutions so long as they are in good sleepers laid under them work out of their places, and you feel as though you were walking on spring hoards, then they are not so nice; and especially is it not so agreeable, in wet weather, to walk along at a rapid gait and, on stepping suddenly upon one of these loose boards, have the water spurt up through a crack in a board, or between the coards, and bespatter your clean boots and pantaloons. And if such things be so disagreeable to the lords of creation, what must be the effect upon the nether garments of the fair sex. Oh: it is horrible to contemplate. Many of the boardwalks about town are in the condition above described, and the neglect of the owners to repair them is becoming intolerable. They should be repaired immediately, before the wet season has fairly

Pickpockets About.-Will McCrea, son of C. R. McCren, was relieved of his watch while waiting for the mail to be changed at the Post Office in this place, on Saturday evening last. Re felt it going out of his pocket, and made immediate search for it but could find nothing of it. We have often thought, while being crowded around in the small delivery room at the Post Office, which is always packed on the arrival of the ovening mail, that it would be a fine place for pickpockets to operate, and the wonder to us is that money and valuables have not been missed ere this. Undoubtedly there

" Poor old Hoss."—A crowd of men and boys fing an old horse from a ditch which had been evening last :dug in the street at the entrance of the alley back of the Superintendent's Office. The horse had ran away from his owner, who was stopping at White Hall Hotel, and not "knowing the ropes" about town, tumbled into the aforesaid ditch and injured his back and hind legs so much that he was unable to get out. The crowd which collected to render him the needed assistance was large enough to have pulled a four horse team and a yoke of oxen out of an Illinois swamp and they did yelling enough to raise the roof of a bank barn. After getting the horse out he was unable to stand up, whereupon a kindly board was placed under him, with several men at each end, and he was helped up street, followed by the crowd, some of whom were feeding him hay, others rubbing him down. and altogether making capital sport out of the folly and misfortanes of a "poor old hoss."

Shocking Railroad Accident .- An old man. named James George, while returning home fram a Republican meeting at Latrobe, on Friday night, was run over by the lightning train on the Pennsylvania Railroad, and instantly killed. The engineer saw him about thirty feet ahead of the locomotive and signalled him to leave the track. The unfortunate man attempted to get out of the way, but was too late .--The engine struck him with tremendous force, pitching him a distance of several feet, and inflicting injuries from which instant death must have ensued. But the most distressing feature, perhaps, of the occurrence yet remains to be told. The train was stopped as soon as possible, and one of the brakesmen going back to where the body lay, was horrified to recognize, in the mutilated remains before him, the person of his own father. The young man's anguish may be more easily imagined than described, and drew tears from many of the passengers. An inquest was held on the body on Saturday, and a verdict of accidental death rendered.

To Parents .- Here is an item from the pen of a traveller, who is also a writer of distinction, which we commend to the attention of pa-John helped himself to a pair of pants belonging rents. The truth of it must be apparent to basket of good thing which was deposited upon our table,

"When I lived among the Choctow Indians, I held a consultation with one of their chiefs respecting the successive stages of their progress in the art of civilized life; and, among other things, he informed me that at their start they fell into a great mistake—they only sent boys to school. These boys came home intelligent men, but they married uneducated and uncivilized wives-and the uniform result was, the children were all like their mothers. The father soon lost all his interest in both wife and children. "And now," said he, " if we would educate but one class of our children, we should choose the girls, for when they become mothers

they educate their sons.' The item is not intended to convey the impression that it is unnecessary to educate boys, but that the education of girls is equally as important as that of boys.

Halloween.—This time honored evening, so widely celebrated in Scottish song, passed over this place without one-half of our people ever giving it a thought. Time was, and it is not long since, when those who forgot the return of the 31st evening of October, and left their cabbage stand out, were very apt to find the best heads missing the next morning, and things generally strewed around miscellaneously, all of which they could attribute to the freaks of round" on this occasion. We have not heard of any mischief being done in this place, on that

Important Improvement .- Our colored friends, remarking that while it appears to us to be the gress, have determined to fit up their old Log should have the sanction and direction of your an ornament to the town, but more comfortable for winter worship. We do not know whether "Diptheria or sore throat can always be cured we were informed rightly or not, by "one of by the following simple, rational treatment, if 'em," when he said-"We is goin' to get permission blinds, and Gas, 'enuse de champaign is 'jurious to de institution"-we presume not : for specific sore throat into an artificial sore throat, our colored friends are neither aristocratic nor extravagant. Come along, business men, and have some neat billrepair, but when the boards get loose and the heads, cards, circulars, or handbills, and let It Tells You How to choose all kinds of meat, poultry, and people know that you are still doing business.

Good for Tuckahoe!-Mrs. John Anderson will accept the thanks of the editors, their better halves and the devils, for those tremendous big heads of cabbage sent to our office last week. They were as big as-well, we were going to compare them to the moon, but we won't; they were not quite so large as that orb, but they were "whoppers." If any body else has a couple of heads of cabbage-which they think are larger than those sent us by Mrs. A., let them send them along and we will soon decide.

Consecration .- St. Luke's Episcopal Church, in this place, was consecrated on Thursday morning last, by Bishop Potter. Quite a number of clergymen belonging to this denomination were present and took part in the preceeding exercises. The weather was rather disagreenble, notwithstanding there was a large turn out on the occasion of the consecration. Our Episcopalish friends have now one of the neatest churches to be found in the country, and what is better, it is entirely free from debt.

Bitten by a Dog .- A little boy, named Power, was severely bitten on Friday evening last, by the watch dog kept in J. & J. Lowther's store. The dog is naturally good natured and would not harm any one on the street, but some of the boys have a fashion of throwing stones at, and are now some light fingered gentry in our midst, otherwise annoying, him during the day, while 38 we have heard of another case of pocket pick- he is tied in the warehouse, adjoining the store, ing lately, and it would be well for those who and he evidently remembers those who thus an-

BATTLE CREEK, Mich., Dec. 21st, 1859.

Prog. Woon:—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruntion on the head. A continual conan eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodgesulmost the last cent I had on earth for a two dollar bottle of thy Rair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though short, it is coming in all over my head. Feeling confident short, it is coming in all over my head. Feeling confiden that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more. I would ank thee if thee wouldst not be willing to send me an order on thine agents for a bott o, and receive to thyself the scripture de-claration—"the reward is to those that are kind to the wi-dow and the fatherliss."

Thy friend,

Paor. O. J. Woon:—Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause inknown to me, commenced falling off very rapidly, so that in the short space of six nioriths, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part much of the remaining portion upon the success part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my mure casual adquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more litimate acquaintunces were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving from them no assurance that my hair could again be restored, I was farced to be come reconciled to my-fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommenced to me by a druggist, as being the most reliable Hair Restorative in use. I tried one buttle, and found the most reliable was recommenced to me by a druggist, as being the most reliable Hair Restorative in use. I tried one buttle, and found the most reliable that the continuous statement of the most reliable that the continuous statement of the continuous s rative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restor-

ative, and as a result, have a rich coat of very soft black hair, which me money can buy.

As a mark of my gratitude, for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like affect.

Very respectfully, yours,

A. M. LATTA,

Attorney and Counsellor at Law.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed, in a single instance, to effect a cure, when timely used. Nover did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know," after ten years' expein this matter "what we do know." after ten years' experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief wilf to found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never-falling success in thousands It not only relieves the child from pain, but invigorates It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve Griping in the Bowels and Wind Colic, and offercome convulsoins, which, if not speedily remedied, end it death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhose in children, whether it arises from teething or from any other cause.— We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your new We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be every yes, also-lutely sure—to follow the use of this medicine, if thatly used.
