

The Altoona Tribune.

ALTOONA, PA.

THURSDAY, DECEMBER 13, 1866.

Where parties are unknown to us, our rates for advertising are as follows: For one square, one insertion, one dollar; for three insertions, three dollars; for one month, ten dollars; for three months, twenty-five dollars; for six months, fifty dollars; for one year, one hundred dollars. For a full page, double the above rates. For a column, triple the above rates. For a single line, one cent per line per day. For a single line, one cent per line per day. For a single line, one cent per line per day.

M. PETTENGILL & CO., Advertising Agents, 119 Nassau Street, New York, and 10 State Street, Boston, are the Agents for the Altoona Tribune, and the most influential and largest circulating newspapers in the United States and the Canadas. They are authorized to contract for us at our lowest rates.

STATE TREASURER.—Among the names mentioned in connection with this office, we might say almost the only one—is that of Hon. Henry D. Moore, of Philadelphia, and since we have understood that Wm. M. Lloyd, Esq., our clever banker in this place, is not a candidate for that position, we know of no one whom we would rather see successful than the gentleman first named: He is a gentleman of high standing for integrity, having filled numerous offices of trust, is a ripe scholar, and has had much experience which would qualify him for the office named. He has served his party as faithfully as any man in it and certainly deserves well at the hands of his party friends. His nomination by a unanimous vote, in the People's Party caucus, is generally conceded.

We might say a great deal on the state of the Union, at the present time, but we are of the opinion that too much has already been said. That South Carolina will secede is now a fixed fact. At the Convention which meets in Charleston, on Wednesday next, she will formally declare herself out of the Union, but whether she will get out thus easily, remains to be seen.—The time for talk, at Washington, has passed and the time for action arrived, and we must have good news or bad news ere long. We believe that the Union can and will not be dissolved.

HOPE HIS WIN.—We notice that our esteemed contemporary, Col. Swank, of the Cambria Tribune, is a candidate for Post Master at Johnstown. We know Jim. He is one of the most sociable and agreeable members of the "art preservative," or any other art or trade, that we know, and has the ability to discharge the duties of P. M. to the satisfaction of the most captious, and more than that, he merits the appointment on the ground of service to his party. We shall be glad to note that Jim wins the race.

PETERSON'S MAGAZINE.—The January number of this elegant Ladies Magazine is before us.—Its fashion plates and steel engravings are equal to the best, and the reading matter all readable. Every lady who wants to keep up with the times and fashions should take a magazine, and the fact that we furnish Peterson's Magazine to the wives, daughters and sweethearts of our advertising subscribers at the low rate of \$1.25 a year, should induce all to try and get it for the coming year. Come along, we're ready to order it.

On Saturday week, a complimentary dinner was given to A. K. McClure, late the efficient chairman of the State Committee of the People's party, in Philadelphia. The affair came off at the Continental Hotel. About one hundred persons participated, including the Governor elect, Hon. A. G. Curtin. After the dinner was disposed of several toasts were given, which were answered by speeches full of conservatism.

We notice that Bennett's Dollar Monthly has been changed to the American Dollar Monthly, Emerson Bennett retiring from the work.—The present publisher offers the magazine for one year and a premium worth from 50 cents to \$100 to every person who sends him \$1. Our subscribers can do as they choose about going into the premium business. Address John L. Hamelin, 144 South 3rd St., Philadelphia.

Arthur's Home Magazine, for January, 1867, is to hand and is filled with that kind of reading which American freemen demand. It is, as the editors say, an American Magazine, and as such should be taken by all who have \$2 to invest in literary reading matter. It is well worth the price. Address, T. S. Arthur & Co., Philadelphia.

NOVEL MODE OF RESPONDING A MARRIAGE.—Justice Waite, of St. Louis, lately came into possession of a dollar bill, upon the back of which the following had been written with a pen: "This dollar bill, together with a miserably executed half dollar, was all that Mr. George H. Cox, of Oshkosh, Wis., gave me for marrying him to Miss Celia Rice, on the 4th of October, 1866. The beautiful engraved certificate I gave them was worth fifty cents, and the recording of the marriage (according to law) cost twenty-five cents, leaving me but a quarter of a dollar with which to advertise it, and as the papers charge fifty cents for such advertisements, which would bring me in debt, I chose this more economical method of advertising said marriage, and letting the world know that Mr. George H. Cox and Miss Celia Rice are married according to law. (Signed,) HENRY REAGA, Pastor M. E. Church."

California are complaining strongly of the effect that coolie labor is having in that State. They live on what would starve a white man, whose labor is being driven out of the market. When work is slack, the coolies are thrown as paupers on the State for support.

Letter from Noble Old Houston.

Latest advices from Texas state that because old Noble Houston, "the noblest of them all," steadily refused to call the state legislature together, a Mr. Stewart, member of the Legislature of Texas from Gonzales, has issued a circular in accordance with resolutions of meetings held in that place, inviting the members of the Legislature to be in Austin on the third Monday in December, for the purpose of holding an extra session, and to take the necessary steps for calling a State Convention. Gov. Houston promises to resign if the people of the State demand the convoking of the Legislature. The hoisting of the Lone Star flags in the towns of Texas continues. The following is a passage from Governor Houston's letter, dated November 26, in reply to parties in the State who asked his opinion: "I need not assure you that whenever the time shall come when we must choose between a loss of our constitution and rights of revolution, I shall choose the latter; and if I, who have led the people of Texas in stormy times of danger, hesitate to plunge into revolution now, it is not because I am ready to submit to Black Republican rule, but because I believe in the constitution of my country and am determined to stand by it. Mr. Lincoln has been constitutionally elected, and much as I deprecate his success, no alternative is left me but to yield to the constitution. The moment that instrument is violated, I will stand forth in the most commanding redress and the last to abandon my ground. "When I contemplate the horrors of civil war, such as dissolution of the Union will ultimately force upon us, I cannot believe that the people will readily be brought with these consequences. They will consider well the blessings of the government we have, and it will only be when the grievances we suffer are of a nature that as freemen we can no longer bear them, that they will raise the standard of revolution. They will consider well, our own consciousness and posterity will justify us. If that time should come, then will be the day and the hour. If it has not—if our rights are yet secure—we cannot be justified. Has the time come? If it has, the people who have to bear the burdens of revolution must themselves effect the work. "I trust the gloom which now hangs over the land will soon be dispelled. Now is the time for the patriot to come forth, and consider what is to be gained by making a victory of Federalism to desert the gallant thousands who for years have been fighting our battles against fanaticism in the North. Heretofore they have aided us to conquer, and we have been willing to abide with them. Now, after a struggle, more glorious than any they yet have made, they have been driven back. They still offer us the guarantees of the constitution, and are ready to battle with us in its defence. Let true men, all over Texas and the South, see to it that we have not without a cause. I cannot believe that we can stand at present more safely out of the Union than in it. Yet I believe it due the people that they should know where they stand. Mr. Lincoln has been elected on a sectional issue.—If he expects to maintain sectional issue during his administration, it is well we should know. If he intends to administer the government with equality and fairness, we should know that.—Let us wait and see. "Here I take my stand! So long as the Constitution is maintained by Federal Authority, and Texas is not the victim of Federal wrong, I am for the Union as it is. I am now an aged man. My looks have become white in tolling, as I believe, for the liberties of mankind. Were I young, that I might look forward to the future, feeling that the posterity I might see and that they would be as hardy to defend my family, I should feel less anxiety than I do at present. The years that I will have to endure the misfortunes of civil war are but few. If I could feel that with the close of my career would end the miseries of my race, I could stand at present more safely out of the Union than in it. Yet I believe it due the people that they should know where they stand. Mr. Lincoln has been elected on a sectional issue.—If he expects to maintain sectional issue during his administration, it is well we should know. If he intends to administer the government with equality and fairness, we should know that.—Let us wait and see. "Very truly yours, SAM HOUSTON."

When I contemplate the horrors of civil war, such as dissolution of the Union will ultimately force upon us, I cannot believe that the people will readily be brought with these consequences. They will consider well the blessings of the government we have, and it will only be when the grievances we suffer are of a nature that as freemen we can no longer bear them, that they will raise the standard of revolution. They will consider well, our own consciousness and posterity will justify us. If that time should come, then will be the day and the hour. If it has not—if our rights are yet secure—we cannot be justified. Has the time come? If it has, the people who have to bear the burdens of revolution must themselves effect the work. "I trust the gloom which now hangs over the land will soon be dispelled. Now is the time for the patriot to come forth, and consider what is to be gained by making a victory of Federalism to desert the gallant thousands who for years have been fighting our battles against fanaticism in the North. Heretofore they have aided us to conquer, and we have been willing to abide with them. Now, after a struggle, more glorious than any they yet have made, they have been driven back. They still offer us the guarantees of the constitution, and are ready to battle with us in its defence. Let true men, all over Texas and the South, see to it that we have not without a cause. I cannot believe that we can stand at present more safely out of the Union than in it. Yet I believe it due the people that they should know where they stand. Mr. Lincoln has been elected on a sectional issue.—If he expects to maintain sectional issue during his administration, it is well we should know. If he intends to administer the government with equality and fairness, we should know that.—Let us wait and see. "Here I take my stand! So long as the Constitution is maintained by Federal Authority, and Texas is not the victim of Federal wrong, I am for the Union as it is. I am now an aged man. My looks have become white in tolling, as I believe, for the liberties of mankind. Were I young, that I might look forward to the future, feeling that the posterity I might see and that they would be as hardy to defend my family, I should feel less anxiety than I do at present. The years that I will have to endure the misfortunes of civil war are but few. If I could feel that with the close of my career would end the miseries of my race, I could stand at present more safely out of the Union than in it. Yet I believe it due the people that they should know where they stand. Mr. Lincoln has been elected on a sectional issue.—If he expects to maintain sectional issue during his administration, it is well we should know. If he intends to administer the government with equality and fairness, we should know that.—Let us wait and see. "Very truly yours, SAM HOUSTON."

STAB PREACHERS.—The Christian Advocate, an organ of Methodism, says: "Ever and anon a circuit, or more commonly an ambitious station, that has been fraudulently true itself to the bishop and cabinet, in regular fashion, and has been picking and bargaining before every Conference, gets thoroughly run down with an end of perfection in that line, say, 'we are tired of stab preachers. We want a pastor. Will the Bishop send us a pastor?' As a general thing 'stab preachers' are idle, they are humbugs, and better calculated to shine on the boards of a theatre than in the pulpit.

SUFFERING IN THE SOUTH.—The distress consequent upon the troubled state of our nation is not confined to any one section of the Union as will appear from the following paragraph from the Atlanta (Ga.) Locomotive of last week: "Never before has there been as many laborers thrown out of employment in Atlanta as at this present time. Most of the carpenters are idle (the improvements being all discontinued), and many of them have large families depending upon them for bread, and they can get no work. There is indeed a great deal of suffering among the laboring classes in this city, and we think something should be done for them."

RESIGNED.—Mr. M'Lane our Minister to Mexico, has resigned that post, and ex-Governor Waller, of California, has been appointed to succeed him. Mr. M'Lane's last despatches show that the situation of Mexican affairs has been worse than ever, and that he had no hope of negotiating any treaty that would be satisfactory to the United States government.

ANOTHER FAIR FIGHT.—On Tuesday a prize fight for one thousand dollars took place near North Berwick, Me., between Michael Fritz, of Providence, R. I., and Wm. O'Neil, of Worcester, Mass. Sixty-three rounds were fought, occupying four hours and twenty minutes, when Fritz was declared victor, owing to a foul blow. Nearly one hundred and fifty persons were present from Boston, Worcester and other places. Neither party had ever fought in the ring before.

POPULAR LECTURE.—The admirers of that gifted preacher, Miss Louise E. Vickroy, will be glad to learn that she lectures in Hollidaysburg this (Thursday) evening, on the "Poetry and Poets of America." Could we conveniently get there and back, we would not miss the treat.

DEAD.—Mr. John Gramer, whom we noticed last week as having been injured by a collision in the yard, in this place, died, on Sunday evening last, from inflammation of the brain, he leaves a wife and two children to mourn their loss.

LOCAL ITEMS.

It is said that "the proof of the pudding is in the chewing of the bag." Therefore we are prepared to affirm that the meat of the large hog we noticed last week was as good as the carcass was large—thanks to Mr. Miller for several yards of most excellent sausage. As some of our readers are probably anxious to know the yield of this mammoth porker, and what it was worth, at the present state of the markets, we append a statement.

Table with 2 columns: Item and Price. 229 lbs. lard, at 15 cts per lb., \$34.35. 48 " sausage, 12 " " " 1.72. 40 " ham, 4 " " " 5.60. 30 " ribs, 5 " " " 1.50.

Besides the above there were several pounds of feet, liver and heart, skins and cracklings, which, if added to the above, would make the hog worth \$60. It would require about four ordinary hogs to net that amount. Does it, or does it not, pay to raise large hogs?

Rev. Haskins, of Nebraska City, Nebraska Territory, preached in the Methodist E. Church in this place, on Sunday morning last—After the sermon he detailed, very briefly, the sufferings of the people in that country for want of the necessities of life and clothing. The crops in that country the past season were a total failure, as an evidence of which he stated that he planted ten acres of corn and gathered just three ears of corn therefrom, and twelve bushels of potatoes put in the ground last spring yielded him one peck this fall, ranging in size from a walnut to a pea. He had lately received a letter from home, stating that sixty children had attended Sunday School in his town, through snow eight inches deep, without shoes or stockings. A collection was taken up to help his suffering neighbors and a bundle containing numerous articles of clothing was given him on Monday.

THE SLEIGHING.—The fall of snow we had on Friday night and Saturday last, brought out the cutters, fast nags and fast young men, but the pleasure was none of the smoothest. The snow was too light and the runners of cutters and other crafts found their way through to the frozen ground, and made almost as much noise as a stage coach. The boys had quite a time of it, on Saturday night, coasting down the hill on Julia street. No accident occurred to any one except our senior B—, (now a graduate) who came nigh having his "outstides stone" in being struck in the small of the back with a plank, loaded with half-a-dozen boys, while he was endeavoring to recover his equilibrium after having been "spilled" from a preceding craft.

GOOD WILL HOR.—The Second Grand Annual Ball of the Good Will Fire Engine and Hose Company, of this place, given for the benefit of the Company, comes off at Logan Hall, on Friday evening of next week, 21st inst., and promises to be one of the most recherche affairs of this kind ever gotten up in this neighborhood. The Hall is admirably suited for such entertainments, and the list of managers of the Ball is a sufficient guarantee that it will be well conducted, and that those who attend will be treated in the best manner. We hope the Good Will boys may realize handsomely therefrom.

THE ALTOONA P. O.—There are now quite a number of aspirants for the position held by our worthy townsman, Mr. Shoemaker. Although none of them would be guilty of charging him with doing anything wrong, nevertheless they would like amazingly well to get into his situation, and, since a change in the general government will take place on the 4th of March next, it is altogether likely that some one of them will get it, though who the lucky individual will be we would not pretend to insinuate.—Any one of those who are applicants would make a good officer, consequently we particularly favor none of them.

CHRISTMAS IS COMING.—Everybody knows that, but everybody don't know that his or her turkey for that occasion is coming. We believe we have not yet passed the holidays, since our advent in Altoona, without this necessary requisite to the proper observance thereof, and if we go turkey less this time, we must attribute it to the suspensions now prevalent, whereby our turkey was suspended before we received it. But we are not without hope.

THE ATTENTION OF OUR READERS is directed to the advertisement of the new firm of Dill & Ickes, recently started in East Altoona. They have just received a large stock of new goods, suited to the season, which they promise to sell at small profit, for cash, or to prompt monthly customers. They invite particular attention to their stock of ready-made clothing which is extensive and will be sold at city wholesale prices.

MISS E. Z. ECKEL, Fashionable Milliner and Dress Maker, announces to the Ladies of Altoona and vicinity that she is prepared to attend to all their wants in her line, at her store on Virginia street, opposite the Lutheran Church. Dress trimmings constantly on hand. Plain sewing of all kinds done at the shortest notice and on the most reasonable terms. Dec. 13, 1866-2s.

THE HUNTERS are now scouring the forests in all directions around us, in search of deer, bears, &c., some with good luck, others middling, and the greater number with no luck at all, but all who go in search of confectionaries, nuts, fruits, toys, or anything of the kind, for the holidays, will have the best of luck if they drop in at George Smith's establishment, on the corner of Main and Caroline streets, in Tuck's old stand.

SOME TURKEYS.—We heard a friend remark, a few evenings since, that he had in his coop, four turkeys whose united weight was 96 pounds. Won't those fellows make fine Christmas roasts? They'll laugh all over when the carver dishes them.

REV. HENRY BAKER, formerly pastor of the Lutheran congregation in this place, now of Lewistown, has received a call from the congregation of the Third Lutheran Church of Baltimore.

NEWS HALL.—The great want of our town must be observable to all. The buildings lately erected, and those in course of construction, are of a permanent and substantial character and displays architectural taste. But we are in want of a public improvement, and one which we must have ere long, and the sooner we get it the better for us. We refer to a public Lyceum Building, or town Hall, where political meetings could be held, literary societies convene and public lectures be given—an appropriate place for a variety of social and intellectual amusements and recreations, always incident to a place of five thousand population. That we have no such place at present, is too true. Our churches are large, commodious and comfortable, and the various congregations worshipping in them have been unusually courteous and accommodating, in allowing miscellaneous meetings to be held in them from time to time. Nevertheless, churches are not appropriate places for mixed assemblies, and it is wrong to ask for them for that purpose. There are few if any towns in the country with a population of five thousand that have not a building of this kind. By reason of this want we lose the visits of all really meritorious troupes of vocalists and other entertainers and receive only those of a second or third grade who do not care what kind of a building they have to perform in so they get the money. We again refer to this matter hoping that some of our capitalists will give it at least a consideration. Similar enterprises have proved a complete success in other places? Why not here?

GOOD INK.—We are now writing with Laughlins and Bushfield's Chemical Writing Fluid, a new candidate for public favor, and must say that we are entirely pleased with it. It flows from the pen beautifully, and the color is, at first, a greenish blue, afterwards changing to a deep black. In our opinion it possesses all the merits of Arnold's Fluid, and makes the best record ink. It can be had at Fettinger's Literary Emporium, in bottles from ten cents up to seventy-five cents. Fet has also on hand a supply of copying ink, to which he invites the attention of those who use the article. P. S. Fet has gone, or is going, or will soon go to the city for his stock of Holiday notions.—Look out for his return, as he will have something to astound the country.

REMOVAL.—Our jovial little friend, Charley Shannon, has removed his jewelry store to the old Post Office building, on Virginia street, second door above the Lutheran Church, where he has just received a large invoice of clocks, watches and jewelry, expressly for the holidays. Be sure and give him a call. We understand that our old friend R. B. Taylor, and his brother, had the good luck to bring home seven deer, on Saturday last, the proceeds of a ten days hunt.

THE TYRONE STAR says that the Tyrone and Lock Haven Rail Road was sold recently for \$5,900. The name of the purchaser is not given.

PEN AND SCISSORS.—The difference—a hunter bags his game; a coquette sacks hers. Hope may bud under clouds, but it blows only in sunshine. John C. Fremont will soon be the richest man in the United States. Low as the grave is, you cannot climb high enough to see beyond it. Some hearts, like primroses, open most beautifully in the shadow of life. All the principal Hotels in Washington City have run up the Stars and Stripes. Truth is omnipotent always, however plausible falsehood may look for a time. Common sense is only a modification of talent—genius is an exaltation of it. Tall gentlemen are always successful, because the ladies are all in favor of hymen. Thomas H. Clay of Ky., has written a strong letter in favor of maintaining the Union. A continual dripping wears away a stone, and a continual murmuring wears away sympathy. The price of the London Times is \$25 a year, five times as much as American newspapers of the same size. The good will and material of the Newport (P. R.) Gazette is to be sold at public sale on Monday, the 24th inst. In Brooklyn a gang of thieves have been discovered under the guise of furniture polishers. One of these "polishers" stole \$12,000 from one house. South Carolina is still enrolling minute men. Prentiss says, "Such minute men will never effect anything unless they have six seconds apiece." A writer says through the Farmer's Department of the Dollar Newspaper if any one can inform a poor man of the best way to start a little nursery. Certainly—get married. Connecticut having a foreign demand for her clocks, (locks on, in spite of the times. The New Haven clock manufacturers, of that city, are sending abroad some 17,000 or 18,000 per month. Curious—A strange story is told of a boy at Newport, Ohio, sixteen years of age, whose body is covered with scales like those of a salmon, which he sheds twice a year, new ones taking their place. A number of young men in Millin and Patterson are about organizing themselves into a theatrical company for the purpose of entertaining the citizens of those places during the coming winter. Fatal Accident.—John Simpson, an employee of the Broad Top Railroad, was killed Wednesday morning at Saxton, by accidently falling between the cars. He was a sober, industrious man—lived at McConnellstown—and leaves a wife and four children. Our neighbor of the Standard says that he is decidedly in favor of the Ledger's way of bringing quiet to the country, i. e. Mr. Lincoln's not to remove any of the present office holders. Our neighbor carries the mail from the P. O. to the depot in Hollidaysburg, at a salary of \$365 a year. The Standard says that Maj. Raymond, of the 17th Iago is an applicant for the Post Office in Hollidaysburg. Judge Jones of the Register, whose name has been mentioned in connection with the same appointment, denies that it is by authority, as he has no appointment that way. The year 1867 will be the first of the 66th Olympiad. There will be an eclipse of the sun on the 14th of January, another on the 7th of July, and a total eclipse on the 13th of December. There will also be a partial eclipse of the moon on the 17th of December. A physician in Cincinnati, Ohio, had, for some time past been much annoyed by oprobriators, who drank up the milk. The year 1867 will be the first of the 66th Olympiad. There will be an eclipse of the sun on the 14th of January, another on the 7th of July, and a total eclipse on the 13th of December. There will also be a partial eclipse of the moon on the 17th of December. A physician in Cincinnati, Ohio, had, for some time past been much annoyed by oprobriators, who drank up the milk.
