CURTIN .-Notwithstanding the inclemency of the weather, quite a crowd of people assembled at Harrisburg, on Tuesday last, to witness the inauguration of Col. Andrew G. Curtin, as Governor of Pennsylvania. Thirteen military companies were in attendance and made a fine appearance.-

The oath of office was administered at a little past twelve o'clock, after which the spoken of in terms of praise by men of all parties. Mr. Bigler from this State, offered in the U. S. Senate, on Monday last, a series of amendments to the Constitution of the United States, which he proposes to have submitted directly to a vote of the people, without a vote thereon by Congress. Among the amendments we find one which reads as follows:-

ARTICLE 6. That, hereafter, the President of the United States shall hold office during the term of six years, and shall not be eligible to re-

"We are opposed to that amendment, for the reason that if a bad man happens to get into that office, four years is long enough, if not too long, to endure his rule, and if we get a good man, we can, under the present Constitution, elect him a second time.

The Farmer and Gardener for January is received; and maintains untarnished its high reputation. It is, as usual, handsomely embellished, and filled to repletion with matter of the highest interest and importance. We observe that the enterprising publishers, Messrs. A. M. Spangler & Co., have also issued a new monthly entitled "The American Bee Journal," which promises to be a most valuable and important work for those who are interested in that subject. The price of each of these Journals is one dollar, but the publishers offer them | the condition of a conquered province. both, together with a prepaid copy of either the Year Book of the Farm and Garden," or Both sides of the Grape Question," for the trifling sum of one dollar and fifty cents. The effect would be to depopulate western Virginia of her best and most enterprising citizens. The population of this city, in the next decade, would retrogade one-third. Make us a foreign city to Ohio and Pennsylvania, and grass will grow in every street in this city next summer. We will sink, sink, and sink, until we become a sort of old, dull, moneyless Mexican town, that subsists by catching a copper once in awhile from a traveler, and eking out a miserable little trade with the country immediately about it. This will be our condition. And will be that of every town and hamlet in West-

Latest from the Secession Movement.

Presuming that our readers are more interested in the secession movement than anything else, we devote the most of our space to keeping them posted in regard to the doings of the ecessionists and the General Government. In our last we published as the latest dispatch that the steamer. Star of the West, which was sent out from New York with men and supplies for Maj. Anderson, at Fort Sumter, whilst attempting to enter Charleston harbor, and thereupon put out to sea again. The following additional information has since been received by telegraph and through the daily papers. The Charleston Courier gives the following particulars of the between Major Anderson and Geo. Pickens of at a dinner party at Mr. Corcoran's, Mr. Toombs South Carolina, in reference to it.

About half past six o'clock yesterday evenng, the steamer General Church, discovered the steamer Star of the West, and signalled the fact to the occupants of the battery on Morris Toombs with a personal controversy which he Island. As soon as the fact was signalled, all Morris Island was astir, and the men were at

their posts before the orders were given. They remained in anxious suspense, but rendy for what they believed was sure to come—name-

ly, a volley from Fort Sumpter. The Star of the West rounded the point and took the ship channel inside of the bar, and proceeded straight forward until she was opposite Morris' Island, three quarters of a mile from the battery, when a ball was fired athwart the bows of the steamer. The Star of the West displayed the stars and stripes, and as soon as it was unfuried a succession of heavy shots was

The vessel continued at increased speed : but one or two shots taking effect, her Captain concluded to retire. Fort Moultrie fired a few shots, but they were out of range. The damage done to the steamer was trifling, only two out of seventeen shots taking effect, but there is no idea as to the extent of the damage. Fort Sumpter made no demonstration except that he guns were run out of the embrasures bearing on Morris Island and Fort Moultrie.

About 11. o'clock a boat from Fort Sumpter, bearing Liut. Hall, with a white flag, approached the city. He had an interview with Gov. Governor delivered an address which is Pickens, and was afterward escorted to the boat and re-embarked for Fort Sumter.

I am not notified that war has been declared by South Carolina against the United States, and I cannot but think that this entire crowd, and but little drunkenness hostile act was committed without your sanction or authority. Under that hope, I refrained from opening fire upon your battery. I have the honor, therefore, respectfully to ask whether the above mentioned act—one I believe without parallel in the history of our country, or any other civilized government-was committed in that if not disclaimed, that I regard it as an act of war; and I shall not, after a reasonable time vessel to pass within range of the guns of my Fort. BEPLY OF COV. PICKENS. Governor Pickens in his reply, after stating the position of South Carolina to the United States, and that any attempt to send United States troops to Charleston harbor to re-inforce the Forts would be regarded as an act of hostilty, says in conclusion:

Any attempt to reinforce the troops in Fort Sumter, or to retake and resume possession of the Forts within the waters of this State, which you abandoned, spiking the guns and doing otherwise much damage, cannot be regarded by the authorities of the State as indicative of any other purpose than a coercion of the State by the armed force of the government. Special agents, therefore, have been placed off the bar to warn approaching vessels, both armed and unarmed, having troops on board to reinforce the Forts. not to enter the harbor. Special orders have been given to the commanders of the Forts not to fire at such vessels until a shot across her bow would warn them of the prohibition of the State. Under such circumstances the Star of the West, I have understood this morning, attempted to enter the harbor with troops, and having been notified that she could not enter.

DEPARTURE OF LIEUT. TALBOT-ENTERTAINMENT

GIVEN TO HIM AT CHARLESTON. Charleston, Jan. 10 .- Lieut. T. Talbot left Charleston late last night with dispatches from Major Anderson to his government. He goes to Washington for instructions from the President. A party of gentlemen entertained Lieut. Talbot before he left. There is no excitement

night, steamers were seen coming out of the barbor, supposed to be in pursuit. The same night she spoke the ship Emily St. Pierre, from Liverpool to Charleston, and refused admittance in consequence of the American flag being displayed. When leaving Charleston Harbor, the Star of the West received several parting shots from the battery on Morris Island, and they all fell short. The general feeling on board now is to return to Charleston, with proper means of defence, and effect a landing at all hazards.

The following items we copy from the special despatch from Washington, to the New York Tribune, of Tuesday:

GEN. SCOTT AND SENATOR TOOMBS. The newspaper statements of a quarrel between Gen Scott and Mr. Toombs at a private table here, and a reference of it to friends afterward, are entirely unfounded. It is true that, did say that he wished the Star of the West might be sunk with all on board. Gen. Scott took no notice of this brutal remark, excepting privately to the gentleman who sat next to him. and he certainly had no idea of dignifying Mr. would doubtless desire for his own consequence. especially as nothing more could ensue from it. When he had opportunities with Jeff. Davis and John Bell, he exhibited no particular anxiety to

go beyond words. SUPPLIES FOR FORT SUMPTER. It now seems to be understood that the Comnissioners on the part of Major Anderson and Gov. Pickens, are sent here to propose, on behalf of the latter, that supplies shall be furnished to Fort Sumpter, and communication allowed with Charleston if Government will agree not to send additional troops. . The exact character of the proposition will be known to-morrow. These and other negotiations have excited much com-

ment on both sides. MR. BRECKINRIDGE. Mr. Breckinridge is now fully in the counsels of the conspirators, and is relied on by them as one of the effective managers of their movement. He is deluded with the idea of being President of the new imaginary Confederacy, and no longer affects any sympathy with the friends of Union.

All the important Forts at the South, except part of the works at Pensacola, Fort Sumter, Fort Monroe, Fort Washington, on the Potomac. and Fort McHenry, are now in possession of the preconcerted by Mr. Floyd.

MR. CHASE AND THE NEW CABINET. Mr. Chase will resign his seat in the Senute immediately upon notifying Mr. Lincoln of his acceptance of the Treasury Department, in order that the Legislature may at once elect his suc-

cessor. The general expectation is, that Col. Sherman will be chosen in his place, as being eminently qualified, and having acquired peculiar prominence as the candidate for Speaker of the present House. His selection would doubtless satisfy both the local interests in Ohio, and mouth short of \$100 and expenses; while Gough be acceptable here and to the country.

There is no reason whatever to fear that any collision has occurred between the Brooklyn and met the Star of the West, as was intended, the latter would not have attempted to enter the harbor at all.

The general tone here is much improved, and a strong belief is entertained among well-informed and sagacious public men, that the Southern revolution has expended its force, ed. Hoping, however, that your answer may and a great reaction, from absolute necessity, must occur within the next sixty days. Capitalists have more reason for confidence now, than at any time since this rebellious movement

> The following are the latest despatches from Washington, dated January 15th: It is reported that private advices have been received from Baton Rouge, Louisiana, stating

> that the election of delegates to the convention has resulted in a majority against secession. It is understood that the Agents of South Carolina now here, demand the unconditional surrender of Fort Sumter, with a view to avoid the shedding of blood. The Administration has

not yet considered the proposition. The speech of Mr. McClernard, of Illinois, in its geographical, commercial and national significance, is producing quite a sensation here. It is rallying the Union feeling. A special despatch from Washington says that

South Carolina has offered to evacuate all the forts and public property, in case of Major Anderson being ordered back to Fort Moultrie. Private despatches from Little Rock say that the Arkansas Senate has rejected the bill passed by the House for a State Convention.

Two Brothers Kill Each Other.

The Evansville. Ind., Journal of Tuesday, gives an account of an appalling tragedy which happened in that city the night before, never equalled for ferocity and unnatural hate. It ppears that a fierce feud has long existed between two brothers named John P Evans and Robert M. Evans, members of an old and well known family of Evansville. Their grandfather laid out the town. They have made several attempts heretofore on each other's lives. Robert went to a ball Tuesday evening with a lady. About midnight Paul came in intoxicated. He walked up to his brother, and asked him to drink. His brother refused : whereupon Paul drew a knife, seeing which, Robert drew a six-shooter. Paul stepped back, and drew a six-shooter. Robert drew a knife and put it between his teeth, and commenced firing. Paul returned the fire, and each fired six shots, and then closed and used their knives. They were mortally wounded.

Paul started for the front door and went out; was followed and brought back and died in twenty minutes. He was shot in the upper part of the breast and cut several times in the abdomen. Robert, when Paul left the room, followed him as far as the inside door, where he fell. struck the wall and skinned his face. He was carried to a temporary couch, and lay insensible nearly three hours, when he also died. He was shot through the left lobe of the brain and ter, Pa., on Sunday night, each accompanied with a heavy in the right side beneath the ribs. They both | peal of thunder. seeined to die of inward bleeding.

During the encounter, a younger brother Perry, shot three balls at Paul, one of which it is said hit him. Solomon Gumberts, a son of Simon Gumberts, was accidentally shot by one of the random balls, in the right thigh. His condition is serious. Such a scene as was presented when the writer reached the hall, may he never again behold. The two brothers lay there within a few feet of each other, cold and pale in death, bloody and ghastly, marred by fratricidal wounds. The floor near the scene of combat was covered with gore, and the plastering pitted with bullet dents. Cathered around were groups of men, some with tears glistening in their eyes, "although unused to the melting mood."

It was providential that no more persons were hurt. Fifteen shots were fired recklessly in a room crowded with men and women! It is rumored that a German was arrested for firing at of the United States. one of the combatants during the melee. The widowed mother and the brothers of these unrevolutionists. > PRICE OF LECTURES. - Popular lecturers occasionally get an exaggerated idea of the value of their services. Bayard Taylor lets himself out to the tune of \$75; Beecher won't open his has modestly announced to an Auburn committee his willingness to enlighten the natives for \$200 an evening .- Buffalo Commercial.

Well, after all is said and done, there is something in a name. There are probably a hundred plicit against crossing the bar, and if she had men in the United States who can lecture fully as well as Beecher who are right well satisfied concerned, we are free to acknowledge that he is a brilliant lecturer, but his abilities are overrated, and considerably overpaid when he gets two hundred dollars for two hours talk. A man having employment regularly at such rates need not envy Fremont his quartz mills, or Law or Vanderbilt their steamship lines. He could soon lay up for a rainy day.

But, as we said before, there is much in a name. "Sylvanus Cobb," through the columns of one of the New York papers, palms upon the public the veriest trash the world ever was inflicted with under the title of romance, and yet he is well paid for it. We can find twenty men in Pennsylvania who can write a better story than any Cobb ever produced, and yet the chances are that any such story sent to the N. Y. Ledger would be consigned to the stove, while the most contemptible balderdash with the name of Cobb attached would be liberally paid for .-Vive la humbua!

PIETY AND PATRIOTISM.—On Sunday evening, while the regular annual collection in aid of the funds of the missionary society of the Methodist E. Church was being taken up, at the Green-street M. E. The feeling thus started in the choir One lady began a subscription to make Governor Hicks, of Maryland, a life member, another contribution towards the amount necessary to make President Lincoln a member, and a gentleman in the congregation proposed the same compliment to Hon. Mr. Stephens, of Georgia. The secession spirit was at a dead discount among the congregation, for there was not a dissenting voice to these unusual proceedings.—Phila. Press.

HIGH FREASON.—Some of our enterprising fellow-citizens, who have been flourishing in the midst of the general commercial prostration of the past few months by selling arms and ammunition to the disaffected Southerners, may find themselves in an unpleasant predicament before the week is out. Judge Smalley of the United States District Court, this (Monday) morning, charged the United States Grand Jury on the crime of high great minuteness; after which he instructed the Grand Jury to inquire into the business of cortain parties in this city, and to indict and present for trial all per-sons who have in any way assisted the sons who have in any way assisted the Nov. 1:312 No. 831 Broadway, New York. with arms, ammunition, or other material

A NEW FRENCH VESCEL OF WAR -A guilboat, on a new model, passed through Toulouse recently, coming from Bordenux, and proceeded? to Toulon, where she is to be prepared for sea. This boat is constructed on an entirely new model, of which the plan is said to have been given by the Emperor. It is composed of steel plates, and will be propelled by two screws, set in motion by a machine of fourteen horse power. It will carry but one piece of cannon. The boat is shaped like a tortois. The mouth of the cannon will pass just over the back of the fish, which will present an inclined plane to the enemy, over which the balls will slide. The crew will be completely sheltered under this roof, of which the force of resistance is so well calculated that the heaviest shot or shell cannot injure it.

Weakness of the Stomach and Indigestion.

Another Great Curv effected by Barhave's Holland Pitters. The wife of Pinter De Witte, living in Holland Town, Shelwygan county, Wisconsin, suffered much from Weak ness of the Stomach and Indigestion She had been under a physician's care for some time, but the disease seemed to baffle even his skill. She purchased some HOLLAND BITTERS at our office, which has given tone to her stomach; her appetite and strongth are totarning, and wefirmly believe that this is another great cure effected by your modicine.

We have still to record many wonderful cures effected by this remedy, but must wait another opportunity. One thing you can rely upon, what we have published are from persons much respected in our community, and are literally true.

The peculiarities of the female constitution and the various to which the sex is subjected, demand an occasionat recourse to stimulants. It is important, however, that these shall be of a harmless nature, and at the same time accomplish the desired end. Mostetter's Celebrated Stomdebility are almost magical. It restores the tone of the digestive organs, infuses fresh vitality into the whole syswhich is the most valuable of ieminine attractions. The proprietors feel flattered from the fact that many of the most prominet medical gentlemen in the Union have bestowed oncominns upon the Bitters, the virtues of which they have frequently tested and acknowledged. There are numerous counterfeits offered for sale, all of which are destitute of merit, and positively injurious to the system.

LATOR, A Book of Plain Rules and Culculations for Business Operations, by Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippingott & Co., Philadelphia. con & Co., Philacelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid

has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find modificulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply andidivide, can pasily solve any ordinary example that arises in business, or arrive at the trueresult of any estimate required.

f any estimate required.

The chief aim of the author has been to eschew theory The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simple lity, believing that business men care little atout spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able a mement; by reference, to arrive at the true result. The CAICULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness. and insures correctness.

THE WORK TREATS OF THE Measurement of Land, of Lumber, of Brick and Brick Work, of stone and stone work, of grain and grain bins, of coal and coal bins, of wood, of solida, of liquids, of cirular, square or irregular vessels, of clataun and vats, of rediant, square or irregular vessels, of clataun and vats, of rediant, of plasterer's, paner's, plumber's, paper hanger's and uphobsterers' work. It treats of currency and of foreign and domestic exchange, of the derivation, of reduction and its extended application to business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing and regulating the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of banking and bank discount, of equalition of payment and of partnershipseconnts, of assessment of taxes, of weights and measures, of equare and cubic measure, of the square root and its application to business of surfaces, of excavation, and of many other important praetical matters not within the scope of an advertisement to mention.
