AP-Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headacho may be classified under two names, viz: Symptomatic and Idepathic. Symptomatic Headache is exceedingly common which are Apoplexy, Gout, Rheumat sm and all febrile di scases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and iers of the bowels, as well as renal and uterin ther disc affections. Diseases of the heart are very frequently at-tended with Headaches; Anæmia and plethora are also af-fections which frequently occasion headache. Idiopathic Headache is also very common, being unsually distin-guished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and

n other instances it comes on slowly, heralded by denres sion of spirits or accritity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking, vomiting; under this class may also be named Neuralgia. For the treatment of either class of Headache the Cepha-

lie Pills have been found a sure and safe renedy. relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Heidache is the unorring index.

Constipation of Costiveness.

No one of the "many ills flesh is helr to" is so prevalent No one of the "many his head is not to is so previous, so little understood, and so much neglected as Costiveness. Often originating in carelesaness, or sedentary itabits; it is regarged as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and com-panion of many of the most fatal and dangerous diseases. and unless early oradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costive usual attendant are Ileahache. Colic. Rheuma ness is t tism, Foul Breath, Piles and others of like nature, while à long train of frightful diseases such as Malignant Fevers, Abceases, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epi-leysy, Paralysis, Hysteria, Hypochondriasis, Melaucholy and Insanity, first indicate their presence ir the system by this alarming sympton. Not unfrequently the diseases named originate in Constipation, but take on an indepen-dent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attentum whenever it a long train of frightful diseases such as Malignant Fevers, ler should receive immediate attention whenever i occurs, and no person should neglect to get a box of Cepha-lic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of discase and destroy this dangerous fee to human life.

Barn, Me., April 18th, 1859. Brut, Me., April 1997. Prof. O. J. Wood & Cn.: Gents:-The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity atid elsewhere, lias gives rise to numerous inquiries touching the facts in the case. The enquiries are, first, is it a fact of my habf tation and name, as stated in the communication; second, is it true of all therein contained; third, does my har still is it true of all therein contained; thrue, does ny man sum continue to be in good order and of instituted toler? To all I can and do answer invariably yes. My finit is even be-ter than in any stage of my life for 40 years past, more soft, thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true. is that the substance is washed off by frequent abintion of the face, when if care were used by wibling the face in close unection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of lotters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various formotinds as well as this, it has. To doubt, been liasely initiated and been used not this without any good effect, but to ulisolute injury.-I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hun-dreds have examined it with surprise, hi I am 1958 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hait or of ity taken off the past week. I received your favor of two ptart bottles last summer, for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were skep-tical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, me a test by which I can discover traud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curves the inventor of the good. I deem it my duty as heretofore, the keep you apprised of the continue effect on my hair, as I assure all who enquire of us of my un-shaken opinion of its valuable results. I remain, dear sir, yours. AARONS RUN, Ky.; Nov; 30, 1858. PROP. O. J. Wood: Dear Sir.- I would certainly be doin you a great injustice not to make known to the workl, the wonderful, as well as unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally in-duced to try a bottle of your Hair Restorative. Now, can-dor and justice compel me to announce to wheever may read this, that I now powers a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommon this invaluable remedy to ALL who may feel the necessity of it. Resp'y you s, Rr. S. ALLEN BROCK, P.
