Sr. VALENTINE'S DAY .- Thursday next is St Valentine's Day, and already we notice Valentine's of different kinds for sale in this place.-Some of them are those miserable, detestable comic concerns, the publication of which should be suppressed as a nuisance. THE BOROUGH ELECTION.—One Week from ed for some time to come. That the men who publish the following card: are to be thus clothed with authority should be the best in our midst, we need not argue. All know how much injury inexperienced and designing men could work, and all know the benefit to be derived, individually and collectively, from the administration of experienced and honest men. Knowing this, we think it becomes the duty of every man in the borough to cast aside all party predilections in the coming election and cast his vote for the men whom he believes to be the best qualified for the offices for which they are named. We have, and ever shall continue to oppose political nominations. for borough offices, for the reason that such a course almost invariably fails to secure the best men for officers, and it is no benefit to a party to nut unqualified men in office simply because they belong to the party.

An issue which does not exist, is sought to be raised at the coming election, for some purpose, generally will unite in frowning down any at- voice:tempt to get up an issue which must, from the AN ACT relative to Fire Companies of this nature of it, result in injury, not only to a few individuals pecuniarily, but to all socially. We care not to see the contest a warm one between the rival candidates and their friends-in fact we wish to see it a warm one, as in such cases the best men are successful. We uphold the doctrine that every man has a right to work and vote for whom he pleases, but we denounce the man who wilfully attempts to create a false issue-one which must live after the contest is over and work evil-merely to secure his own the case with most of the offices in this place for some time past.) Amusing Street Scenes .- The slippery pavements, on Saturday morning last, were productive of some very amusing scenes in the way of ground and lofty tumbling, and, while we do not wish to be considered sacreligious, we can not help saying that the saints who attended market on that morning found themselves on equally slipping places with sinners. Many persons sat down suddenly, without invitation or inclination, although the seats were free that morning. We noticed a number, whom we thought had long since given up childish sports, taking short rides on the seats of their corderoys, much to the detriment of the latter. So far as we have learned, no person was seriously injured, although there were a number of collisions and breakdowns.

FROSTED FRET .- It is said that frozen feet can be speedily and certainly cured by being bathed and well rubbed with kerosene or coal oil, for a few times at night before retiring to bed. Several persons have already tried it, all of whom unite in pronouncing it an effectual cure, which, if they are correct, is an easy and cheap mode of getting rid of a very scre and troublesome affliction. Those who have tried it inform us that the feet should be well warmed by a hot steve during and after the application of the oil, and it will certainly effect a speedy cure. Persons suffering from the pain of frosted feet, will, no doubt, do well in giving it a trial, for it is surely a very cheap continent, and one which is very easily applied.—Pitts. Chron-icle.

Capt Smith, of the Echo, accepts our offer of the Revolutionary bayonet, and desires it forwarded by a special train, if not inconvenient. That mode of conveyance will be rather inconvenient, Captain, in consequence of the fact that all the cars and locomotives of the P. R. R. are now required to transport the cotton of the Southern States which is now shipped around this way because of the troubles in the harbors of Southern States. Are the secession. ists not being whipped with their own rod, Captain? We will forward you the bayonet by the fered in the Senate of the U. S. by Senator Crit hands of a brother soldier of the Mexican war, tenden, with Bigler's amendments, believing which will be equally as honorable a mode of conveyance as a special train.

Within the last three months, over 18.000 bales of cotton have been shipped to the manufacturies in the East, and to Europe, over the Penn'a Railfond, and we learn from the heal up the distracted condition of this glorious | Pittsburgh papers that some 8,000 bales are now on boats coming up the river, besides a great quantity in store at Memphis, Louisville and other shipping points waiting for boats, all of which will be sent East over the Penn'a R. R. Certainly "it is an ill wind that blows nobody good." The shipment of cotton by this route is in consequence of the blockading of Southern harbors by the secessionists. If they can stand

The disappearance of Mr. Bolger is still a matter of profound mystery. The family have. as yet, no positive or reliable information as to his fate or destiny. Mr. Bolger is a man 50 years of age, some six feet in stature, of spare features prominent forehead, straight dark hair, mixed with gray, and a little thin on the top, and when he left his home was dressed in dark clothes, low shoes, and a dark straw hat. In point of morality, Mr. Bolger stood high in the ommunity in which he lived, and his habits of ndustry were very exemplary. His business profession is that of a carpenter. Correction. Mesers. Editors:-An article having appeared in your last issue, stating that Mountain Commandery would go to Harrisburg on the 22d, provided an invitation was extended to them, allow me to state that Mountain Commandery does not court any invitation from any one, or under any circumstances. The mistake occurred in this way: Some of the members of that body having heard that it was in contemplation by the committee of arrangements to extend an invitation to our Order; the remark was made that Mountain Commandery would probably go, if a formal invitation was given. That invitation has since been given, and the question of accepting it must be decided by the Commandery itself. As American citizens, we

are deeply sensible of the dark cloud that now hovers over our beloved country; and we are anxious to do all in our power to avert the impending calamity, we are willing to go to Harrisburg, to Washington, or any where else under the broad canopy of Heaven, if by so doing we can add one iota towards restoring peace and harmony to our country. THE ONLY DISCOVERY Worthy of any Confidence FOR RESTORING THE BALD AND GRAY.

BATE, Me., April 18th, 1859.

Prof. O. J. Wood & Co.: Gents:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; resting the case. The enquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care washed of the property the facility store. is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair, still continues to be good; as there, is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated and been used not only without any good effect, but to absolute injury.— There are the same and any of your Restorative of any account for I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to old and not a gray hair in my head or on my face; and to prove this fact; I send you a lock of my hair taken off the past week. I received your favor of two quart bottles had summer, for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were skeptical antifactor trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without anthority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty which curses the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results. I remain, dear sir, A. C. RAYMOND.

AARONS RUN, Ky., Nov. 20, 1858.

PROF. O. J. Wood: Pear Sir.—I would certainly be doing

you a great injustice not to make known to the world, the world, is well as unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to wheever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable temedy to all who may feel the necessity of it. Resp'y you s, Rev. S. AllEN BROCK. f it. Resp'y you s; REV. S. ALLEN BROOM
