An aperient and stomachic preparation of Iron purified An aperion and stomachic preparation of from purious of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of the carbon control of ration of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every concei-In Debility, Nervous Affections, Emaciation, Dyspepsia.

Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pamples on the Face, dv In cases of General Debility, whether the result of acute iguments of the joints.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible.— Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested by Female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and the complication of nervous and dyspeptic aversion to air and exercise, for which the physician has no name. In Nervous Afflictions of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old ex-ides, it is vigorously todic, without being exciting anp overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable scusation. It is this latter property, among others, which makes it to remarkably effectual and permanent a remedy for Piles upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most nakitual cases, including the attendant Costiveness.

In unchecked Diarrhova, even when advanced to Dysen ery, confirmed, emaciating, and apparently malignant, he effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate In-cipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and nteresting instances.
In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced pre-parations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invi-

ted to this remedy and restorative, in the cases peculiarly afflicting them. In Rheumatism, both chronic and inflammatory-in the latter, however, more decidedly—it has been invariably well reported, both as alleviating the pain and reducing the swellings and stiffness of the joints and muscles. In intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probaby be one of high re-

nown and usefulness.

No remedy has been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sauction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained

by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be abig to state confidently that the "Bitters" are a certain cure for the Dyspepsis and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purities the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate. invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrheea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial CAUTION.—We caution the public against using any of the many imitations or counter-

feits, but ask for Hostetten's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
