CHILD DESERTION: ON THE CARS -The Friday Express train from Pittsburgh carried to Harrisburg a child apparently about five or six days old, which bad been cruelly deserted by its mother. It appears that a man and woman in company got upon the train at Tyrone station, this county, the woman having with her a child. As the train approached Huntingdon, the woman entered the saloon attached to the Sr, at the advanced and venerable age of 57 years. ladies' car, and at that station she and the man accompanying her got out. After the train had proceeded fifteen or twenty miles, a passenger entered the saloon, and found the baby lying upon the seat, snugly wrapped up. He apprised Mr. Solomon D. Grone, the conductor, who got one of the lady passengers to take charge of the child until something could be done in the matter. Subsequently a lady named Mrs. Lee, of Pottsville, expressed a willinguess to keep the child and raise it, as she had been married for eight years and never been "blessed with a baby." She and her husband stopped at Harrisburg; but previously to leaving the train the child was christened Abraham

T. II E ONLY DISCOVERY Worthy of any Confidence

FOR RESTORING THE BALD AND GRAY. Many, since the great discovery of Prof. Wood heya attempted not only to inflate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and

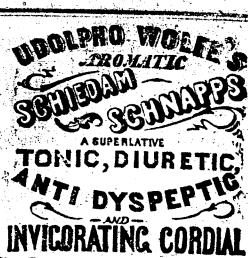

have been forced to leave the field to its resistless away. Prof. O. J. Wood & Co.: Gents:—The letter I wrote year in 1856 concerning your valuable thair Restorative, and which you have published in this vicinity and elsewhere, the case. The enquiries are, first, is it a fact of my habitation and name, as stard in the communication; second tation and name as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of matural coloris continue to be in good order and of natural colors. To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft thriffy and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substauce is washed off by frequent ablution of the face, when if care were used by winds the face in class. the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow a the hair. I have been in the receipt of a great number letters from all parts of New Englishd, asking me if m of letters from all parts of New English, asking me if my hair still continues to be good; as the o is so much fraind in the manufacture and sale of various compounds as well as this, it has, no doubt, be a basely imitated and been used not only without any good effect, but is dosolute injury.

I have not used any of your Restorative of any account for some months, and yet my half is as good as ever, and bundreds have examined; the with surprise, as I am now 61 years old and not a gray pair in my head of on my face; and to prove this fact, I seeld you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were show friends and thereby induced them to trick, many were skep tical until after trial, and then purchased and used it with tical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Hestorative, sold by many. I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the inipure article, which curses the inventor of the good. I deem it my duty as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who enquire of me of my unshaken opinion of its valuable results. I remain, dear sir shaken opinion of its valuable results. I remain

POHRER'S PRACTICAL CATCOL LATOR, Putty Rules and Culculations for Busheles rations, by Martin M. Rohrer, Practical Surveyor and Omveyancer. New Edition, published by J. B. Lippmerell & Co., Philadelphia. This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical and arise every day in the common partition of Business. It has already passed through a number of editions in rapid. auscession, and is pronounced by all classes of husiness men to be the handlest book of reference, pertaining to del entations, that has ever been published.

Every example in the book is worked out in full and attend in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving those reterring to the work will find nothing it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the tructesuit of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and dimplicity, believing that business men care little about apending time in discussing the philosophy of rules, or the science of figures, deening it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALULIATOR differs in this respect from all other Artibnicities of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the tracher in the school room—it facilifates this liands of the teacher in the school room—it facilifates this and insures correctness.
