PRITIBURO. Jan. 11th. 1860.

DR. KEYSER:—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which for several years back had gradually increased in violence. The complaint has been hereditary, and she had been treated by several the singles, without the several the singles. been treated by several physicians without any relief. In been freated by several physicians without any relief. In this state of her case I produced some of your Pectoral Cough Syrup. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and sough. The inclicine cured me by taking one dose. I express my entire satisfaction with the medicine and you are at liberty to publish this if you desire to do so WM. WILSON. Alderman, Fifth-Ward.

Pirrisbung, Nov. 18th, 1858. ER. KETSER :- Although not an advocate of Patent Medisine in general, it affords magness pleasure to recommend your Pectoral Syrup. As a medicine it is well worthy the attention of any person who may in any manner be affected with coughe, colds and hoarseness of any kind, and for the monitor medicant of the control of the cougher of the cough the peculiar qualifications for removing all that disagreesble sensation attending a cold. I have been more or less, in my life affected with the severest colds of hearseness. At times my throat would as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would in rec mmending this medicine, I must unhesitatingly say that it is the best medicine I ever found, purporting to ours the above; nor should any family be without this

remedy for diseases so prevalent
Yours, most respectfully. EDWARD J. JONES, Cashler, Citizens' Deposit Bank.

A WONDERFUL CURE.—Some time ago, an old neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief shot he could not live. I had about the thirst of a bedief she he could not live. I had about the third of a bottle of your Pectoral Syrup, which I gave him, and it waterely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the max, he being about eighty years oid. I have no doubt the Pectural saved his life. JOHN M'GINNIS.

A MOTHER'S THOUGHT. DF PRANCIS D. GAGE.

Silent and lone, silent and lone, Where, tell mo, where, are my little ones gone, That used to be playing about my knee, With their noisy mirth, and boisterous glee ? Who littered the carpets, and mis placed the chairs, Who called for their suppers with tager shout, And while they were getting, ran in and out, Who kept all the apples and nuts from spoiling, And never saved jackets or pants from soiling; Had ever a want, and ever a will That added a cure to my heart, until I sometimes sigh d for the time to come,

When they'd all be big, and go out from home. lent and lone, silent and lone, Where, tell me where, are my little ones gono? There's no little faces to wash to-night, No little troubles for mother to right, No little blue eyes to be sung to sleep, No little playthings to put up to keep, No little garments to be hung on the rack, No little tules to tell, no nuts to crack, No little trundle bed, brim full of rollick, Calling for mamma to settle the feolic; No little soft lips to press me with kisses-(Oh! such a sai, lonely evening as this is!) No little voices to shout with delight; "Good night, dear mamina, good night, good night."

Silont and lone, silent and lone, Where, tell me where, are my little ones gone; It seemeth but yesterday, since they vere young; Now they're all scattered, the world's paths among, Out where the great rolling trade-stream is flowing; Out where new firesides with love lights are glowing; Out where the graves of their life-hopes are sleeping, Not to be comforted-weeping, still weeping; Out where the high hills of science are blending Up 'mid the cloud-rifts, up, up, still ascending; Seeking the sunshine that rests on the mountain, Drinking and thirsting still, still at the fountain; Out in life's thorough fares all of them moiling; Out in the wide, wide world, striving and toiling. Little ones, loving ones, playful ones, all, That went when I bade, and come at my call, Have ye deserted me? Will ye not come,

Silent the house is; no little ones here,

To startle a smile or to chase back a tear.

Back to your mother's arms-back to the Home? Silent and lone, silent and lone, Where, tell me where, are my little ones gone? Useless my cry is. Why do I complain? They'll be my little ones never again! Can the great oaks to the acorns return? The broad rolling stream flow back to the byrne? The mother call childhood again to her kace, That in manhood went forth, the strong and the free? Nay! nay! no true mother would ask for them back; Her work nobly done, their firm tramp on life's track; Will come like an organ note; lofty and clear, To lift up her soul and her spirit to cheer! And though her tears fall, when she's silent and lone, She'll know it is bost they are scattered and gone! Silent and lone! silent and lone!

Thy will, O Father! not my will, be done! Select Miscellany.

A PANTHER AND HIS VICTIM.

The victim was a young physician, who hung out at the Blockhouse village, and had, it is said, more love for, and skill in shooting, than surgery. Some ten or twelve miles from the Blockhouse is a place called the "English Settlement," and between the two places an unbroken forest extends nearly the whole way; there is no road through, but the settlers have "blazed" a line, and on this line the doctor started one morning to the settle-exhibited by the fish. He was not expected at the settlement, nor did he arrive there; but it happened that two or three days afterward, a man came through from the latter place, and on being questioned by the doctor's, friends, gave the rather startling information that no doctor had arrived.
