trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from dandraff and other culaneous discases, canses the hair to grow luxurient-ly, and gives it a rich, soft, glossy flexible appearance, and also where the hair is loosening and thining, it will give strength and vigor to the roots, and restore the growth to those parts which have become bail, causing it to yield a fresh covering of hair. There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has al-rendy changed its color, the use of the Invigorator will with certainty restore. We aperture for the tollet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great tacilities it affords in dressing the hair, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curis—hence the great demand in the high and so the great tacilities it affords in \$8 to \$1 10 to 20 8 to 80 7 to 30 10 to 80 10 to 30 place, whether plain or in carls -hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach 5 to 12 6 to 12 of all, being.

gender sex. There are certain periods when

their cares are so harassing that many of them

sink under the trial. The relation of mother

and child is so absorbingly tender, that the

mother, especially if she be young, is apt to forget her own health in her extreme anxiety

for her infant. Should the period of maternity

arrive during the summer season, the wear of

hody and mind is generally aggravated. Ifere,

then, is a necessity for a stimulant to recupe-

rate the energies of the system, and enable the

mother to bear up under her exhausting frials
